asked to erect temporary structures of canvass and wood or even set up commodious tents on the more convenient island shores.

Every "Swimmin' Hole" Popular In all the city's history the many little islands, sandbars, big rocks and other notable "swimmin' holes" were never so popular perhaps as during the hot months of the present summer. Thousands seek the river basin every evening but the greatest crowds flock to the river on Sundays.

days.

One by one, in twos, threes, squads, grownups and whole families—they all go a-bathing nowadays. When the ferry to Independence island can no long carry more then the cances the motorboats, the rowboats and even an occasional sand flat are requisitioned to "take out" the bathers. And hot a few of Harrisburg's future presidents of the United States never even bother about a boat—they slip into the Susquehanna from offshore and risk their chances with the park cop. (At that the park cop usually turns a vigilant eye inland if he does happen to spy a small Septembermorn like figure offshore.)

Take Mother Along

The bathing beach on Independence island was crowded last Sunday to the final inch of sand; the lockerrooms, scarcely commodious at best were Jammed beyond their capacity. Every other available other sandbar, strip of island beach or diving rock had its bunch of swimmers.

Far out on one tiny islet that ordinarily could scarcely boast at being more than a grass patch was a delightful watering place for a middie-aged chaperone and a group of splashing, gaily clad feminine swimmers. And mamma, the chaperone, sheltered herself from the sun's rays with a commodious umbrella.

Because the season is so far advanced it is considered doubtful if much can be done in the way of obtaining even temporary bathing-house facilities this year although the wheels have been set a-going and it is quite likely that definite action on the subject will be asked of Council at the next meeting of the "Navy."

The Labor Day Carnival

Further plans for the Labor Day carnival were discussed and an interesting report on the big inter-high school "war cance" race was made by W. C. Fisher. One cance is in sight and there are possibilities of others. Committees on cance, swimming and other entries for the races will be appointed at a meeting of the executive committee will hold a brief session at the same place at 7.80 clock.

Detroit, Mich., Aug. S.—By losing today's game to Detroit, the Athletics
placed themselves in a position to tie
Boston's record of twenty consecutive
defeats, established years ago. The
Athletics had an excellent opportunity
to end their losing streak, as Myers
was very good and Coveleskie bad.
One player, however, Haley, put then
out of it in two bad innings. Two men
were walked in the second, and Haley
had two wild throws, two runs resulting. In the seventh the first four
men to bat hit Coveleski safely. Haley
tried to wait out the Pole, though he
had not given a pass during the game,
and was struck out.

Mr. Blough received his education in the public schools of the city and began business as a traveling salesman. In 1891, with his brother, Burton F. Blough, treasurer and general manager of the Elough company, the business was started at 1724 North Fourth street.

The company remained at that site for two years, then removed to Third and Hamilton streets. In 1906 the plant at Fulton and Reily streets was opened and the business has been continued there ever since. Additions have been built from time to time and the company has gradually increased its manufacturing output until it is one of the foremost firms of the kind in Central Pennsylvania.

HOTTEST DAY IN NEW YORK

By Associated Press

New York, Aug. 8.—Although the humidity was lower, this city was plunged into another heat wave today, the mercury ascending in leaps long before noon. At 10 o'clock the Weather Bureau thermometer registered 83 as against 77 yesterday. The humidity was 80, compared with 93 at the same hour yesterday. That this would probably be the hottest day of the year was indicated by a rise of three degrees in the temperature between 9 and 10 a. m. There have been five deaths and nineteen prostrations during the last 24 hours. The forecaster offered no immediate promise of relief. Record and Get Prominence
