Prices Harden in All Quarters; U. S. Steel and Rails Improve

SHORT INTEREST

Improve

By Associated Press

New York, Aug. 8. — Prices hardened in all quarters during the forencon, the short interest being again impelled to cover on the apparent scarcity of stocks for speculative purposes. U. S. Steel assumed its former place as the most active issue and was freely taken at a fractional advance. Rails also improved, although Reading and Union Pacific Newere the only representative issues to show substantial gains. Marine pfd., the Mexicans, Beet Sugar and some of the War and semiwar descriptions rose a point or better, with as much for Third Avenue. Bonds as much for Third Avenue. Bonds were irregular.

can be manufactured from cotton stalks.

The discovery is not considered of much importance for Germany, which produces no cotton, but is pointed to as of vast importance to the United States, the greatest producer of cotton in the world, because of the shorting of paper reported in that country. The discovery was made, it is stated, by a German institution while carrying out a commission from an Egyptian firm, given before the war. A shipment of stalks, which had arrived from Egypt before the opening of hostillities, was used for the experiment. The stalks were cut and ground, boiled and bleached, and the paper making then proceeded after the usual methods. NOTICE is hereby given that application will be made to The Public Service Commission of the Commonwealth of Pennsylvania for the approval of a contract between the Borough of Highspire and Harrisburg Light & Power Company for lighting the streets, highways and public places of said Borough.
