**Shortage of Coal Threatened**  
A recent bulletin from the coal regions sounds this warning:  
Shorter hours; shortage of labor; shortage in production; these are the conditions now existing in the coal regions. Those who say, "We will buy coal as and when we want it," will discover that the supply is not under pressure like water at the kitchen sink, which can be drawn on at will and without limit. Existing conditions foreshadow the most serious shortage of coal this winter that we have known since the strike of 1902.  
If you would be advised, buy coal now—the supply is sufficient for all orders, and Kelley is still selling coal at the old prices that obtained before the recent advance.

**Removes Hairy Growths Without Pain or Bother**

(Modes of To-day)  
It is not necessary to use a painful process to remove hairy growths, for with a little delatone you can keep the skin entirely free from these beauty destroyers. To remove hair, make a stiff paste with a little powdered delatone and water. Spread this on the hairy surface and in about 2 minutes rub off, wash the skin and the hairs are gone. To guard against disappointment, be careful to get real delatone.

**HERE'S YOUR CHANCE TINY LADY SAILOR TO GET "NAVY" UNIFORM**

"Greater Harrisburg" River Regulation Middy and Cap Will Go to Youngest "Recruit"

If you're not a very small feminine person with aspirations toward enlistment in the Greater Harrisburg Navy, this story will scarcely interest you.  
Of course you know that the "Navy" has adopted as official a river uniform, consisting of the regulation middy blouse and white duck round service cap or hat, just like Uncle Sam's sailors wear. So this is the inducement: To the youngest girl sailor whose enlistment is recorded with V. Grant Forrer, secretary, before 6 o'clock Tuesday evening, August 15, William Strouse, of the Strouse New Store clothing house, will present gratuitously a regulation middy blouse and sailor cap—just like big brother or sister will be wearing on the river during the Labor Day carnival and regatta. "Navy" insignia will be on the uniform. NOW, tiny would-be lady sailor, you DO want to enlist, don't you?

**MODERN SAFETY MUST BE THE RULE**

Deputy Attorney General Kun Says Present Day Must Be Considered on Laws

Safety gates for mine cages may be approved for use in coal mines of Pennsylvania by Chief of Mines James E. Roderick if they meet requirements of safety contemplated by the acts of the Legislature and rules and regulations of the department even if control is not controlled by a method prescribed by a statute of 1911 according to an opinion given to Chief Roderick to-day by Deputy Attorney General Joseph L. Kun. The gate in question has been approved by twenty-seven of thirty haminous inspectors while three have not consented to its use because of control being different from what is required by the act of five years ago. In rendering his decision Mr. Kun says "The reference in the portion of the act above quoted to the control of safety gates by the cage at the top and intermediate landings" must be regarded merely as descriptive of appliances and apparatus then known to be safe and efficient. It is in no sense a mandatory provision. To hold otherwise would put a handicap on the improvement of the Public Service Commission to-day fixed September 12 in Allentown as the time for hearing the Bethlehem bridge and grade crossing cases. Orders have been issued for company K, of the separate infantry battalion at Sunbury, to proceed to-morrow to Mt. Gretna to be mustered into the United States service. The company is to be recruited as company F of the Fourth infantry to replace the Pottsville company which was transferred to engineers. The Milton and Williamsport companies will go to Mt. Gretna to-morrow for recruiting duty. The Valley Railways company to-day filed its answer in the Wormleysburg transfer case before the Public Service Commission. It objects to the plan proposed and asking for a hearing.

**STATE EXTENDS ITS QUARANTINE**

Open Sanitary Hospital One of the smaller outbuildings near the city sanitary hospital south of the almshouse was fitted up to-day for the accommodation of tiny Lena Napo, the only baby in Harrisburg who is in a really serious condition with an attack of infantile paralysis. Because of the number of children in the family, the city bureau of health and sanitation thought best to isolate the case as completely as possible.

**Plague Beginning to Assume Big Proportions in Philadelphia and State**

Philadelphia, Aug. 11.—With sixteen cases of infantile paralysis reported in the city during the twenty-four hours ending this morning at 9 o'clock and a total of 58 cases in the city since Monday morning alone, the health authorities are beginning to assume serious proportions, in the eyes of the health authorities, and renewed efforts are being made to check its growth and keep it out. Since the first of July there have been 148 cases, with 28 deaths.  
Every employe of the Department of Health and Charities whose work is in any way connected with the health service in the city has been recalled from his vacation and put to work. Meetings of physicians have been called and the co-operation of the whole city is asked in the fight.

**P. R. R. Posts Notices in Fight Against Epidemic**

Philadelphia, Aug. 11.—As a measure of co-operation with the health authorities in checking the spread of infantile paralysis, notices are being posted to-day in all stations, waiting parlors and other public places on the Pennsylvania railroad. Notices are being posted in the cars of the Pittsburgh and Erie calling attention to the necessity for complying with the quarantine regulations.  
On account of the prevalence of infantile paralysis, additional quarantines are being established daily, and quarantine officers at such quarantines will stop all persons under 16 years of age here buying transportation to any point. Compliance with this recommendation will save great inconvenience and delay.

**INFANTILE PARALYSIS AT 66**

Special to the Telegraph  
Wilkes-Barre, Pa., Aug. 11.—A puzzling case of infantile paralysis was reported here to-day to Dr. Charles H. Miller, representative of the State Department of Health, by a woman 66 years of age, Mrs. Mary Cerzenak, of Larksville, two miles from this city.  
The woman became ill a few days ago, and the history of her case is typical of that of a young child. One leg has become paralyzed. The State Department informed Dr. Miller that it has record of similar cases in other epidemics.

**WILL NOT OPEN SCHOOLS**

Philadelphia, Pa., Aug. 11.—The opening of the public schools in this city next month will be deferred indefinitely unless there is an abatement in the spread of infantile paralysis, according to a statement to-day of Dr. Wilmer Krusen, director of the local Department of Public Health.

**NEW YORK EPIDEMIC DECLINES**

New York, Aug. 11.—The epidemic of infantile paralysis showed another slight decline to-day and health experts who are fighting the scourge popularly known as "the little boy" weather which relieved the city yesterday would materially check the spread of the plague. The daily bulletin of the health department shows that during the twenty-four-hour period which ended at 10 a. m. 31 children died of the disease and 165 new cases were reported in the five boroughs of New York city. These figures compare favorably with yesterday's when 38 children were killed by the plague and 175 stricken.

**Case of Disease Is Discovered at Lebanon**

Lebanon, Pa., Aug. 11.—A case of infantile paralysis was discovered here yesterday, the victim being the two-and-a-half-year-old son of Ulrich Seigel, of New Jersey. The child came here last Saturday, accompanied by his mother, to visit his grandmother. The little one became ill on Tuesday and died last night. The health department immediately placed a ban on children entering and leaving the city and directed the closing of moving picture shows. Sunday schools and other public places to children under 16 years of age. Orders were issued penalizing persons maintaining dirty premises and half of the police force was delegated as health inspectors.

**TO GIVE SMOKER**

**OUTER DEFENSES NOW THREATENED**

Monte Sabotino and Monte San Michele. While the success of the Italians undoubtedly was due largely to the new heavy artillery, which matched at last, after a year of waiting for their manufacture, the heavy 305 millimetre Austrian guns, yet hand to hand fighting was appalling in fierceness, bayonets, knives, bombs, cavalry swords, pistols and arms of every description being used.  
Personal deeds of heroism were plentiful, especially in connection with the Italian use of a new method of destroying barbed wire entanglements, involving the almost certain death of the soldier who plants the bomb for this purpose.  
The taking of Monte Sabotino, the key to Gorizia and the vast section surrounding it, is regarded as the biggest feat in all the fighting in the lower Isonzo region.  
FLIERS BOMBARD SHIPS  
Berlin, Aug. 11 (via London).—Successful attacks by German air squadrons on British war vessels off the Flemish coast and on Russian aviation stations on the island of Cesel, off the Gulf of Riga, are announced in an admiralty statement issued to-day.

**Captain McCoy Is Made Acting Chief of Staff**

Captain Frank K. McCoy, of Lewis-town, of the Third Cavalry, and widely known in this city, has been appointed acting chief of staff to General Parker. With this appointment he becomes the strategist for about 35,000 regulars and militia in the eventuality of invasion of Mexico. Since May he has been the district adjutant for the Lower Rio Grande valley. The new appointment carries with it the rank of colonel.  
The new chief of staff is the man who captured Pato All, the last and most famous of the Geronimo band. He has been military aid to ex-President Roosevelt and served as aid to ex-President Taft, when the latter visited Cuba. For the greater part of the last ten years, Colonel McCoy has been aid to Major Leonard A. Wood.

**SPELL-BINDING TRIP BY WILSON**

urging him to make a number of speeches but he has been withholding a decision until the work of Congress had progressed further. It was known definitely to-day however, that if President plans were carried out the President would go to the Pacific coast. Senator Phelan to-day invited the President to speak in California some time during the campaign but was told no definite plans could be taken up for at least two weeks.  
One of the suggestions for the proposed trip is for the President to review some of the troops on the border but no decision on that has been reached.  
Invitations from cities in all parts of the country are before the President but none will be accepted until they have been gone over carefully by Vance C. McCormick, chairman of the Democratic National Committee, and other Democratic leaders.  
The possibility that Congress may remain in session after September 1 is preventing the President from making any definite campaign plans. He wants to make no long trips from Washington until after adjournment although he has accepted an invitation for a brief visit to St. Louis September 20. The President will do much campaigning at his summer home at Long Branch, N. J., where he will receive delegations.

**Austrians Vainly Trying to Reform Shattered Lines**

Rome, via Paris, Aug. 11.—The importance of the Italian successes around Gorizia is becoming more evident hourly. The battle is continuing behind the city over a front about 12 miles long. The Austrians have been being driven along the railroad in the direction of Dornberg, eight miles southeast of Gorizia, and over the national highway to Schon Pas, six miles to the east, and are now attempting to reform their front on a line extending from Vipaco to Tar-nova.  
Meanwhile the Austrians are attempting to make the offensive at Monte Nero and various other points of the Italian front, but thus far have been unable to divert the Italians from their operations behind Gorizia.  
Popular enthusiasm is at high pitch throughout Italy. Congratulations are pouring in from all parts of the world to King Victor Emmanuel and General Cadorna. The king and the commander-in-chief have been particularly pleased by messages from Italians in New York and other parts of the United States.  
Letimbro Fired on U-Boat; Troops Believed on Board  
An Amsterdam, Aug. 11, via London.—A semiofficial account of the sinking by a submarine recently of the Italian mail steamship Letimbro, received to-day from Vienna, says the Italians fired on the submarine with two guns, and that there were troops on board.  
"After the submarine had fired a warning shot at a distance of 8,000 meters," the statement says, "the vessel opened fire from two guns at the stern and attempted to escape by zig-zagging. The submarine pursued the steamship replying to the fire without hitting the vessel, which had shown no flag. Later boats were lowered by the steamer. After ascertaining that no one remained on board the steamship was sunk by the submarine."  
"Approaching the boats, the submarine ascertained that of 30 persons on board, 29 were killed, which confirms the suspicions of the submarine commander that he had sunk a vessel with troops on board."

**Deeds of Heroism in Lower Isonzo Action Many**

Rome, Aug. 10, 9.30 A. M., via Paris, Aug. 11, 12.30 A. M.—Latest reports shows that the lower Isonzo action is drawing to a close in its first stage with the list of Austrian prisoners growing. The number of men killed or wounded is large.  
From evidence arriving here the belief prevails that the victory of the Italians was not due to the demoralization of the Austrians, as the fighting was the severest seen on this front. The Austrians contested every foot of the ground about Gorizia, even after the loss of the strategic points of
