ntered at the Post Office in Harris-burg, Pa., as second class matter.

TUESDAY EVENING, AUGUST 15.

All people that on earth do dwell, Sing to the Lord with cheerful voice.

-JOHN HOPKINS.

FAIR PLAY FOR POSTAL MEN LL fair-minded and patriotic citiof Michigan, success in the fight ruptcy in the year to come:
he is about to make for the militiaThe price of paper, which men who in normal times are employ-

ed in mail service. Many private institutions have announced that they militiamen their regular salaries while they are on military duty, or will at least give them the difference between their regular salaries and the amount it may be necessary to pay substitutes to perform their regular duties, according to

Senator Townsend.
Not so the Post Office Department. In what the Senator terms "a bluff at economy," not only have the militiamen been dropped from the government rolls, but instead of employing temporary substitutes the Postmaster General has appointed men to the permanent roll to fill the vacancies, thus putting himself in a position where he cannot, without an act of Congress, cents an hour, while most of the regu-

shooting and frying bacon and rookies bathing in the latest approved miliins until our one vision of American defense has come to be khaki. Now the navy is going to see to it that we hear a thing or two from Gardner's Bay and renew our acquaintance with the white maritime uniform—after all,

side the city limits. It is obvious that the Front Steps and walk must be con-tinued from Maclay street to Rockville, and even beyond, with the development of "Greater Harrisburg."

PAPER FAMINE AND PRICES
THE MANUFACTURERS' REC-

ORD, of Baltimore, one of the foremost trades publications of the country, thus comments on the paper famine which is threatening the A zens will wish Senator Townsend, newspapers of the land with bank

The price of paper, which has advanced from 100 to 200 per cent. or more over prices prevalling a year ago, seriously threatens the life of a large number of publications throughout the country and greatly lessens the profits of others. It is doubtful if any other large in industry in the United States has had to face so serious a situation, because when prices of raw materials have advanced the manufacturers of the finished products thrown the burden on the ultimate consumer. In the newspaper business this has not yet been done. The newspapers, from the largest dailies to the smallest weekles, have been bearing the burden which to many publications will mean complete destruction and to many others the wiping out of all profit. Had the newspapers of the country been as prompt to defend their own interests as they have the wiping out of all profit. The property of the country been as prompt to defend their own interests as they have the construction price.

The reluctance of the newspape

The reluctance of the newspaper nescore those serving with the National Guard. Furthermore, the pay of substitutes is fixed by law at forty cents an hour, while most of the regu-

facilities from up-valley points noth-

Bay and renew our acquaintance with the white maritime uniform—after all the principal means of American defense.

The readiness of the response to this call of the navy is another proof that American youth is as fond as ever of the strenuous life and as prone to adventure as the lads who ran away to become cabin boys in the frigates of long ago.

One fruit grower in Adams county has set out within a comparatively few years 40.00 apple trees and more than arrayielding thousands of bubbles of any every year. Yet a few years and the profice of the repost and that the men have been sizely that every policeman in the city is now a humano officer and home the growing section.

Publishers Up Against It [Saturday Blade, Chicago.]

[Saturday Blade, Chicago.]

Possibly there is no manufacturing business in the United States so thoroughly unionized and operated by union men as the printing and publishing industry. It is seldom, however, that there is any serious trouble between employers and employes.

It is the business of the publishers to keep well posted on the general condition of the country and the cost of living. Printers or workmen in printing and publishing offices are of an intelligent class and come into pretty close contact with their employers. The union demands of the printers and allied trades have heretofore not been out of proportion to the cost of living

in the United States and Canada to shut down and for the others to make a market price for paper lower than the price when the waf began. The present profit on the manufacture of paper will pay the full cost of building and equipning any mill in the United States during the next twelve months. In fact, I know of two paper manufacturers who have cleaned up in the last six months a profit greater than the amounts for which they were willing to sell their whole property at the start of the year.

Politics in Pennsylvania

banners within a reasonable time.

There has been growing up in Harrisburg during the last year or two a similar nuisance and it would seem to be the duty of the officials of the proper department to stop the thing before it goes any farther. Some years ago in the city of Denver Mayor Speer issued an order requiring all signs suspended over sidewalks to be removed within a fixed period and as a result thousands of dangerous signs came down promptly.

In view of the fact that the city is eliminating poles and wires which obstruct the highways it is hardly reasonable too suppose that permission will be given for a suspension of signs and banners of all sorts which tend to reduce the width of the sidewalks and endanger pedestrians.

Several large stretches of land along the Several large stretches of land along the Suguehanna river between the city and Rockville have recently changed hands and it is common report that a considerable number of fine homes will be established in this section within the year. With the development of this residential section will come also proper treatment of the river frontage outside the city limits. It is obvious that the wew of the city should be completed and along the stablished in this section within the year. With the development of this residential section will come also proper treatment of the river frontage outside the city limits. It is obvious that the wear of the city than a considerable number of fine homes will cover the city and a considerable number of fine homes will be established in this section within the year. With the development of this residential section will come also proper treatment of the river frontage outside the city limits. It is obvious that the wear of the county be considered to the city of the city o

—One of the busiest men in the district is Congressman Aaron S. Kreider, who is a candidate for re-election. Mr. Kreider is the head of a big and growing business and between that and keeping in touch with conditions at Washington he has had no time for vacation. "I'll take it campaigning through the district," he told a friend yesterday, his first effort in that direction to be an afternoon spent at the Middletown fair this week. -Here's hoping that the cool snap

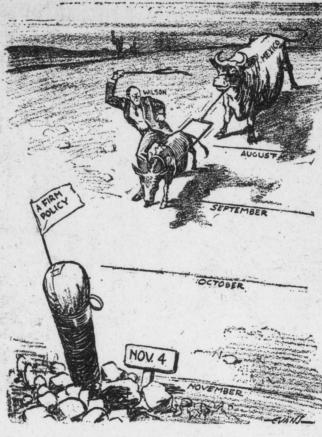

rection to be an afternoon spent at the Middletown fair this week.

—Says a special dispatch from West Chester: "Indications point to an old-fashioned Republican sweep in November. carrying the entire county ticket that includes T. Larry Eyre for State Senate, and Maris M. Hollingsworth, Samuel P. Whitaker and H. C. Graham for Legislature. All are sound Republicans, active workers and highly respected throughout the county. While Mr. Eyre has been the acknowledged Republican leader for a quarter century, this is the first time he has run for a State office. He is a close friend of Governor Brumbaugh and took charge of the latter's Local Option fight in the last Legislature. Recently he has become deeply interested in the good roads problem and through his earnestness and effectiveness has cemented the confidence of the county to the extent that there is no serious opposition confronting. A well-defined rumor is afloat that ex-State Senator Oscar E. Thompson, of Phoenixville, is to be appointed super-intendent of the Spring City Industrial School, a State institution. He has long been an active and infuential figure in county politics and for many years was connected with the Phoenixville Bridge Company, being an expertengineer. He also is a good roads man, this promissing to be a leading issue in the coming local campaign."

And the complaint. It is not that he did substituted it sinds by law at fixed by law at fixed

GOVERNOR'S TROOP IN SPLENDID CONDITION ON MEXICAN BORDER

Needs Motor Truck and Anxious For Outfit of Horses; Rations Plentiful and Good; Work of Training Progressing Satisfactorily

APTAIN GEORGE C. JACK, in a letter received, here yesterday, speaks entertainingly on the work and welfare of Troop C (the Goverlor's troop). First Pennsylvania Cavalry, which has been in service at Camp Stewart, El Paso, Texas, on the Mexican border for more than a month. Among other things, Captain Jack says:

"Troop F of New Castle was presented on Monday night with a new Fora truck. They are very proud of the citizens of their home town in being kind enough to send something, so very much needed. About half of the troops of the regiment have received trucks from the citizens of the nothing been done in reference to the Harrisburg troop, although some of the boys tell me there has up to date a nothing been done in reference to the Harrisburg troop, although some of the boys tell me there has been such a movement on foot at home. I have heard nothing concerning this.

"Ne doubt the people of Harrisburg have read many conflicting reports concerning conditions among the soldiers along the border, and in order to put them right as far as my command is concerned, and I do not believe it differs from the rest, I thought I would drop you a few lines to let the families and the friends of the troop know the actual conditions.

"The men of the troop are keeping."

itions.

"The men of the troop are keeping well, only a few small ailments being reported occasionally. Payrolls for nonth of July are now in and the poys are looking forward to an early harday.

month of July are now in and the boys are looking forward to an early payday.

"As a whole the men seem thoroughly satisfied with conditions. Of course, every one of us has his grievance at times, but after the thing is over it is quickly forgotten. A lot of trouble has been caused by reports of ill-treatment and discomfort sent by some of the men throughout the camp to their home papers. The ratious are sufficient and of good quality. You can draw almost anything you desire to; fresh beef every day, if you wish it. In my troop I draw these rations, and, no doubt there are some cooks who do not know how to prepare the ration when they receive it. Where such is the case it makes matters bad for mess. We have all been here long enough to know the ropes and there is no excuse for the mess to be neglected.

"I certainly hope that you may be able to let the families and friends of the boys in my troop know the for the services to the First tendered his services to the first tendered his

CAPTAIN GEORGE C. JACK, in a row is one straight stretch for two letter received, here yesterday, speaks entertainingly on the work and welfare of Troop C (the Goverlor's troop), First Pennsylvania Cavalry, which has been in service at Camp Stewart, El Paso, Texas, on the Mexican border for more than a month. Among other things, Captain Jack says:

"Troop F of New Castle was presented on Monday night with a new Ford truck. They are very proud of the citizens of their home town in being kind enough to send something so very much needed. About half of the troops of the regiment have residued datalis of easignated section. Second fine troops of the regiment have residued datalis of easignated section. "Now that State Police have been sent to Mt. Gretna to keep order in the Na

Ebening Chat

"No organization in the city is so of entertaining the wives of members as is the Harrisburg Rotary club," declared President Howard Fry the other day. "Just as an evidence that this is more than vacation season 'hot air,' I may say that two outings are now being planned espe-cially for the ladies. The first will be Thursday, August 24, when the club will have an automobile run to Buena Vista, in the Blue Ridge moun tains, taking dinner at the large hotel tains, taking dinner at the large hotel there and returning in the evening. On September 5, Robert Walton will entertain the club and the wives of members at his beautiful home below Hummelstown. Their will be a corn roast on that occasion and an automobile trip over the more than \$30 acres 'that make up Mr. Walton's country place."

Down in Atlantic City they termed Sunday the "pivotal day" of the season, meaning thereby that the crowds will henceforth begin to fall off in size and that the vacation season is on the wane, but to the weather wise Sunday was indeed a "pivotal day," bringing with it the helght of the summer and the turn down toward the Fall season. There is a touch of autumn in the atmosphere and it will not be long before the wayside weeds begin to dry and send their seeds broadcast, and the blossoms of summer give way to the goldenrod of Fall. The summer, all too short, is passing fast.

On the lawn of the new home for aged ministers dedicated some weeks ago by the United Evangelical church, near Lewisburg, are to be found many Incian relies. Not far away was in the olden days a great Indian village and the whole hill adjoining was used for years as a burying ground. It has not been disturbed to any extent and it is thought many valuable relies may be found there for the searching. The house is one of the most beautiful in the vicinity, being the mansion of a once wealthy resident.

The cold wave has caused a considerable slump in the number of bothers at Independence Island. A large number of river enthusiasts have been out, but the wind has been too cool for the bathers to go into the water. Each day signifies more and more the need of a municipal bathhouse and a bathing beach for the city. With favorable weather for the remainder of the summer large number: will be sure to take advantage of the river.

The river.

The river is getting so low that at many places it is impassable for even the light canoe. Sand washed into the channel above Independence Island has made it impossible for canoeists to get around the upper end of the island at all and it takes quite a bit of skill to skirt around the lower end as well. A number of rocks which peek out only when the river is exceptionally low are beginning to poke their noses toward the sky and the usual swimming holes have been deserted for the deeper water in the channel and near the dam by the experts, leaving the shallow places for the inexperienced.

Hundreds of Harrisburg folk have been "snufflin" with colds in the head the last several days and the doctors say the sudden chilly weather following close on the heels of the last hot wave which left the city sweltering, is responsible. If you have been used to sleeping under a sheet and forgot to get out a heavy cover, you are probably one of the red-eyed, pink-nosed sufferers yourself.

Interest in the Greater Harrisburg Interest in the Greater Harrisburg Navy is growing rapidly, especially among the girls who are wont to go a-canoeing with their swains. Quite a number of girls have already woven insignias for their sweethearts' sport shirts, and from what can be gathered about the boat liveries, one is quite out of it, unless one is "having one done."

If one fair swimmer doesn't win a prize on the Labor Day regatta it will not be because she doesn't put in enough time practicing. Nearly every day she can be seen "doing the crawl" from the pumping station to the river bridges and take it from the casual observer who stands on the bank, she can "do it." Her little black head bobs up at about every eighth stroke, and she has a klek and an overdrive that should be the means of shooting her under the tape far ahead of most of the contestants. conducted by medical officer.

Thursday—Inspection by division inspector.

Friday—First period, troop drill, optional work; second period, squadron drill; third period, same as Wednesday.

Saturday—First period, test by squadron commander of signal squads and of individuals as to knowledge of use and care of arms, saddling and bridling and regimental organization; second period, first aid instructions by squad, troop officers and medical officers in supervision.

"In addition to the above, Tuesday at 4 p. m., the troop was formed for demonstration of proper method of cleuning saddlery and arms. Actual work was then carried out by squad leaders. On Wednesday at the same hour, squads resumed work, after which the troop commander inspected the results. Equipment laid out in manner prescribed for the inspection in drill regulations.

"The condition of proper method of the condition of proper method of cleuning saddlery and arms. Actual work was then carried out by squad leaders. On Wednesday at the same in the first proper of the condition of the schools to organize rowing clubs and make this event as great, in the history of each school, as the annual football games. Each school could enroll sufficient pupils to mann an eight-oar shell.

could enroll sufficient pupils to mann an eight-oar shell.

Gracious Unto Them

He looketh upon men; and if any say, I have sinned, and perverted that which was right, and it profited me not; then he is gracious unto him and saith, Deliver him from going down to the pit, I have found a ransom.—Job 33:27, 24. WHAT THE ROTARY CLUB

LEARNED OF THE CITY [Questions submitted to members of the Harrisburg Rotary Club and their answers as presented at the organiza-tion's annual "Municipal Quiz."]

How are cit- taxes collected? What abatements are allowed? What penalties are charged? When is property sold for nonpayment?

Cit. Taxes are called by the Cit. Taxes are called by the Cit. Taxes are called by the collection of 1 per cent. is allowed until August 1. A penalty of 3 per cent. is added to the collection of the collection
