If for any reason you cannot keep up your payments you will be privileged to purchase other merchandise for the full amount paid in.

Save a Watch—You can save a Watch. Wrist Watch, or anything else in our line on the same easy plan. As a special inducement, we are offering the following watch on our "Easy" plan, for \$12.50. 20-year Gold Filled Case, fitted with 11-jewel Illinois movement, cut expansion balance, breguet hairspring, micrometer regulator, exposed winding wheels. Cases are made by the Duober Watch Case Company, makers of high-grade, gold filled and solid gold cases. "The World's Best." Every watch carefully tested and regulated in case. These watches are best suited to the needs of the young business man or woman. The best of service at a minimum of cost. The deposits on this watch are just half of those in the above table.

You can exchange diamonds bought on this plan any time at full price on a larger one.

LUCKY NUMBER 13, SAYS FARMER

California Agriculturist Tells How Mystic Numeral Stuck to Him

Live Oaks, Cal.—No matter how other people may feel about the number 13, Howard Grimes, of Douglas county, Oregon, considers it a messenger of good luck, rather than a harbinger of evil.

Grimes was in Live Oaks recently on his way to Davis, where, although he is 64 years of age, he will take a course in agriculture.

On the back of his auto hung its license, No. 1313. When reminded of its hoodoo proclivities the Oregonian smiled and volunteered a bit of history.

"I was born on September 13, 1862," said he, "and was the thirteenth child in the family brood. When 13 years old I left home to make my fortune. At 20 I married, and our wedding fell on the 13th of the month.

"While riding a Northern Pacific train in 1912 I was in berth 13, and the train was wrecked. Every occupant in that car was injured but myself. In 1913 I made a little investment in mining property and cleared up \$16,000. I took the money and purchased 1,300 acres of land, and I am farming a part of it and learning how to farm it better."

Pet Dog to Be Host at Birthday Dinner

Lorain, Ohio, Aug. 17.—Miss Leota Babcock, daughter of A. H. Babcock, real estate dealer and capitalist, will give a birthday dinner honoring her pet French bulldog, Pedro, who will have reached the age of three.

The guests will be canine companions of Pedro and will include Queenie Roth, his twin sister; Curly Black, Fox Henry, Tip Reed, Frenchie Harris and Tip Bonser. A menu of dog biscuits and ice cream will be served.

HERE'S A SURE ROAD TO WEALTH

In the September American Magazine a writer in the family money department says: "There is one sure road to wealth. It is not a get-rich-quick scheme, no wild-cat mining venture, no 'war baby' speculation; it is simply a commonsense way of attaining a small fortune in a strictly legitimate way.

"One dollar deposited in a savings bank each week for twenty years would amount to \$1,612. "Five dollars deposited each week for the same length of time would become \$8,000. The interest on this \$8,000 would be \$6 a week. Anyone following out this plan of weekly deposits of \$5 for twenty years could at the end of that period draw out of the bank \$6 each week as long as he lived and still leave to his wife and family at his death not only all he deposited but half as much more.

"The young man of twenty who will save 27 1/2 cents a day in a savings bank paying 4 per cent compound interest and keep up these payments or deposits till he is seventy years of age would have a fortune of \$29,000, which would pay interest of \$22 a week. This interest would be about ten times the amount saved each week."

ENTER THE LADY REPORTER

"Jack" Lait, whom James Kesley, editor of the Chicago Herald calls "the human X-Ray," writes about women reporters in the September issue of the American Magazine. He says:

"Brother inmates, the star reporter has been a viper in our bosoms. We have made him somebody, and he has turned out a bloomer because he cannot live up to our specifications in the sordid realism of daily life on the live daily. I propose, therefore, that we create a character, a character who does not exist, and cannot, therefore, arise to do a Frankenstein. I nominate without fear of successful contradiction— "They strained forward and cried, 'Hear, hear!' "The lady or girl reporter!"

Snake Strikes Coat Tail, Fang Poisons Man Later

Wellsboro, Pa., Aug. 17.—Oliver D. Spencer, caretaker for cottages in the Pine Creek gorge, was "bitten" by a rattlesnake in a manner that has no parallel. Cottagers had seen a snake between the Owassee clubhouse and the spring on the side hill on numerous occasions, but it seemed especially elusive. A reward of \$2.50 had been placed on the serpent's head.

Spencer was on his way to the spring to get water and passed a stump close to the beaten path on which the snake lay coiled. He didn't notice it, but he did see something coming his way, and sidestepped just in time to avoid the blow. The snake hit the tail of his coat, dropped to the ground, and Spencer earned the reward with some well-directed blows.

Spencer returned to the cottage with his trophy, and as he raised his coat tails to sit down to breakfast his thumb came in contact with a portion of a fang of the snake which had been broken off.

The fang penetrated the thumb and there was enough poison on it to inoculate Spencer. He became deathly sick, and his arm swelled badly. He received immediate, however, and will recover. He has kept the broken fang, crawled into a switch box and cut off the electrical connection that made it possible to operate the switch from the interlocking tower.

When the trainmen investigated they found the big snake fast in the switch. It had been stunned by the current and was easily killed. The snake, it is believed, crawled from the Kankakee swamp to the tracks and wriggled its way into the switch.

Snake Held Up Train

Indianapolis, Ind., Aug. 17.—A large snake held up the Moon railroad's fast passenger train, the Hoosier Limited, for ten minutes at Dyer, near Hammond. The snake, one of the largest ever seen in that vicinity, crawled into a switch box and cut off the electrical connection that made it possible to operate the switch from the interlocking tower.

When the trainmen investigated they found the big snake fast in the switch. It had been stunned by the current and was easily killed. The snake, it is believed, crawled from the Kankakee swamp to the tracks and wriggled its way into the switch.

Raises 1,300 Chickens and Thieves Get Them

Alexandria, Ind., Aug. 17.—"I raised more than 1,300 chickens this year," said Cleve Walker, a young farmer living in the Olive branch neighborhood. "But I don't think I shall ever embark in the chicken business again in my life."

Walker added that out of the 1,300 chickens, about forty have been sold and all but fifty stolen. All of the thefts have been on nights he was attending meetings of a lodge. Three hundred fowls were taken on the last occasion.

NAVY EMBLEM ON "KIPONA" MEDALS

[Continued From First Page]

retary V. Grant Forrer sent a design to a New York firm with instructions to wire whether or not the medal can be made up in time. If this design can't be adopted this year because of the lack of time for preparation it will be made the permanent medallion for other years.

The loving cup which will be presented by the Navy to the winning crew of the big Central-Technical-Steeltown high-Academy war canoe race will also be adorned with a facsimile of the organization's insignia. The cup will be the only collective prize awarded as it has been practically decided because of the low water to eliminate the motorboat race.

While the war canoe contest will be the feature race, a whole lot of specialties will be arranged. These will include aqua-planning — an event which permits the entrant to steer himself more or less precariously on a surfboard or plank which is attached to a motorboat and towed through the water at high speed. An obstacle canoe race in which the contestants must do all manner of things enroute to the tape—climb over flats with his canoe, pull his canoe over floating logs, these are a few of things he must do; a race in which three men standing will paddle a canoe with double paddles is another event; tub, umbrella, races and tilting matches will complete the feature program. Then there will be 100-yard swims for boys, girls and for men over 16; quarter mile canoe race for men, half mile canoe race for men, and mixed crews; quarter mile swim for boys for which medals will be awarded. In the other events suitcases, umbrellas canoe paddles, back rests, cushions, "Kipona" fountain pens and similar articles will be awarded as prizes.

Noted Musical Club to Play During the "Kipona"

Not all the music that will help make the Susquehanna basin attractive during the night of the first annual "Kipona" will be furnished by the bands on floats nor the scores of tiny phonographs in cañons; some of the stringed orchestra melodies for which the Aeolian Mandolin Club is famous, will add immensely to the joy of the occasion.

The club is one of the leading musical organizations of the kind in Central Pennsylvania and has offered gratuitously its services to the regatta committee that evening as an evidence of its public spirit. Thus, "Kipona" committee last evening accepted the club offer. Ross R. Potts, mandolinist, is secretary of the organization and S. E. Fink, mandolin, is business manager. The club musters ten pieces and includes such musicians as R. Shreiner, mandolin; R. E. Buck, Jr., and G. O. Duvall, guitars, and R. E. Miller, one-string violin.

HARRISBURGER IN ONE-MAN PARADE

[Continued From First Page]

Pennsylvania Infantry to fight in the Civil War. "Major" John Kirk is a native of New Cumberland. Following his recovery from a prolonged illness, the "Major," as he is affectionately called,

on March I went to the Soldiers' Home at Washington, D. C. Because of his excellent army record, and due to his good work at the home, Lieutenant S. B. M. Young, of the United States Army, on March 14 appointed Kirk a sergeant at the home.

The history of "Major" Kirk in the United States Army would make an interesting book. He was prominent in many battles during the Civil War, and later participated in Indian battles. He served with General Custer, and had numerous narrow escapes. At present the veteran is collecting data which will be embodied in a history of his life. Since he has been an inmate of the home at Washington, "Major" Kirk has greatly improved in health. At intervals he has been home on short furloughs.
