### Villa Chief Cuts off Ears of Captives Then Stands

Them Before Firing Squad

El Paso, Aug. 21.—The story of a Villa chief cutting off the ears of twenty prisoners who later were shot, is told by a rescued prisoner in El Democrate of Chinuahua City, copies of which arrived here to-day. The chief who committed the atrocity was Baudelio Uribe, commander during Villa's recent raid on Jiminez.

Urive captured a small body of de facto government soldiers, according to the witness and called on them to join his band. Twenty failed to respond. Finding them stubborn, Uribe captured her strimmed their ears and then ordered a captain to shoot them. This order was carried out just as a rescuing party arrived. The bodies were recovered at Allentown

There are two main reasons why you should fill your coal bins now.

Coal is usually better quality in summer because the coal operators are not rushed with orders. This allows more time to thoroughly prepare the coal, that is remove the required amount of impurities, such as slate and bone.

Furthermore, coal shipped in summer is cleaner than winter deliveries. Frozen coal is very difficult to screen satisfactorily, as you can understand.

August is the last month to save 30c per ton and at the same time secure uniformly good coal.

#### GRIP AND NEURASTHENIA

There is a form of neurasthenia that follows the grip. Doctors call it "postgrippal" neurasthenia. One of the foremost medical authorities of New York city in a lecture in the international clinics, said:

"Broadly speaking, every victim of the grip will suffer from post-grippal neurasthenia also. Lowering of nervous tone with increased irritability is the most striking effect of the disease, languor of mind and body, disturbed, fitful sleep and vague pains in the head and elsewhere.
