The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address F. J. CHENEY & CO., Toledo, O. WOMAN MAY DIE FROM RIFLE SHOT

Authorities Searching For Neely Johnson, Who Shot Mrs. Pearl Hawkins

Special to the Telegraph
Carlisle, Pa., Aug. 22.—No effort will be spared to secure Neely Johnson, colored, who yesterday shot and probably fatally wounded his housekeeper, Mrs. Pearl Hawkins, after he had tried twice before to shoot her. The fight occurred, the injured woman told District Attorney Lloyd, who conducted an investigation, when Johnson drew his pay Saturday and gambled it away on Sunday. He tried to shoot her once and the cartridge failed to explode. As she ran to a neighbor's house, he fired again, but the ball went wild. He succeeded in his purpose a short time later when she returned to get her child and some clothes when he stepped from an arbor and fired. Garrick Pennington and George Wallace saw the shot fired and began a pursuit, but Johnson menaced them with the gun. George Worley, another neighbor, made the statement that Johnson said some time ago that he would shoot the woman. She stated that although she has been living with Johnson, she had a husband somewhere in Alabama, and that her former home was in Georgia. She went to Newville in June when Johnson got a job as laborer on the Cumberland Valley Railroad high line work.

Boyd Crumrine Dead, Historian and Lawyer

Word was received here last night by James C. Kirk, of the State Insurance Department, notifying him of the death of his uncle, Boyd Crumrine, of Washington, Pa., which occurred Sunday evening. Mr. Crumrine was the oldest member of the Washington county bar, and well known among attorneys throughout the State. For some years he was the editor of Pennsylvania State Reports, and was an authority on historical facts relating to Western Pennsylvania. In 1888 he compiled and published a history of Washington county from the time it was a part of Virginia, through the days of the Whisky Insurrection in which Washington county played so prominent a part. Later when the Washington county Historical Society was organized, he caused tablets to be placed throughout the county marking the location of houses and other buildings that figured in the struggles between the United States government and those who believed that whisky should not be taxed. For a number of years Mr. Crumrine had been a member of the advisory commission of the Division of Public Records, at the State Library, serving on that board until his death. His work as an attorney brought him to the front rank as a lawyer, and his wise counsel to the younger attorneys who would frequently consult him, invariably brought them into favorable notice.

Mr. Kirk left at noon to-day to attend the funeral which will take place at Washington on Wednesday afternoon at 2 o'clock. CHURCH CARNIVAL
A midsummer carnival will be held to-night and to-morrow night on the lawn at Thirteenth and Herr streets by St. Augustine's Protestant Episcopal Church. Other prize awards will be made.

EXPECT EARLY DECISION NOW

Judge Henry Expected to Decide Jitney Injunction Suit Within Short Time

That an early decision will be handed down by Judge Charles V. Henry of Lebanon county, presiding here in the case of local jitneys, who are asking an injunction against the Mayor and other city officials to restrain them from enforcing the present Jitney license ordinance is anticipated by attorneys and others interested. Indications this morning, lawyers say, were that an opinion would be handed down within the next week or ten days. The application for the preliminary injunction was not pressed this morning by lawyers representing the appealing jitney men because the final hearing and argument was held in the case to-day. The next move will be a decision from the court. In the meantime the city authorities will be at liberty to enforce the ordinance just as though the proceedings for the injunction had not been begun. The arguments for this morning by counsel for the jitney men and by the City Solicitor were confined to the legal phases of the case.

Dr. Shope Proposes Way to Safeguard Children

A resolution for safe-guarding the school children has been introduced by Dr. Samuel Z. Shope to the Rotary Club and referred for action to the next regular meeting of the board of directors of that body. In the resolutions, which is addressed to Mayor Meals, the City Commissioners and the School Board, the suggestion is made that action be taken to assure the safety of the children during recess hours by closing to traffic the streets for a block either way in front of the school buildings, and by establishing a speed limit of five miles per hour during the morning and afternoon sessions for street cars while passing those streets. The resolution was prompted by the feeling on the part of its framer that the playgrounds connected with the public schools are inadequate, and that for the present at least the children are forced to use the streets as playgrounds. Dr. Shope further suggests that large street signs be placed at either side of the "highway playgrounds," explaining that the streets are closed during recess hours to all traffic except street cars. The addressee were requested to cooperate in bringing about the proposed "safety first" move.

M. Welsh for a new trial. Welsh appealed from the decision of a Lower End justice, who fined him \$25 for refusing to show his hunter's license.

SUGGESTS ISLAND AS IDEAL BEACH

Commissioner Gross Believes City Should Spend Money There
"Island Park is the ideal place for a municipal bathing resort," said Park Commissioner E. J. Gross to-day. He was asked what Harrisburg was going to do about the Independence Island proposition. Commissioner Gross continued: "In the first place, we do not have the money to buy Independence Island. If the cash were available, in my opinion, to spend it on improvements at Island Park. Shore facilities are better. Island Park covers a larger territory, and two bridges lead to it, with a small fee for toll. The advantages offered for a municipal resort at Island Park are many. However, what we need is money. Until the cash is in sight, the only thing we can do is to talk about it."

Assistant Superintendent of Parks, V. Grant Forrer was of the opinion that Island Park would make a great municipal bathing resort, and believed that Independence Island, if purchased by a syndicate, would prove a profitable investment also. "Both places will pay, and the more we get the better," he said. No new developments were reported to-day in the negotiations for the purchase of Independence Island by a New York syndicate. E. Charles Engman said: "The deal is still on. If there is no sale, then I will make up plans immediately to make extensive improvements myself. I have given until Monday for a final answer from the New York people."
