JITNEY SIGNERS NOW OVER 1,400

Striking Carmen Will Parade Over Uptown Streets Tonight

Twenty cases of typhoid fever have been reported in the city so far this month, with one case to-day. Dr. J. M. J. Raunick, city health officer, has started a thorough investigation as nine new cases were reported in the eastern part of the city, on Allison Hill, within the last week.

A tabulation of the milk, water, ice and ice cream supply of all of the victims is being completed, and one milk dealer who has supplied several families now under quarantine with the disease, was brought before Dr. Raunick for examination this afternoon. In case impure milk has started the spread of typhoid, prosecutions may follow, according to the health officer.

Vacationists returning from summer resorts and camping trips sometimes spread the disease, and every effort is being made by the health authorities to locate the source.

City Chemist George R. Moffitt last night said that the city water supply is pure and up to its standard, and that the people need have no fear of using it. Dr. Raunick warns people going out of the city to be careful of the water supply. There is no need for boiling the water from the city filter plant, according to health officials.

Plan National Banks to Further Foreign Commerce

Washington, Aug. 24.—Amendments to the Federal reserve law designed to equip national banks to further foreign commerce by establishing foreign drafts or bills of exchange, were presented to the Senate to-day as agreed upon by House and Senate conferees.

The Federal reserve board would pass on applications to establish branches from banks of more than \$1,000,000 capital, which might act as fiscal agents of the United States, and invest 10 per cent of their capital and surplus in corporations principally engaged in international banking.

Members of the Federal system could accept three months foreign drafts or bills of exchange under board regulations. Other regulations widening the field from which the Federal member banks may accept paper for discount would be provided and national banks in places of not more than 5,000 inhabitants would be permitted to act as agents of insurance companies.

Berlin Is Waiting For Rumania to Make Move

Berlin, Aug. 24, via London.—Government circles here, though none too optimistic, view the Rumanian situation calmly, making the attitude that it is Rumania's desire, and the feeling is that the Central Powers have done everything possible to meet Rumania's views and that Rumania, in persisting in the course desired by the Entente and her own expeditionary party, will find the Central Powers ready, in which event it is to be expected every effort will be made to insure that the new war theater is on Rumanian soil.

Information from Vienna indicates that the Austro-Hungarian Government, bearing in mind the results of the negotiations concerning Italy's claims before that nation entered the war, has been at no time disposed to offer Rumania similar concessions for fear that this again would be mistaken for a sign of weakness.

At this time there is not discernible the slightest effort to persuade Rumania taking any other course than one due to her own initiative. The latest dispatches from Bucharest indicate a further cooling off of the war fever.

Roosevelt Will Stump Middle West For Hughes

Chicago, Aug. 24.—Alvin T. Hart, manager of the Western Republican National Campaign Headquarters, yesterday returned from New York, where he was in conference with eastern leaders, with the information that Theodore Roosevelt will make a speaking tour of Illinois, Indiana and other Central and Western States in behalf of the Republican national ticket. A schedule of dates for the different States to be visited will, it is said, be arranged within a few weeks. Colonel Roosevelt, it is said, will come West late in September or early in October.

"In the East every sign points to an old-fashioned Republican victory this Fall," said Mr. Hart. "The party leaders are greatly encouraged by the reports received from all sections of the country."

Funeral services for William H. Corkle, assistant stationmaster of the Pennsylvania Railroad, who died at his home, 31 North Seventeenth street yesterday, will be held Saturday afternoon at 2 o'clock. He is survived by his wife and three sons, Clyde, Gerald and John. Burial will be made in the East Harrisburg cemetery.

Be Careful in Using Soap on Your Hair

Most soaps and prepared shampoos contain too much alkali, which is very injurious, as it dries the scalp and makes the hair brittle. The best thing to use is just plain mulished coconut oil, for it is pure and entirely greaseless. It's very cheap, and beats the most expensive soaps or anything else all to pieces. You can get this at any drug store, and a few ounces will last the whole family for months. Simply moisten the hair with water and rub it in, about a teaspoonful is all that is required. It makes an abundance of rich, creamy lather, cleanses thoroughly, and rinses out easily. The hair dries quickly and evenly, and is soft, fresh looking, bright, fluffy, wavy, and easy to handle. Besides, it loosens and takes out every particle of dust, dirt and dandruff.

Harrisburg Will Reap Rich Benefit

Carey Decides to Establish Exclusive Distribution of His Medicine Here

Tanlac, the famous Master Medicine that is accomplishing such remarkable results in Chicago, St. Louis, Cincinnati, Pittsburgh and other large American cities, will be distributed in Harrisburg exclusively by Gorgas Drug Company.

This announcement was made last evening by E. W. Carey, the Tanlac Man. The visitor, a most cultured and affable gentleman, was seen to excellent advantage at the Commonwealth.

"Probably the most prominent and distressing condition," said Mr. Carey in discussing his extensive studies, "is chronic catarrh of the mucous membranes. Catarrh of the stomach and kidneys is the most frequent cause of dyspepsia and Bright's disease, and catarrhal conditions in the nose and throat lead to inevitable deafness. Show me a man whose hearing is affected and I will endeavor to show you a man who is suffering from catarrh."

"Frequently the lungs become diseased by the extension of a catarrhal inflammation by way of the bronchial tubes to the lung substance. The mental and physical state of chronic catarrh sufferers is, indeed, unfortunate, and it is surprising to know what an immense number, among those residing in such cities as Harrisburg, are really suffering from this almost universal malady when they think something else is wrong.

"An offensive breath, constant sneezing, discharge from the nose, droppings in throat, frequent sneezing, watery eyes, headaches, full head, pains in pit of stomach, side and kidney region, depressed spirits, nervousness, unsound digestion, lost appetite, sleeplessness and susceptibility to coughs and colds are characteristic symptoms."

He concluded by stating that he would, beginning Saturday, meet the public at Gorgas' Drug Store, where it would be proven to local residents that Tanlac will combat this distressing condition the same as among the thousands in other great American centers.—Adv.

ed in Hershey, Pa. Lots in this new development will be offered to the public to-morrow and Saturday in a big auction sale of lots which will be conducted by the promoters of the tract, the sale starting at 2 o'clock in the afternoon each day.

Leathers Brothers, of Howard, Pa., who have conducted a number of similar real estate operations in various parts of Pennsylvania, are promoting this nearby development. In addition to band concerts which will be held for the entertainment of visitors each day, a big feature will be the giving away free of an automobile. Each person attending the sale, whether buyer, bidder or spectator, over twenty years of age, will receive a free vote on the automobile. The only requirement being that such persons be on the grounds the days of the sale and vote their own tickets.

\$100 Reward, \$100

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address F. J. CHENEY & CO., Toledo, O. Sold by all Druggists, 75c. Take Hall's Family Pills for constipation.

Big Decrease in Number of Infantile Deaths in N. Y.

New York, Aug. 24.—Health department officials were encouraged by today's reports on the infantile paralysis epidemic, which showed a substantial decrease in the number of deaths and new cases. During the twenty-four hours ending at 10 o'clock 30 children died and 109 were stricken. This compares favorably with yesterday's figures, 42 deaths and 141 new cases.

Despite a belief that infantile paralysis seldom attacks more than one member of the same family, figures prepared by the United States Public Health Service show that in 227 families here more than one child has had the disease. In more than 200 of these families only two children were afflicted, while in 20 families three children have suffered attacks. In one family there were five cases.

Nevertheless, the health commissioner asserts that the averages indicate that the great majority of children is not susceptible to infantile paralysis. Of the first 7,000 cases only 3.36 per cent. were those of children whose sisters or brothers previously had the disease.

DON'T BE BALD

Here's a Good Way to Stop Loss of Hair and Start New Hair Growth

Hair can never be made to grow again after the hair roots themselves are dead. But few of us, fortunately, grow bald in a day, and we have ample warning that our hair is steadily growing thinner.

Parisian Sage is probably as effective a hair grower as could possibly be found, but to prevent further loss of hair, and to actually start a new hair growth on the bald and thin spots it must be rubbed right into the scalp with finger tips, or a medium stiff brush, so that the hair roots can really absorb it. Try to get as much on the scalp, and as little on the hair, as possible. Your hair doesn't need it, but your scalp does, and a few weeks scalp massage with Parisian Sage (just a few minutes daily) will usually check any further loss of hair and make the hair grow as thickly and luxuriantly as ever.

Unlike many hair tonics, Parisian Sage contains no sulphur or poisonous wood alcohol, and will not make the hair greasy or stain the hair or scalp. It can be obtained from H. C. Kennedy and druggists everywhere, and is not at all expensive.
