morning habit. Why is man and woman, half the time, feeling nervous, despondent, worried; some days headachy, dull and unstrung; some days really in-capacitated by illness? If we all would practice inside-bath-ing, what a gratifying change would take place. Instead of thousands of half-sick, anaemic-looking souls with pasty, muddy complexions we should see crowds of happy, healthy, rosy-cheeked people everywhere. The rea-mon is that the human system does not rid itself each day of all the waste which it accumulates under our pres-ent mode of living. For every ounce of food and drink taken into the sys-tem nearly an ounce of waste material must be carried out, else it ferments and forms ptomaine-like poisons which are absorbed into the blood. Just as necessary as it is to clean the inside organs of the previous day's accumulation of indigestible waste and body toxins. Men and women, whether side or well, are advised to drink each morning, before breakfast, a glass of real hot water with a teaspoonful of limestone phosphate in it, as a harm-rest mass of washing out of the stom-net, liver, kidneys and bowels the indi-gestime material, waste, sour blie and purifying the entire alimentary canal before puting more food into the stome. Millions of people who had their hur at constitution.

Millions of people who had their Millions of people who had their turn at constipation, bilious attacks, acid stomach, nervous days and sleep-less nights have become real cranks about the morning inside-bath. A quarter-pound of limestone phosphate out one phot the drug store, quarter-pound of limestone phosphate will not cost much at the drug store, but is sufficient to demonstrate to anyone its cleansing, sweetening and freshening effect upon the system.

to hold a corn roast in Spooky Hollow Wednesday evening, Soptember 13. Al-though the Centralians is a strictly bachcior association, it was agreed to give each member the privilege of in-viting one of the fair sex, much to the chagrin of the secretary.
The following committees were ap-pointed to look after the arrange-ments of the corn roast by President Frank: Corn committee, Thomas Cald-well. Arthur Gardner, Elwood Deppen, Herman Gohn; game committee, Wil-lan Kay, Bialr Smith, Vernon Wright, Charles Koser; lookout committee, Vernon Wright and Leon Simonetti.
The Centralians are planning many activities for the coming year and will have at least one representative in nearly all brbanches of athletics and other activities at the Central high school, members of the junior class.
The newly appointed business man-ager of the Argus, Thomas Caldwell, is a Centralian. The gridiron promises to be a good vehicle of prominence for the Centralians.
Through the kindness of Ben Whit-man, the one honorary member, re-freshments were served after the meet-ing to N. Lee Frank, president; Arthur Gardner, vice-president; Richard W., Mount, secretary: Thomas D. Caldwell, William L. Kay, Blair E. Smith, Ver-non Wright, Charles Koser, Elwood Deppen, Leon S. [Continued From First Page] with him during the revolt against the Huerta reign. Much uneasiness is being felt here at Villa's movement. He is known to have sent 200 men northward and it is believed he intends attacking a motor truck train hauling provisions to General Pershing. If this is his plan Villa will likely strike at the notor caravan north of Colonia Dub-lan, the base of the punitive force. The motor trucks are now all being equipped with machine guns, which are mounted near the driver's seat. They are manned by expert machine gun operators. Information was received by the army of untoid suffering among the States of Zacatecas and San Luis Potosi. Mexican peons are dying at the rate of several hundred a day in the two States. Epidemics of, typhus are also killing hundreds in Zacatecas, San Luis Potosi, Equas Calientas and Durango. The El Radical, a government pa-per published at Torreon, in its issue which reached here to-day, for the first time published an article pictur-ing the horrible situation in Central Mexico, stating that the poor could not obtain food and were dying by the scores.

Shooting pains in the head with giddi-ness, noise in the ears and tender-ness of the scalp-pains in the neck and shoulders or extending down the arms

day. "My first intimation of council's ac-

ness of the scalp—pains in the neck and shoulders or extending down the arms to the hands, these are the most com-mon symptoms of neuralgia. There are a number of causes of neu-ralgia. It is most common in families whose members have nervous disposi-tions and it is very often a result of anemia or lack of blood. Hot applications give temporary re-lief in neuralgia and should be used. They cannot cure the trouble because the pain is the complaint that the un-der nourished nerve is making and it will not be quieted until the nerves is fed. The only way to reach the nerves with nourishment is through the blood. That is why thin blood so frequently leads to neuralgia. When the blood becomes thin the nerves lack nourish-ment. Build up the blood, supply to it the elements that the nerves need and you begin to correct the neuralgia. The free booklet "Diseases of the Nervous System" will interest you. Write for it today to the Dr. Williams' Medicine Co., Schemectady, N. Y.
