All Feather Turbans the Delight of Women Who Wear Small Hats

This class of millinery is promised a special vogue, for there are women aplenty who prefer the smart, close-fitting turban to any other style.

These chic turbans are covered with tiny feathers disposed as if growing upon a bird's breast and in varying hues, iridescent or in grey, white, dark bronze greens and blues. One style has a white scarf of feathers which cleverly imitates ermine even to the black-tipped tails. All these turbans need to finish in an easily adjusted lining.

Plumage shown includes guinea, merle and white feathers.

- White feather turbans at ... **\$4.95**
- Merle turbans, at ... **\$6.50, \$7.50 and \$10.00**
- Guinea turbans, at ... **\$6.50**

NEWS OF STEELTON

COUNCIL TO ACT ON BIG PROBLEMS

West Side Sewer, Railroad Crossing and Bond Issue Ordinance on Schedule

Borough council will meet this evening with one of the heaviest schedules in months.

Among the important ordinances to come up for action will be the measure granting the Pennsylvania Railroad Company the right to establish three additional grade crossings in the West Side in building its proposed freight spur into the Bethlehem steel plant and the company measure which provides for a new sewer system to drain the upper end and West Side of the borough at the joint expense of the borough, steel company and railroad. Just what action will be taken on these measures, councilmen wouldn't predict today.

Another important question to settle this evening is the dispute between council and the United States Wood Block Preserving Company over the paving of Front street. It is understood that the company has acquiesced in the borough's demands and will repair the street. Should this be done without a lawsuit, it would be a big victory for borough council. The paving company has repeatedly refused to live up to the terms of its guarantee and repair the damaged portions of the street. Council several months ago retained Nelson P. Lewis, of New York city, a leading civil engineer, to handle the borough's interests.

It is likely that council will complete the necessary resolutions to-night to permit early issuance of the \$75,000 bond issue for street paving and purchase of motor fire apparatus.

TO ESTABLISH GLOVE FACTORY

An offer to establish a glove factory employing twenty-five girls and four men was made before Highspire's borough council Friday evening by W. J. Rank, of Middletown. The proposition will be put before the town's leading citizens at a meeting to-morrow evening. Contract for erection of a new bridge over Bird's run at Penn street was awarded to Joseph Risser, of Elizabethtown.

MOTORCYCLIST INJURED

When he collided with a wagon driven by the late E. H. Schaefer, North Front street, the driver of a motorcycle bearing a Michigan license, No. 632, was spilled and slightly injured. The accident occurred at Front and Lincoln streets early this morning.

THREE CHILDREN DIE

Three small children died yesterday within a few hours. They were Anton Yashick, 315 South Third street, aged 1 year; Adam Zovic, 258 Main street, aged 8 months; and Elsie Husic, 256 Frederick street, aged 11 months.

NAVY TO BEGIN BOOSTING RIVER

[Continued From First Page]

of your own relative to what should be done by the federal government for improvement and development of the basin of the Susquehanna, call around to-night at 8 o'clock at the big meeting to be held at the Dintman boat pavilion and offer them at the meeting of the Greater Harrisburg Navy.

With the first annual Kipona, the biggest river celebration of the kind ever held in Harrisburg, off its hands the Navy has already planned to go in for the permanent improvement program and the initial steps will be taken this evening, it is understood, to frame up the necessary legislation for presentation to City Council.

The compiling of necessary data for solving the bathing and bathing beach problem, the construction of a municipal boat house or houses, the blasting and buoying of channels and the other important features of river development will be discussed at to-night's meeting.

The first definite step toward procuring bathing beach and bathroom facilities at least will be taken to-night. It is expected, and it is probable, that the necessary subcommittees to work with the permanent development committee will be named.

Stiff Necks Due; Steeplejack Will Repair Church Spire

That some stiff necks are due in Harrisburg for the next few days is certain.

Beginning at 9 o'clock to-morrow morning John F. Hassler, "steeplejack" Hassler of Philadelphia, is going to begin some repairs at the pinnacle of the steeple of Market Square Presbyterian church.

For the last few weeks those who passed to and fro in Market Square and watched the splendid scaffolding rising steadily toward the point of the steeple have wondered whether a "steeplejack" was going to get busy. Announcement was made this morning that Mr. Hassler is coming to-morrow.

Furthermore the steeplejack isn't going to get to the high places via anything so prosaic as a mere scaffolding—his swing from the lightning rod via a "bos'n's chair" as it is called—the little harness that looks for all the world like a child's board swing.

So, when you spy the town teaze gazing skyward to-morrow from some place in the Square you can openly look up without fear of being kidded.

Centenary Sunday School Elects Officers For Year

The Sunday School Association of Centenary U. B. Church at a meeting yesterday, elected officers as follows:

Senior department — Superintendent, H. J. Sanders; assistant, Robert Miller, Sr.; secretary, Miss Clara Hershey; assistant, Miss Catherine Miller; treasurer, N. Burkholder; librarian, Harry Beidel; assistant, W. Breckenridge; pianist, Miss Esther Ligan; chorister, Frank Armstrong; assistant, H. Hallman; reporter, J. F. Mentzer; ushers, H. Beidel, Robert Brashears, George Gallagher, Guy Behman, George Marks, George Beard.

Intermediate department — Superintendent, G. W. Parks; assistant, Mrs. E. E. Herman; secretary, Miss Lulu Garretty; assistant, Miss Margaret Wier.

Junior department — Superintendent, Mrs. J. B. Malehorn; secretary, Miss Elizabeth Behman; assistant, Miss Kathryn Troup.

Primary department — Superintendent, Miss Edna Garretty; assistant, Miss William Galbraith; secretary, Miss Eva Peters; assistant, Miss Opal Pierce; chorister, Miss Pearl Beidel; assistant, Miss Opal Pierce; organist, Mrs. George Beard; assistant, Miss Ada Hermal.

Beginners department — Superintendent, Mrs. Anna Geesey; assistant, Mrs. Robert Brashears; secretary, Miss Esther Lerch; assistant, Miss Edna Behman.

Home department — Superintendent, Mrs. H. Beidel; assistant, Mrs. George Gallagher.

Cradle roll Superintendent, Mrs. Robert Brashears; assistant, Mrs. J. F. Mentzer.

Standing committees — Executive committee, M. P. Zerby, H. J. Sanders, J. B. Malehorn, W. B. Malehorn, W. H. Cumber; music, A. B. Stauffer, F. A. Armstrong, Miss Esther Ligan; missionary, Mrs. H. T. Hershey, Mrs. E. H. Ligan and Mrs. John W. Smith; J. C. Wier have gone to Coatesville where Mr. Smith has accepted a position with the Midvale Steel Company. At their home, 232 Locust street, members of the Sunday school, of which Mrs. Smith is an active member, tendered a reception. Employees of the West End machine shop of which Mr. Smith was formerly president, Mrs. Smith with a piece of cut glassware and Mr. Smith with an umbrella.

WED AT CENTENARY PARSONAGE

Guy Kissinger Behman, son of Mr. and Mrs. Jacob J. Behman, 173 South Second street, and Miss Sadie Rebecca Stains were married Saturday morning at 11 o'clock in the parsonage of Centenary U. B. Church by the pastor, the Rev. A. K. Wier. After a wedding trip Mr. and Mrs. Behman will reside here.

RETURN FROM COTTAGE

After spending a week at the Shelley cottage, Marysville, a party of young folks have returned to their homes here: Miss Evelyn Wadley, Miss Carrie Reich, Miss Marie Toomey, Miss Phyllis Shoop, Miss Gracey Roy, Shelley, Phil Wadley, Ben Sellers, Frank Turano and Earl Bates. Mrs. Weirich chaperoned.

QUEBEC BRIDGE FALLS IN RIVER

[Continued From First Page]

cluding members of Parliament and newspapermen gathered on vessels furnished by the Canadian government. Members of the Dominion cabinet witnessed the collapse from the deck of a government vessel, while American tourists crowded hundreds of other boats of all classes. Eminent American authorities on bridge building and members of the Australian parliament returning home after visiting in Europe also were at the scene and river traffic for ocean-going steamships had been temporarily suspended.

The project interrupted to-day originated in 1853, when at the request of the Quebec City Council a New York engineer submitted plans and lacking, however, and it was not until 1882 that the scheme again was given serious consideration.

Later Canadian engineers obtained a charter and after many years of delay the building was begun, only to terminate in the collapse of the unfinished structure in 1907.

The plans for the bridge provide for a channel span longer than that of any existing to-day anywhere. Its contemplated length from shore to shore was 2,239 feet, with a distance of 1,800 feet between anchor buttresses. Provision was made for two railroad tracks, two street car tracks and two roads. It was to be used by the following railroads: Canadian Pacific, Grand Trunk, Quebec Central, Intercolonial, Quebec and Lake St. John, Quebec and Sanguenay, Canadian Northern and Delaware and Hudson.

CALL AND LET US EXPLAIN

UNION TRUST CO. OF PENNSYLVANIA

who heard to-day of the second collapse of the Quebec bridge across the St. Lawrence river recalled many incidents surrounding the fall of the first bridge, August 29, 1907.

Most of the iron which went into the former structure was rolled at Harrisburg mills and a Dauphin county man was in charge of construction work. Several bridge workers known to Harrisburg and Dauphin men were among the seventy men killed.

The first attempt to bridge the St. Lawrence was watched by engineers throughout the world as the greatest feat ever attempted. Nowhere was the project watched with more interest than in this city.

Down at the Central iron and steel plant the mills were busy turning out the steel which was to make the big spans. More than \$5,000,000 worth of steel was required and much of this was rolled in the local mills. Careful inspectors were constantly watching every process and the slightest defect caused rejection of whole heats of material.

The local mills turned out the material under a subcontract with the Phoenix Bridge Company, Phoenix, Pa. The cost of the upper end of the first project was \$10,000,000.

In charge of all construction work at Quebec on the first bridge was Superintendent A. B. Milligan, a Dauphin man. Mr. Milligan is well known in Dauphin, but does not now make his home there. He is the son of the late Henry Milligan, known to all residents of the upper end of the county. The suire has been dead these twenty years.

Mr. Milligan escaped injury in the first crash, although many of his fellow workers were killed. At the time of the accident he was on his way from Phoenixville to Quebec after reporting at his office.

In describing the former collapse Mr. Milligan told friends that the main column weakened, toppling the entire structure into the river. More than 300 workmen were on the structure when it fell. Ninety of them were killed.

THREE BOYS INJURED BY FALL

York, Pa., Sept. 11.—Falling three stories from a balcony when the railing gave way, one boy was fatally injured, two others seriously hurt last evening. Roger Ackworth, eight years old, is dying of a fractured skull. Errett Duse, eleven years old, suffered a broken leg and numerous bruises, while Charles Rhodes is suffering from internal injuries. The boys were playfully wrestling at the time of the accident and pushed against the railing.

TONE UP YOUR STOMACH

There is no tonic for the stomach that is not a tonic for every other part of the body. But the stomach depends, as does every other organ, on the blood for its energy.

There can be no perfect digestion without rich, red blood. This is scientifically true. The way to tone up the stomach is to enrich the blood.

If your digestion is off and your blood is thin there can be no question about it. You need Dr. Williams' Pink Pills to restore the condition of your blood, use care in the selection of your diet and the stomach trouble will take care of itself.

Stomach trouble is debilitating. Dr. Williams' Pink Pills are a tonic and build up the weakened system generally. Most stomach remedies try to digest your food for you. How much better it is to tone up the stomach so that it will do its own work as nature intended. There is no pleasure in eating pre-digested food. Tone up your stomach and your appetite and digestion will soon be normal.

A diet book will be sent free on request by the Dr. Williams' Medicine Co., Schenectady, N. Y. Your own druggist sells Dr. Williams' Pink Pills or a box will be sent by mail, postpaid, on receipt of fifty cents.

CONVENTIONS TO-MORROW

Sealers and Postmasters Begin Annual Sessions

Two important conventions will open sessions in this city to-morrow and a third one will be held later in the week. The Pennsylvania Association of Sealers of Weights and Measures members will convene with about 125 in attendance. At the same time the Pennsylvania State Association of Postmasters will open sessions. Postmaster Frank C. Sites is in charge of arrangements.

To-morrow evening 125 members of the Pottsville Merchants' Association will arrive in automobiles from Sunbury. On Wednesday they will tour the city. Delegates for the convention of the Dauphin County Sunday School Association will arrive on Thursday for a two-day session.

Fat Baby Boy

Raw and Blistered—Healed by

Here is Proof and Nurse's Letter:

Nurse Dudley, of Buffalo, N. Y., says, "Every nurse and mother should know how quickly Sykes Comfort Powder heals the skin. After all other remedies failed it healed the raw, blistered skin of a fat baby boy."

This is because of the healing, soothing and antiseptic medication combined in Sykes Comfort Powder, and not found in any other preparation.

GLASSES THAT FIT

To the man or woman who suffers from eye disorders, the selection of a thoroughly capable Optician is a mighty serious problem.

Let us state our position briefly and clearly. We've devoted a lifetime to the study of the Eye and Eye Disorders and how to adjust and remedy these disorders.

Our modern methods, scientifically applied insure practical and permanent relief—there's no guess work to our methods. Every pair of Belsinger glasses bring Eye relief—and we guarantee it!

VOTERS OF MAINE SIT IN JUDGMENT

[Continued From First Page]

plurality however small, would be accepted by them as an endorsement.

Both Claim Victory

Fair weather prevailed and this was expected to cause a big vote, equally desired by both sides. A Governor, Auditor, four Congressmen, two

United States Senators and a State Legislature will be chosen.

The State officers are now Democratic and that party has one United States Senator and one of the four Congressmen.

In 1914 the Progressives cast 18,228 votes for Governor. How their vote would split to-day was a matter of dispute.

Both sides claim they will receive sufficient Progressive support to carry the election.

The polls opened at 6 o'clock and must close not later than 5 p. m. Many returns will be slow as some twenty towns and plantations are without telegraph or telephone communication with the outside. However, the result should be indicated before midnight.

The Republicans claim everything, with pluralities approximating 15,000. The Democrats claim pluralities of 3,000. They admit the outcome in the Third and Fourth Congressional districts is in doubt.

Hughes Spends Next to Last Day of Present Trip Over Country at Syracuse

Syracuse, N. Y., Sept. 11.—Charles E. Hughes, homeward bound, spent

the last day but one of his first presidential campaign trip in Syracuse today. A vociferous crowd welcomed him with cheers at the station. The principal streets were dressed out in the national colors in his honor and for the opening of the state fair.

The day's program was crowded. First came a review by the nominees of a long parade of automobiles, then luncheon at the fair grounds and his chief speech of the day at 2 o'clock, hotel, where he held a two-hour public reception. A brief rest followed, then a dinner to which 250 persons were invited, given in his honor by the Allied Club of Syracuse. Mr. Hughes was to speak at this dinner and to leave at 11:35 p. m. for Plattsburg, where he will speak to-morrow night at the military training camp.

SOLDIERS ARE VOTING

Laredo, Texas, Sept. 11.—Members of the Second Maine Regiment of national guardsmen doing duty along the Mexican border to-day voted in the elections held in their state. The privilege of franchise was accorded under a law passed by the State of Maine during the Civil War authorizing soldiers in the field to vote. The ballots will be sealed and forwarded to the Secretary of State of Maine. Election supervisors consisted of the three ranking officers of the regiment.
