ping out of initial plans for the permanent improvement and development of the river basin.
Council, it was definitely decided will be asked this winter to incorporate in its budget, provision for the erection and maintenance of bathhouses and bathing beaches and perhaps boathouse facilities.

haps boathouse facilities.

Name Bathhouse Committees
Appointment of committees was authorized to gather data on these subjects, the bathhouse and bathing beach committee to act with an architect to prepare an estimate for presentation to the city commissioners. Thomas M. Kelker will likely be asked to prepare these plans and the navy will pay for the services from its own pocket.

The committees will be appointed within a few days by President E. J. Stackpole and will be ready to report at the meeting to be held Monday, October 2.

Following the discussion of the future amusement and development projects, the navy trophy cup was presented to the Tophylac likely sepre-

fects, the navy trophy cup was presented to the Technical high school student crew which won the first annual "war" canoe race in the great event of the Kipona. Tech Gets Navy Cup

Tech Gets Navy Cup

In presenting the cup on behalf of the navy, President E. J. Stackpole referred to the fact that the race between Tech, Central, Steelton high schools and the Harrisburg Academy was one of the most exciting events of the program and one which won universal approval of the thousands that cheered from the banks.

President Stackpole commended the husky Marcon and Gray athletes for their splendid work, paid a tribute to their opponents as well, and suggested that better mutual results in the crew organizations might be effected if the four schools would band together during the winter in some kind of a league to act with the navy.

Plan to Keep It

Captain Ellwood Mell, '17, proudly accepted the cup for his school and crew. "And we're going to keep it next year, too," he added in conclusion.

crew. "And we're going to keep it next year, too." he added in conclusion.

Much of last evening's discussion pertained to the annual Kipona and the navy decided upon a number of permanent recommendations of the executive committee for future events. For instance in the years to come the same methods of clearing the course as had been followed on Labor Day will be carried out; lanterns and standards will be loaned in the future to canceists who wish to take part in the decorated boat parade.

The Jovian league, the organization of electrical engineers which provided the lighting on the river, was asked to appoint a permanent committee on river illumination. J. Clarence Lober, the league representative, gracefully thanked the navy and declared that his own organization intended to cooperate in every possible way with the navy. A vote of thanks was extended the league by the navy for its participation in the Khona.

To Adopt Constitution
Constitution and by-laws will likely be adopted at the meeting of October 2, when the navy sets together for permanent organization. The by-laws and constitution committee headed by C. W. Wolfe, will meet in the park offices Thursday evening. A committee to nominate permanent officers was annointed last night as follows: W. C. Fisher, Ray L. Steward, Thomas M. Kelker, Martin Keet and V. Grant Forrer.

In a letter to the navy E. R. Dasher suggested that the municipal boat and bathhouses. convention hall problem might be solved by erecting a commodious building on the island between the Market and Walnut street bridges which would answer all purposes.

## HAVE YOU A

Mexican Border? If so, mail him a package of Allen's Foot-Ease, the antipackage of Alien's Foot-Ease, the antiseptic powder to be shaken into the
septic powder to be shaken into the
shoes and sprinkled into the foot
bath. It takes the friction from the
shoe and will be of the greatest benefit
in that arid, hot climate, where the
alkali dust plays havoc with the feet.
What remembrance could be so acceptable? Ask your dealer to-day for
a 25c box of Allen's Foot-Ease, and
for a 2c stamp he will mail it for you.

## Early Coal Buying Advisable

It's the part of wisdom to buy your winter supply of coal now. Once the frost and ice and snow of winter get busy, it's pretty difficult to keep the coal free of dust and dirt. Summer-mined caol by the very nature of things is cleaner, the screening we give it insures practically a complete absence of dust and dirt. Phone your order now.
