NEWS OF STEELTON. WOULD MOTORIZED MILLS RUSHED TO FIVE COMPANIES. Firemen Suggest That Modern Apparatus Be Provided All Companies in Borough. With final passage by council of an ordinance authorizing the sale of \$25,000 worth of bonds for the purchase of motor fire apparatus and garbage truck, borough firemen are watching with interest the developments in the plan to purchase trucks. It is pretty generally understood that the purchase of one truck for garbage collections will be sufficient to meet all demands and that this will cost not more than about \$4,000. With the remaining \$21,000 it has been suggested on the floor of council that three pieces of motor apparatus be purchased and assigned to central companies. Among firemen, however, it has been suggested that council, if it desires, can purchase five motor apparatus and in this manner motorize the entire department, eliminating horses entirely. To obtain funds to do this it would be necessary to transfer the \$12,000 voted several years ago for erection of a sanitary hospital into the fire apparatus fund. This \$12,000 which was obtained by issuing bonds for which the borough is now paying 4 1/2 per cent interest annually, is drawing but 3 per cent in bank. Firemen point out that this yearly interest loss for which nothing is obtained should be wiped out as soon as possible and suggest that the best plan for doing this would be to use the money for purchase of fire trucks.
