to the possibility of raising the entire sum needed in ready cash, so as not to proceed with the necessity of paying large interest charges on outstanding bonds, and all of them were of the opinion that the hotel will be a money-maker.

Resolution Passed

A. E. Buchanan and other members of the club spoke on the necessity of supplying the new company, and the following resolution, presented by Gus M. Steinmetz and amended by C. M. Kaltwasser, was passed by the club.

should be 'Penn State' and hope that the suggestion will receive your kind consideration.

Lawrence Bowermaster suggests the name of "Park View" for the reason that "in selecting a hotel the majority of people prefer plenty of fresh air, light and a pleasant view, which this name suggests."

C. H. Forrest writes: "Apropos of your invitation to submit names for the proposed new hotel, permit me to suggest the name 'Hotel Walltower.' Not only is this name euphonious in itself, but it would be a fitting tribute to the man whose initiative, optimism and good faith in his fellow-townspeople now seems to have made the project assured."

J. W. Wittner suggests "Harris Home." He believes this name would assert itself as the home of John Harris and a memorial to his career as well.

Eleanor Askin submits these names: "Eureka"—meaning the best; "Cosmopolitan"—takes in the world; "Elite," also the best.

One of the Telegraph readers at Shiremanstown suggests the name "Weldon" (well done).

"Royal Penn" is the suggestion of W. Gruber Carl, of 117 Pine street.

Paul Gendell, managing secretary of the Chamber of Commerce at DuBois, writes as follows: "As a former Harrisburg and one who is still interested in the progress of that city I have been very much interested and pleased to know that Harrisburg is at last to have a hotel that will be worthy of the Capital of the State and of as fine a city as Harrisburg."

"I note that you are asking for suggestions for a name for the new hotel and would suggest that 'Oughtabine' might be appropriate because it ought to have been built before. Perhaps 'Nowegottit' might give a popular Indian sound and also have some significance."

W. M. Robinson, secretary of the Rotary Club, suggests "The Phoenix." "I think the name is good and suggestive of the new building rising out of the ashes of the old Grand opera house," says Mr. Robinson.

L. Looser, who represented the officers of the Circle who had asked for dissolution, has intimated that there will be some further action in the dissolution proceedings. The Dauphin county court Monday refused to dissolve the Circle whereupon the board of trustees in a notice to the membership to that effect called a meeting for to-night.

Anthracite Conditions Show Fewer Work Days This Year According to advance statements issued by the United States Geological Survey there were fewer days worked by the employes in the anthracite mines in 1915 than in any year since 1910. The average number of days worked in 1915 was 230 against 245 days in 1914 and 257 days in 1913.

The decrease in the number of days worked as reported to the Geological Survey reflects the unsatisfactory condition of the anthracite industry, and which was particularly in evidence during the first seven months of the year. From January to July, inclusive, the shipments of anthracite in 1915 showed a decrease of nearly 2,000,000 tons, while as compared with 1913 the decrease for this period was over 3,800,000 tons. Demand for anthracite was so poor in the first half of 1915, that many of the mines were operated not more than fifteen days in a month. In spite of this reduction in output, due to the idle time, stocks in the storage yards accumulated until many of them were filled considerably above their rated capacity and at the beginning of the present season the quantity of coal in storage was variously estimated at from 7,000,000 to 9,000,000 tons, the smaller quantity probably being in excess of any previous record on storage coal.

structures, were subjected to almost ceaseless bombardments of bottles and bricks, car windows being shattered and a number of passengers injured.

Widespread Rioting To-day there were several attacks by strikers and sympathizers on surface cars and police reserves were repeatedly called out.

With the arrival here to-day of Samuel Gompers, President of the American Federation of Labor, to attend the funeral of Seth Low, it was learned that the business interests which are endeavoring to avert a sympathetic strike had invited Mr. Gompers to attend their meeting with labor leaders to-morrow. It was indicated by the union men that Mr. Gompers held his acceptance of the invitation in abeyance pending talks with union leaders.

During the forenoon attacks on surface cars continued intermittently. The last 24 hours have witnessed the most extended disturbances of the strike, police reports to-day showing the arrests of twenty men declared to be former employes. Fifteen of these are accused of felony in attacks on trains and cars.
