"But, for pity's sake, Mike, if you do come with me, keep awake! You know you're always falling asleep during the sermons."

Strenton, Pa., Sept. 20.—

Five detectives from New York and Philadelphia, in the employ of the Adams Express Company, are here looking up the disappearance of a package containing nearly \$4,000 from the local office of the company.

The package was brought to the express office last Wednesday from one of the central city banks and a receipt was given to the messenger.

Half an hour later the money was gone. Suspicion at first directed to office here has narrowed down to three and arrests are expected soon. HORLICK'S

WAR PHYSICIAN WINS NOBEL PRIZE

Exchanged After Being Held in Russia as Prisoner Finds Honors

Vienna, Sept. 20. — Entering the war as a volunteer surgeon little known outside the circle of specialists of his own class, Dr. Robert Barany of Vienna, after fifteen months of captivity in Russia, has at last returned as famous as the Nobel prize winner in

The knowledge which was the basis of his prize-winning book was gained chiefly as surgeon in Przemysl; the book itself was written in captivity; it

book itself was written in captivity; it has brought him 400,000 crowns in money; and it played no small part in securing his release from Turkeston. The dramatic circumstances surrounding his achievement have greatly heightened the effect of his return to his family. Nominally he was permitted to leave Russia because he is slightly lame from an affection of one foot from which he has suffered since a child. Actually, his unexpected distinction, plus the efforts of Prince Karl of Sweden, went far to secure his exchange.

tinction, plus the efforts of Prince Karl of Sweden, went far to secure his exchange.

Despite his lameness, Dr. Barany volunteered for service at the outbreak of war, and was detailed as chief surgeon of the surgical department of a hospital in Przemysl. It was while there, as he modestly explains, that he was "so fortunate as to discover a new method for the treatment of head wounds," a discovery that enabled him to cure a vastly greater percentage of cases than before.

For four weeks after the fall of Przemysl the Russian commander allowed the Austrian physicians to remain. Then in transports of about 100 they were sent to various part of Russia, many to Siberia, the surgeon and many others to Turkestan. Unlike many others to Turkestan. Unlike many others to Turkestan. Unlike many others to transferance almost universally good treatment in captivity, treatment that included a sufficiency of recent food liberty not too restricted, and pleasant professional relations with Russian commanders and colleagues. Dr. Barany was given fairly ample opportunity to study, to practice, and to lecture on his specialty to Russian and captive Austrian physicians.

Believes Gompers Is Not Man to Bring Socialists of Both Sides Together

The Hague, Sept. 20. — "If the International Socialists Bureau has not as yet succeeded in bringing the Austro-German and Allied Socialists together, President Samuel Gompers of the American Federation of Labor certainly could not accomplish the task," says Camille Huysmans, secretary of the International Socialists Bureau, to a correspondent of the Associated Press, in answer to a proposal of Mr. Gompers to hold a world labor conference during the progress of the peace conference following the war.

Mr. Hysmans pointed out that any international conference without the participation of the British and French Socialists would be a farce in that its decisions would be entirely lacking in influence.

He declared is belief that Mr. Gompers' proposal at present is impracticable, and the deprecated the dead of the American or International Trade Union organizations trespassing on the political domain of the Socialist International Bureau. He declared that such a conference would have to be held under the auspices of the latter organization, and naturally he would approve of such a congress if the British and French were willing to participate.

"The Socialists constitute the center

approve of such a congress if the British and French were willing to participate.

"The Socialists constitute the center of gravity in the matter of influencing the war and when they are ready to act," Mr. Huysmans declared, "a congress should be held even without awaiting the peace conference." He believes, however, that the war will continue until next year, considering the the great obstacles to peace that are apparent at present.

The Dutch Socialist organ, Het Volk, applauds Mr. Gompers' idea, but doubts the practicability of such a plan save under the auspices of the Socialist International Bureau. It asks whether he is acting after consultation with President Legien, of German International Trade Union Alliance, "who might regard it as undesirable to advocate the plan himself for comprehensible reasons."

Frank Rockefeller Still Gives John D. "Turndown"

Cleveland, Ohio, Sept. 20. — There's to be no burying of the hatchet between John D. Rockefeller, richest man in the world and his brother, Frank Rockefeller of this city.

That this is the case was made known when Frank Rockefeller admitted that efforts of his other brother William Rockefeller, of New York, to affect a reconciliation Sunday proved unavailing.

"There never will be a reconciliation between John and I," said Frank Rockefeller emphatically at his office to-day.

Rockefeller emphatically at his office to-day.
William Rockefeller and his wife came here Sunday and visited with John D. at the latter's Forrest Hill estate. Mr. and Mrs. William Rockefeller in the afternoon motored out to Frank's home in Wickliffe, but Frank was not at home. They visited with Mrs. Frank Rockefeller and then returned to John D.'s home. They were assured that the trouble between Frank and John, which arose over a business deal in the early days of Standard Oil could not be patched up.

San Sebastian, Spain, Sept. 20.—(Correspondence of The Associated Press).

Bull fighters and their partisans look askance at a luxurious new establishment just completed here, where thoroughbred horses will soon begin racing on a scale hitherto unknown in Spain. ace course has all modern improvements and with grandstands that rival those of Longchamps and Auteuit, near Paris. Alfonso XIII has not only sanctioned the enterprise, but has given it vogue by acquiring a stable of thoroughbreds himself; some of his horses may make their debuts at the meeting which opened July 2 and will continuountil October 1.

The more emotional and more conservative see in the King's encouragement of horseracing the prelude to a radical step in the modernizing of Spain—the eventual abandonment of the bull fight out of regard for the sentiments.
