

# Dives, Pomeroy & Stewart

## Getting Ready For School!

When the school bell rings next Monday morning Harrisburg's army of boys and girls will be happy in the possession of new things to wear and use. But a lot of preparation will be necessary, so these will be busy days, this week, for fathers and mothers who have not made earlier provisions for their youngsters' school needs.

The logical place to turn for boys' and girls' school requirements is the Dives, Pomeroy & Stewart store because its many departments give as much attention to the things that little folks wear and use as they pay to grownups.

## The Popular Anderson Gingham School Dresses of Serge or Gingham For Girls' School Dresses

Scores and scores of the famous D. and J. Anderson and William Anderson Gingham—two of the best grades of gingham made in the world—are shown in richly colored plaids, checks and other patterns. These are greatly favored for school dresses because of their fine quality and beautiful styles.

## THIRD TOUR WILL START TOMORROW

Largest Party of Series Will Follow the Governor to Southern Tour

Governor Brumbaugh's third tour of the agricultural regions of the State, which will close the series, will start to-morrow morning from Market Square. It is expected that over fifty cars will start and more will join the party on the way. The interest in the trip is heightened because of the meeting of the State League of Clubs in York and the fact that the tour will cover the Lincoln and William Penn highways.

On Tuesday morning stops will be made at Lancaster at 7.15 o'clock, at York at 8.30 o'clock, at Harrisburg for lunch and a noonday meeting. In the afternoon there will be a stop at Chambersburg at 2.10 o'clock and a visit to the busy apple show. Short stops will also be made at St. Thomas and Fort Loudon. From McConnellsburg the tourists will run six miles to Websters Mill, in the agricultural section of Fulton county, arriving there about 3.30 o'clock. Stops will be made at Everett and the night will be spent at Bedford, where the officials will tender a public reception.

Leaving Bedford at 7.45 o'clock on Wednesday morning, the first stop will be made at the Somerset fair, where elaborate arrangements have been made to welcome Governor Brumbaugh. From Somerset the tour leads to Johnstown and on to Ebensburg, where lunch will be served and the noonday meeting held. In the afternoon there will be short stops at Hollidaysburg at 2.50 o'clock and Altoona at 3.15 o'clock. At the Mapleton Farm of D. Shelly Kloss, near Tyrone, a community picnic which is expected to be attended by 1,000 farmers will be held from 10 o'clock to 11 o'clock. The night stop will be made at Huntingdon, where Governor Brumbaugh will be host to the tourists at a dinner at Juniper at 7.15 o'clock. In the evening there will be a meeting and a public reception in the Huntingdon courthouse.

On Thursday the start will be made from Huntingdon at 10 o'clock and luncheon will be served by the Ladies' Aid of the Lewistown Hospital at Burnham Park. A big noonday meeting will be held at Millington. Stops will also be made a Millington at 2 o'clock, Millerstown at 3 o'clock, Newport at 3.25 o'clock and New Bloomfield at 3.45 o'clock.

"The Cold Storage Egg" is not always above suspicion. Popular imagination ascribes great food value to the egg—but it is not a muscle-builder. There is more real body-building nutriment in a Shredded Wheat Biscuit than in the same weight of eggs or beef-steak—and it costs much less. Delicious for any meal with sliced peaches or with fruits of any kind.

Made at Niagara Falls, N. Y.

## WASHING DISHES NEEDS MUCH CARE

Dr. Dixon Makes Some Comment Upon the Necessity of Watchfulness

Commissioner of Health Dixon in the course of a talk on health and hygiene to-day urged that people exercise the greatest care in washing dishes especially because of the dangers of contagion which are always present. The commissioners talk is very straightforward and is as follows:

"Common tasks are important, because they are common. For example, washing dishes. Everybody may not wash dishes, but they eat from dishes that someone has washed.

"To properly cleanse dishes and eating utensils, they should be washed and rinsed in boiling water. Washing in lukewarm water, even with soap, is not sufficient.

"There are numerous communicable diseases caused by germs which are present in the mouths of those who are afflicted. People in the various stages of tuberculosis, diphtheria, syphilis, etc., may transfer disease germs from their mouths to eating utensils. Unless these are sterilized by boiling water they are a source of danger to whoever may use them subsequently.

"Forks in particular, because of their construction, are difficult to cleanse thoroughly and should be washed with care.

"In public eating houses exceptional attention should be given to the sterilization of eating utensils and drinking glasses. Care in the choice and preparation of food is easily offset by careless handling of the service."

## Coyote Attacked a Child; Almost Dragged It Away

Fallon, Nev., Sept. 25.—A coyote attacked the little child of Gottlieb Frisch, the Sunday school teacher, on his ranch, on Old river near Goshute. The children were playing in the yard, when a coyote attacked the smaller child, biting it several times on the head. The older child rushed into the house and notified the mother, who came out of the house, and was horrified to see the coyote dragging the child away.

The animal persisted in dragging the child after being kicked several times in the ribs. The coyote was killed, and the head has been sent to the university for examination for rabies.

## Muskrat Farmers Raised \$25,000 Crop During Year

Madison, Wis., Sept. 25.—How licensed muskrat farmers of Winnebago county and vicinity got \$8,425 of these animals during the year ending June 30 and sold the hides for \$25,220.60 is told in the records of the conservation committee.

The business of muskrat-raising is a unique one, and this year is the first recognized under the law passed by the government for the licensing of specific premises for this purpose, the taking of the animals to be reported to the commission.

The farmer doing the largest business reported a sale of 12,125 muskrat hides, for a total of \$5,303.60.

## TOO PROUD TO LOAF

We're camping on the Rio Grande  
But with nothing much to do  
But wash our shirts and darn our socks,  
And darn darn the insects, too.

We want the world to see, and  
We're not too proud to fight,  
We draw the line at loafing here  
With things that sting and bite.

The rattlers are a friendly lot  
And visit us by scores,  
Tarantulas prefer our tents  
To sleeping out of doors.

We've learned the horned toad is but  
A harmless little pest,  
We're not a bit too proud to fight,  
But how we hate to loaf!

## GET THIS DIET BOOK

Food is as important to the sick person as medicine, more so in most cases. A badly chosen diet may retard recovery.

In health the natural appetite is the best guide to follow, in sickness the appetite is often fickle and depraved.

Proper food and a good tonic will keep most people in good health. Dr. Williams' Pink Pills for Pale People are the most popular tonic medicine in the world, harmless, non-alcoholic and certain in their action which is to build up the blood and to restore vitality to the run-down system. For growing girls who become thin and pale, for pale, tired women, for old people who fall in strength Dr. Williams' Pink Pills are an ideal tonic. To enable those who give these pills a trial to observe intelligent care in the diet the Dr. Williams Medicine Co., Schenectady, N. Y., will send on request a free diet book, "What to Eat and How to Eat." It is full of useful information and whether you are well or sick it is a good book to have. A postal card request will bring it. Send for your copy today.

Get Dr. Williams' Pink Pills at the nearest drug store. If they are not in stock send fifty cents to the above address for a full-size box.

## CLOTHES AND THE MAN

There are two classes of men who can afford to be untidy in their personal appearance—the geniuses and the tramps.

Clothes reflect the man's mind. Some of the most threadbare clothes I have ever seen were powerful evidences of a great personality. A silk shirt is often the covering for a skin that needs a coat of tar soap and a rough brush.

It is the refinement of clothes and not the richness of dress that indicates the individual worth of a man.

The barber shop reveals the brown streak just above the silk-shirt collar. To put the situation perfectly plain, the fancy-dressed fellow has a fancy mind, more often than not. The over-dressed man has his finicky flights, his feverish fancies. The well-

groomed individual is orderly, efficient and well-balanced.—The Silent Partner.

**THE TACTFUL SCHOOLM'AM**

Only a short time ago a young school teacher heard that she was misunderstood and disliked by a certain family. Deliberately she cultivated the society of its members, and finally spent a social evening in that home. Cordial appreciation of a fellow Christian took the place of cold disdain, and ultimately led them all into the Church. How much better is such a conciliatory disposition than the worldly rule of tit for tat, dislike for dislike, holding oneself haughtily aloof from people who after all are our brothers and sisters, and fellow travelers on life's highway.—The Christian Herald.

**QUESTIONS OF COURAGE**

That the most intelligent are the bravest in battle is the view expressed by Dr. Charles Richet, the distinguished French physician and savant, who has had many opportunities to study the subject since the outbreak of the war. Dr. Richet's observations lead him to give the palm for bravery to the cultured, refined man of nervous temperament, who is able to control his fears by the exercise of his will. The ignorant and the stolid may exhibit bravery simply because they lack the imagination to foresee the dangers by which they are confronted, but their courage, Dr. Richet holds, does not permit them to perform such deeds of valor as are possible to their comrades of a finer fiber. Another brand of courage in war, Dr. Richet finds, is due to fatalism. Religion plays little part in the matter. The atheist faces annihilation as bravely as the Christian, who considers death the gateway to a better life.
