## Clear, Peachy Skin Awaits Anyone Who Drinks Hot Water \$

Says an Inside bath, before break fast helps us look and feel clean, sweet, fresh.

Sparkling and vivacious—merry bright, alert-a good, clear skin and natural, rosy, healthy complexion assured only by pure blood. If only every man and woman could be induced to adopt the morning inside bath, what a gratifying change would take place. Instead of the thousands of sickly, anaemic-looking men, women and girls, with pasty instead of the multitudes of "nerve wrecks." "rundowns," "brain fags" and pessimists we should see a virile, optimistic throng of rosy-

An inside bath is had by drinking each morning, before breakfast, a glass of real hot water with a teaspoonful of limestone phosphate in it to wash from the stomach, liver, kidto wash from the stomach, liver, kidneys and ten yards of bowls the previous day's indigestible waste, sour fermentations and poisons, thus cleansing, sweetening and freshening the entire allmentary canal before putting more food into the stomach. Those subject to sick headache, billiousness, nasty breath, rheumatism, colds; and particularly those who have a pallid, sallow complexion and who are constipated very often, are urged to obtain a quarter pound of limestone phosphate at the drug store which will cost but a trifle, but is sufficient to demonstrate the quick and remarkable change in both health and appearance, awaiting those who practice internal sanitation. We must remember that inside cleanliness is more important that outside, because the skin does not obsorb impurities to contaminate the blood while the pores in the thirty feet of bowels do.

# **FARMERS!**

You are getting high prices for wheat, and from all indications you will get high prices for the next crop, for there will be no large "carry-over"—

NOW, THEN-Make every acre produce more bushels. How? There is only one way—put the real nature food in the soil that will fatten the wheat heads and fatten the berries in the heads—BIGGER HEADS and MORE WHEAT in the heads—this means A BIGGER CROP. You can't make your soil produce unless you first put the right kind of fertilizer or food there to nourish and feed the plants that make the crop.

Inn't it a fact that very few have their soil analyzed, to find out positively what it actually contains, and what it needs? Most of the buying of commercial fertilizers is guesswork. Very often you put on your soil just what it should not have; you are anxious to give your soil the right ingredients, so you buy the best grade of fertilizer—perhaps it's the highest priced, and yet not what your soil needs. I advise you to

# Use Wizard Brand Pulverized Sheep Manure

BECAUSE IT IS A COMPLETE NATURAL FERTILIZER A SOIL BUILDER, A CROP-MAKER

Because, too, no matter what kind of soil you have, or what its condition, Pulverized Sheep Manure will give it what it naturally needs, it is Nature's fertilizer, does as Nature intends, and it contains all needs, sylpant-food elements—Nitrogen, Phosphoric Acid and Potash—in combination with organic matter or humus, and it is this natural combination that produces the peculiar action and effect in the soil, which can be had only from animal manures. By using it, you are making your crops and at the same time building up your soil and adding hundreds of dollars in value to your land. I sell many carloads of it, and I could give you testimonials on every kind of crop, if I had space, showing the wonderful results obtained by gardeners, farmers and florists who are using it.
