Get in Tune With the Times—

# "Dress Up"

This is "Dress Up" Time. All nature is now donning its finest. So should you.

No matter how you may feel yourself, to others you are only as "alive" as you look—as "wide awake" as your clothes say you are. So "Dress Up" now.

Being well-dressed inspires confidence in yourself and begets the confidence of those with whom you associate in either a business or a social way.

Every man who wears **GLOBE CLOTHES** knows that he is in the front ranks of well-dressed men. This season's styles were never more beautiful—the models we show are exclusive—and the fabrics are the best money can buy, at

## \$15 to \$35

### Top Coats That Spell Real Dressiness—

This evening we call attention to two special styles—

**THE RIDER**—A Norfolk back model—pleated and belted—one of the season's smartest creations—can be had in a variety of Scotch fabrics of mixed colorings—\$20.00 and \$25.00.  
**THE CARLTON**—A conservative Top Coat with snap-loose boxy effect—in Oxford and Cambridge Grays—\$20.00.

### "DRESS UP" That Youngster

For school or play, "Dress Up" your lad in the Globe "Dubbèl-Hedder" 2-Pants Suits, \$5.00. They're made to withstand the hardest knocks that any boy can put them through. They outline two ordinary suits. Right-Posture \$6.50 to \$12.50 Health Suits. . . . We want to see all our boy friends grow up into strong, vigorous men—that's why we sell these famous Health Suits. Real snappy, styled garments—regular sizes; also extra stouts.

### "Dress Up" in a New Hat

Whatever is new—whether for young men or older men, is sure to be found in our vast stocks of the world's best makes—and with the aid of our French conformer, fit is a certainty here. \$2 to \$3.50

### "Dress Up" Shirts

Every man ought to be particular about his Shirts—they either make or mar your appearance. The man who selects from our great stocks simply cannot go wrong—there's a Shirt here to please every taste. \$1 to \$5

## THE GLOBE

### Want Commissioners to Study Oriental Relations

New York, Sept. 29.—The appointment by the President or Congress of a commission to study the relations of America with Japan and China is advocated by a group of forty American missionaries from China and Japan as

the result of a conference held here. The meeting was arranged by the World Alliance for Promoting International Friendship through the Churches and by the Federal Council of Churches. It was voted also, according to an announcement to-day, to ask the United States government to invite the governments of China and Japan to appoint similar commissions to confer with the proposed American commissioners.

**8,000 AT PENN**  
Philadelphia, Sept. 29.—The University of Pennsylvania to-day began its 176th year with an enrollment which will be considerably more than 8,000. The graduate school sessions will begin next Tuesday and the extension schools in Harrisburg, Reading, Scranton and Wilkes-Barre next Wednesday night.

## How About Some New Silver For The Dining Table?

There's scarcely a home that doesn't need something in the way of table silver. It may be to fill out a set—to replenish the worn silver—or to substitute for the fine ware and relieve it from the wear and tear of every day use.

The Tausig stocks of silver—both plated and sterling—comprise the greatest variety of patterns from the world's best silversmiths to be found in Harrisburg. Talk the matter over now at home—make a list of what you need—and note from our prices how economically your wants may be supplied.

## LETTERS FOLLOW THE 'FARM TOURS'

Agricultural Department Officials Are Thanked For the Interest Shown

Officials of the State Department of Agriculture got together to-day at the department to discuss the results of the three tours of the farming regions of the State and Secretary of Agriculture Charles E. Patton declared that he believed excellent ground had been made for working closer with the farmers. Mr. Patton says that the people in the regions visited were willing to hear from the State officials and that they showed a disposition to cooperate with the department officials in the various lines of activity which have been undertaken or extended under this administration. As an evidence of the interest aroused by the tour and by the invitation to farmers to ask for advice from the State's farm counselors when they want help numerous letters have been received at the department and the schedules of the farm counselors will be changed so that persons bringing their problems to the attention of the State will be given attention. It is also expected that the farm institute meetings will be productive of many questions for the State's men. The department was represented on the tour of over 1,400 miles by Secretary Patton, Deputy Secretary Carothers, Chief Clerk Lichteiler, Dairy and Food Commissioner Foust, State Veterinarian, Chief Chemist, Chemist Kellogg, the new State Zoologist, Professor J. G. Sanders, Statistician Wible, E. C. First, W. R. Douglas, George G. Hitchman, E. E. Kluge, Franklin Menkes and others connected with the various divisions. Members of the State Commission of Agriculture also accompanied the tour.

Mr. Douglas had charge of the arrangements for the tour.

**Mr. Black Returns.**—Highway Commissioner Black was in the Capitol to-day after the tour. He was with the Governor, on which day Chief Engineer Uhler took advantage of the opportunity to make some inspections of roads and to look over all road propositions. Considerable attention is being given to the latter matter by the Commissioner.

**Patterson Selected.**—Dr. F. D. Patterson, chief of the division of industrial hygiene of the Department of Labor and Industry, has been selected as one of the judges for the Bethlehem Steel Company's safety and first aid contest.

**Awarded \$21.71.** Referee Saylor yesterday awarded \$21.71 in compensation to Hugh McLaughlin, formerly with the Harrisburg Railways and now leader for a fender striking him. It represents loss of time in July.

**To Appeal Case.**—The Pittsburgh Railways Company last night gave notice that it would immediately appeal from the decision of the Public Service Commission in the Pittsburgh night car fare case.

**Chancellor Here.**—Chancellor S. B. McCormick, of the University of Pittsburgh was here last night. He accompanied the Governor on the agricultural tour.

**Big List Ahead.**—The Public Service Commission has a big list ahead and Monday the applications to be considered will be taken up. It is expected that they will call for improvements in cities.

**May Object.**—The workmen's compensation law and the new wage agreement between operators and miners were criticised at Scranton yesterday by Captain W. A. May, president of the Pennsylvania Coal and the Hillside Coal and Iron companies, when he appeared before the State commission investigating the injured prices of anthracite. Captain May declared that the compensation law, which was designed as a samaritan piece of legislation, has been detrimental to the safety of the workers and that the new wage scale had resulted in a decrease in efficiency in the employees of the Hillside and Pennsylvania companies. "We have had 228 accidents and eighteen fatalities in our collieries in the last six months," asserted Captain May. "We never had so many before in the same period."

**Up to 1522.**—Reports made to the State Department of Health up to last night showed 1522 cases of infantile paralysis since July 1. Philadelphia reported only eight cases.

**To Take Appeal.**—The three men arrested in Philadelphia on charges of having exceeded the legal rate of interest have decided to appeal. Their cases will involve a test of the act.

**Fuss Over Blackbirds.**—A general war against blackbirds which are protected by the State except when tearing up vegetables or ripping nests to pieces has been declared at Ardmore. The local authorities want to get rid of them, but the bird lovers, backed by the State laws, proceeded to have the destroying angel of the local administration, fined \$50. Dr. Joseph Kalbfus will be asked to settle the trouble.

### Extraordinary Demand For Securities of Nearly All Iron and Steel Co.'s

New York, Sept. 29.—The feature of to-day's early stock market was the extraordinary demand for securities of practically all the iron and steel manufacturing companies.

Except for United States Steel and several other prominent stocks of that class, these issues as a whole have improved only to a minor extent in the remarkable activity of the last month. To-day's operations, however, were so wide and extensive as to place that group as a whole in the foreground with a new record for Republic Iron and Steel, while others rose to highest prices of recent years. Gains of the forenoon ranged from 1 to almost 5 points in United States Steel, which approached its recent high record, Lackawanna, Crucible, Sloss-Sheffield and Gulf States Steels, Colorado Fuel, Great Northern Ore, Railways, Steel Springs and American and Baldwin Locomotives. Extensive profit taking shaded gains before the end of the active morning session.

### W. Harry Baker Club Is Addressed by Well Known Republicans

Congressman Aaron S. Kreider, Senator E. E. Beidlerman and the Rev. W. A. Ray were speakers last night at a rally of the W. Harry Baker club at Schaeffer's hall, Marion and Calder streets. Frivolous to the rally the club had a parade with more than 100 men in line, headed by the Perseverance band. Marshall Fieldin presided at the meeting, which was one of the largest gatherings of colored voters in years.

## Urges Preparation For Heavy Exportation of Gold From U. S. After War Ends

Kansas City, Mo., Sept. 29.—"Heavy exports of gold from this country to Europe may follow the close of the European war," said Paul M. Warburg, vice-governor of the Federal Reserve Board, in his address before the American Bankers' Association here to-day.

"Foreign loans in the old and new world may attract our capital at interest rates far in excess of our own," he said. "Our exports will have to meet the keen competition of other nations, while the purchasing power of many a nation will be found materially reduced, even though in the beginning there will be a strong demand for certain of our raw materials. These conditions, in the long run, may be the cause of heavy gold exports from the United States, and, if we remain unprepared, may prove a serious check. If, on the other hand, we forewarn, we will be given the opportunity of taking our place as the strongest of the world's bankers and furnish the basis of a solid expansion of our business."

Mr. Warburg appealed to the bankers to "forewarn" by increasing their balances with the Federal reserve banks and releasing some of the gold in their vaults.

"Keep all the gold in your vaults, where it is useless for yourself, and deprive it of the additional force that it may gain in the hands of the Federal reserve banks, keep every cash till in hotels, railroad stations, dry goods stores and what not filled with gold certificates, and you will rob the country of its legitimate opportunities of growth, of helping the world."

### Funston Names Guards to Be Relieved on Border

San Antonio, Texas, Sept. 29.—Announcement of all National Guard regiments and organizations, to be relieved from border duty by new State troops, under Tuesday's order by the War Department, was made last night by General Funston. The total is approximately 10,000 men. It was announced, until the incoming troops have arrived. Among the troops ordered home are the first Pennsylvania field artillery, first battalion New Jersey field artillery and the first squadron New Jersey cavalry.

# A War On Fire!

Fire is everyone's enemy. Fire last year destroyed nearly \$250,000,000 worth of property in the United States. Fire last year killed 3,000 persons.

Somewhere a fire breaks out every two minutes and some home, some factory, some school, some theatre, some hospital, some store is doomed.

Yours may be next—who knows? Your wife, your children, your parents, may be in peril.

There is danger ahead. Heed it. Are you prepared? If fire comes tonight, what would you do?

The first five minutes in any fire are the vital ones.

There is a fire extinguisher called Pyrene. We make it. It bears our name.

It is fourteen inches long. Weighs 6 pounds. Works by hand like a pump. A boy of ten can use it.

You can hang it anywhere. It never deteriorates. And it kills quickly all kinds of fire. A few pumps smothers out any kind of fire before it gets big.

Sold by leading hardware, auto supply and electrical dealers.

Former agency relations having expired, we, the makers of the Pyrene Fire Extinguisher, have opened in Philadelphia a direct factory branch to render better service to the public.
