

"The White Flour Pinch"—have you felt it? With the advancing price of wheat "the five-cent loaf is doomed," say the bakers. In its place we have the six-cent loaf—in many cities only the ten-cent loaf. A loaf of white flour bread is not a complete ration. However wholesome and pure, it does not supply all the proteins the human body needs. In Shredded Wheat Biscuit you have all the body-building nutrient in the whole wheat grain prepared in a digestible form. It is always the same price, always the same high quality. Eat it for breakfast with milk or cream or with fruits. Made at Niagara Falls, N. Y.

According to the story told the police, the pair went for a taxi ride in Reading on Friday night. The pair then jumped aboard a freight train and rode on the bumpers until they reached Lebanon. Here they changed to another train and came to Harrisburg. Claude McAllister, of Reading, was on the train boarded by the couple, and when he learned their story he notified the Harrisburg police upon the arrival here. The arrests followed and the trio were sent back to Reading last night.

WATER COMPANY DENIES CHARGES

Two Linglestown Men Are Fined For Breaking State Health Rules

Certain charges made in a complaint before the Public Service commission against the service of the Susquehanna Township Water company were declared to be "neighborhood gossip" in a formal answer filed to-day. The answer asks that the charges be dismissed and also asserts that the company is not in the hands of receivers as charged. The company says that it had an arrangement to supply its territory adjacent to the city of Harrisburg with water from the city system, but alleges that the high pressure reservoir is overtaxed. The interruptions are declared to have been beyond the control of the company.

Two brothers named Simon and Thomas Smith living in the vicinity of Linglestown were fined \$12.50 apiece by Alderman G. W. Hovetter to-day for violating a diphtheria quarantine. ESLER IS DROPPED FOR PITTSBURGER

Chief of Document Distribution Replaced by Brotherhood Man

Mr. James M. Esler, of Tarentum, chief of the division of distribution of public documents since the establishment of the office and organizer of its system, will be replaced by Robert H. Hendrickson, of Pittsburgh, overseer of heating and ventilation of the Senate chamber, on October 15. Announcement of the change was made to-day by A. Nevin Pomeroy, superintendent of public printing and binding, of whose department the division is a branch. The appointment was made with the consent and approval of the Governor.

The news of the change created considerable stir at the Capitol, as Mr. Esler, who was a former member of the House and former postmaster of the Senate, was a personal friend of John K. Tener, former Governor, and George E. Aker, former speaker of the House. No reason for the change was given by anyone, but Mr. Esler stated that he would be glad to give Mr. Hendrickson the benefit of his knowledge of the office.

Hendrickson is a railroad brotherhood man and was backed by Senator W. J. Burke, of Pittsburgh. He was elected Governor at the time of the recent primary election. The position pays \$2,400 a year and the division distributes all of the State publications. The office was created in 1913 and Dr. Esler was placed in charge, organizing the work. He has been highly complimented for the efficiency with which the service has been handled. In view of this fact his dismissal was a great surprise at the Capitol.

WOMEN! HERE IS A MONEY SAVER

Use gasoline to dry clean families clothes and save \$5

Dry cleaning at home is just as simple as laundering. Any woman can clean five dollars' worth in fifteen minutes at little cost by getting from the drug store two ounces of solvite and put this in two gallons of gasoline, where it quickly dissolves. Then immerse articles to be cleaned; rub a little and in a few moments the gasoline evaporates and the articles look bright and fresh as new.

You can dry clean silk waists, dresses, coats, ribbons, kid gloves, satin shoes, evening slippers, shawls, belts, yokes, furs, boas, muffs, neckties, lawns, dimity and chiffon dresses, draperies, fine laces, lace curtains, woolen garments, in fact, any and everything that would be ruined by soap and water as dry cleaning doesn't fade, shrink or wrinkle, making pressing unnecessary.

Your grocer or any garage will supply the gasoline and you can obtain two ounces of solvite at the drug store, which is simply a gasoline soap. Then a wash boiler or large dishpan completes your dry cleaning outfit.
