sumers pinned their hopes upon the state investigation, which is to begin before a referee here to-morrow.

Some indication of a possible settlement also was seen in an offer by one of the big distributors to give the farmers an advance of 35 cents per 100 pounds over the prices heretofore prevailing. The Dairymen's League insists upon an advance of 45 cents a hundred pounds. It was rumored that one of the distributors had decided to withdraw from the conference over the price and to make a separate peace with the producers.

Masked Riders Dump Milk
There is a shortage of about one-haif in the city's daily supply and it is stated that one of the big distributors is receiving only about one-third the normal quantity of milk. Dealers asserted there was no danger of a famine. Representatives of the Dairymen's League said the city supply was shorter to-day than ever.

From up-state counties and New Jersey came, news of more rioting and raids by farmers upon the milk, statens or milk wagons. Masked nightiders again held up and dumped milk in transport to railroad stations. The farmers said hundreds of new members were joining the league and that their position was stronger than ever.

JERSEY CITY GETTING HALF JERSEY CITY GETTING HAIF
Jersey City, N. J., Oct. 5.—Only
about 50 per cent. of the normal supply of milk was received here to-day,
which was so distributed that children
and others in actual need were served
first. Police officers have made a houseto-house canvass to ascertain the number of children and sick persons depending upon milk.

burned itself out last night. The loss
was about \$250,000. Relief has been
sent to Mendon from adjoining cities
and towns.

BOSTON IS READY FOR WORLD SERIES

[Continued From First Page] Brooklyn Nationals on Saturday in de-fense of greater baseball honors, di-

vided forces. One group, headed by Captain Jack Barry, went to Worcester to oppose the Philadelphia Americans in a game arranged to assist a memorial fund for the old-time umpire, John H. Gaffney. Others of the team went again to Braves Field, where the local games will be played, for light practice. Manager Carrigan, who was with the latter group, said that "the boys are in good shape, except for Foster and Barry." Whether either or both would be able to take an active part in the series was still uncertain, he said.

ments, reporting a greater demand for newspaper representation than ever before, said to-day that applications had come from Canada. Cuba and Panama.

Fair weather will prevail on Sattractions of the opening game of the world's series here, in the opinion of John W. Smith, head of the local Weather Bureau.

"All indications to-day," he said, "are that conditions will be fair. Temperatures will be seasonable and winds moderate, from the west. The outlook could not be better."

Loonard to Pitch Opener

Close followers of the team, claiming no authority for their statement, predicted to-day that Carrigan himself would catch the opening game, with Leonard as the pitcher.

The available reservations were oversubscribed so greatly that many persons who asked for a modest pair of seals were allowed but one, while others asking six and eight in some instances obtained only a pair. To receive their tickets, applicants besieged the club box offices to-day and with the announcement of last night that reservations were not specific, but applied only to the number of seats allowed, with early comers getting preference of location, the grandstand ticket lines resembled a bleacher rush.
