

TEMPLAR FIELD DAY AT LEBANON

Harrisburg Knights Take a Prominent Part in Big Event

The third annual Field Day, Division No. 10, Knights Templar, was held this afternoon on the Fair grounds at Lebanon. Participating were members of St. John's Commandery No. 8, Carlisle; Pilgrim Commandery No. 11, Harrisburg; and Hermit Commandery No. 24, Lebanon. Eminent Sir Arthur D. Bacon of Pilgrim Commandery is commander of the division.

Members of the Knights Templar from Harrisburg with St. John's Commandery of Carlisle left for Lebanon at noon. With the local Knights are the following officers: Eminent Sir Clyde P. Love, commander; Sir Francis C. Neely, generalissimo; Sir Luther A. Walker, captain general; Eminent Sir Howard Rutherford, treasurer; and Eminent Sir N. Frank Matter, recorder.

The program opened with a parade at 2:30 o'clock. Music for Pilgrim Commandery was furnished by Tyrell's band of Lebanon. The exercises at the Fair grounds at 3:30 included the following:

Formation of square, flag raising, singing, "Star Spangled Banner," by entire division; prayer, review, inspection, dress parade, formation of cross, lowering of flag, singing, "My Country 'Tis of Thee"; benediction.

Supper will be served the visiting Knights at 6 o'clock, and at 8 p. m. a reception will be given to grand lodge officers including the following:

Right Eminent Sir Andrew G. Williams, of Butler, grand commander of Pennsylvania; Right Eminent Sir Harry E. Buckingham, of York, a past grand commander; Eminent Sir Frederick A. Godcharles, deputy secretary of the Commonwealth, and Eminent Sir Robert G. Cunningham, past commander of St. Alban's Commandery, Philadelphia.

STAGE IS SET FOR CLASSIC OPENING

night. It was called early for the purpose apparently of working out signals and strategy to be tested in a practice game this afternoon. The Brooklyn team made no effort to hasten its movement on the scene of the series curtain raising and did not plan to arrive here until late in the day. Through its series with the Boston Nationals the team had gained a good working knowledge of conditions at the Braves Field, which Manager Robinson thought sufficient preparation for the test.

Fine Weather Promised
The weather man contributed his part to the arrangements with assurances of fine weather to-morrow. While it was warm to-day there was a promise of slightly lower temperatures for the game and with no early indications of rain.

The attendance at the first game will be the largest in the history of baseball, according to President J. J. Lannin, of the Boston Americans. After working through the night again to facilitate distribution of reserved seat tickets, Lannin said the interest in the series this year as indicated in many ways was greater by far than last year when a record crowd of 42,000 saw the first game played in this city.

First Come, First Served
The height of this interest was shown by early morning crowds at Fenway Park, small in number, but eager to obtain preference in the purchase of grandstand seats. The new system by which successful applicants were forced to fall in with a policy of "first come, first served" at the ticket lines, instead of having certain tickets held to their order, caused some confusion yesterday and was responsible for the early lines to-day. Prospective speculators were under surveillance of police officers and plainclothes men who had orders to arrest any persons trading in tickets.

The time for exercising purchase privileges on reservations expires at 6 o'clock to-night after which uncalled for tickets will be put together and prepared for a rush line sale to-morrow morning. This will be the only opportunity for persons not successful applicants by mail to obtain such seats except by private transactions at increased prices.

As far as could be learned to-day, disposition of tickets for the games here has as yet developed no incident requiring the attention of the National Commission. Members of this board met here late to-day at which plans for the series as already made were to be approved.

Whether the commission would consider the action of Manager McGraw of the New York Nationals in quitting his team a few days ago with statements that his players did not follow instructions in the game which Brooklyn won, could not be learned. The only member of the commission here this afternoon was August Herrmann, who would say nothing on this subject.

"Submarine" High and Dry After Peculiar Antics

Monroe, Wis. — Laboring under the hallucination that he was a commerce submarine, Richard Lewis was picked up by officials and is being kept under guard until a test of his sanity can be made.

Sprawled on the lawn in front of his home, Lewis was throwing his arms and kicking his feet, unmindful of a torrential rain which was falling. In response to questioning by officials he declared he was the submarine Deutschland and was being chased by an English battleship during a trip across the Atlantic ocean.

201 MEMBERS OF FAMILY HAVE SERVED IN U. S. ARMY

Portland, Ore., Oct. 4. — Mrs. E. H. Merryman watched the enlistment of her fifth son to enter the United States Army. He is Joseph B. Merryman, 19 years old. He is the 291st member of Mrs. Merryman's family to join the army since the Revolutionary War.

Two of my sons are already in the army," said Mrs. Merryman. "Others have served their terms of enlistment and been honorably discharged as sergeants. When the two still in the army attain the rank of sergeants they will be ready for civil life again. Joseph also will serve until he becomes a sergeant."

Of the 291 members of her family who have enlisted, one was killed and five were wounded in battle. Some of the number have served in every war in which the nation has engaged.

READING'S NEW CARS

With the exception of 800 coal cars, all of the new rolling equipment ordered by the Reading has been received here. This includes the box and gondola cars. The order was for 3,000 steel coal cars, 1,000 boxcars and 500 gondolas. The new steel coal cars are all of the 100,000 pound capacity and were purchased to take the place of the wooden cars of lighter capacity. In addition to the above equipment the company ordered thirty steel passenger coaches, fourteen of which have been received. Four mail cars are being built at the Reading shop, several of which are about finished.
