

THREE MINISTERS LOSE LICENSES

20 Changes in Ministerial Appointments; Big Membership Increase

Three ministers, who have not been serving as pastors for several months, had their licenses revoked by the East Pennsylvania Eldership of the Church of God, in session in the Maclay Street Church.

The action followed a lengthy discussion in a closed conference which lasted during both morning and afternoon meetings yesterday.

The morning session to-day was devoted to educational discussions. The Rev. Dr. W. H. Guyer, president of Findlay College, Ohio, told of the work being done there and appealed to the Eldership to raise a special fund.

Church extension work is to be considered on Monday and ordination services will be held in the evening. The following ministers are to be licensed: W. N. Wright, Duncannon; W. S. Clouck, New York; S. A. Apple, Walnut Grove. To-night will be missionary night and the speakers will be the Rev. C. F. Reitzel, of Altoona, and J. B. Martin, of Middletown.

The report of the statistical secretary, the Rev. W. H. Guyer, of York, showed an increase of 900 in membership in churches of the Eldership; and an increase of 1200 in Sunday school enrollment.

Two Girls Cross Continent On Indian Motorcycle

Adeline and Augusta Van Buren, sisters of New York City, have successfully completed the most daring and difficult riding feat ever attempted by two young ladies. They started on their journey July 4 and arrived at San Francisco in two months.

Hazardous as most of the gentler sex would consider the sport of motorcycling, at any distance, under the most favorable of riding conditions, the ambitious program which they laid out for themselves was carried out to the letter. Speculation was rife as to whether or not they would ever reach their destination.

However, the Van Burens came through with flying colors. Impossible roads, unseasonable weather and difficulties in untold number and magnitude were encountered at every turn.

Incidents in Colorado made riding conditions the worst imaginable, and those terrific days were followed by an equally arduous ride under the Great American Desert in Western Utah. The stamina of both the riders and their machines was tested to the full, but the terrific strain was endured and the performance will undoubtedly stand long as an unassailable record.

Both girls speak highly of the excellent service given them by their motorcycles, which they purchased expressly for this trip. Absolutely no mechanical trouble was experienced during the entire journey, and the ease of control, together with the range of power and speed, exceeded the hopes to establish this wonderful record.

The young ladies returned to New York by train, where Miss Adeline resumes her position in the public schools of New York and Miss Augusta to return to her position in the stenographic department of a large New York business establishment.

The Van Buren girls are direct descendants of President Van Buren.

Governor Brumbaugh Joins Commerce Chamber

The following note from Governor Brumbaugh was received by the Harrisburg Chamber of Commerce together with the Governor's application for membership in the Chamber:

"I am glad that a happy day when I can join my fellows in promoting the substantial welfare of Harrisburg. May great success attend the great enterprise which you are undertaking. President J. William Bowman of the Harrisburg Chamber of Commerce, has sent the following reply to the Governor.

"Your note of October 6 advising us that you had personally joined in promoting the welfare of Harrisburg through becoming a member of this association was very pleasant reading indeed. Your affiliation will serve to encourage and inspire all of our membership.

"I take pleasure in pledging the hearty and constant co-operation of the Chamber of Commerce, with its membership of 830 individuals and firms, to you, the other officers of the association, and to the Chamber of Commerce. A civic department has been created in the Chamber and you will be working with your associates in doing everything possible to give the people of the Commonwealth a proper setting for the capitol building."

Central High Stands High In Scholastic Circles

Central high school as an institution of high standard is given the highest of commendation in the United States Government bulletin, covering accredited secondary schools in the United States. In every list covering this section, Central high school is mentioned, and is the only school in Pennsylvania on the accredited list of the University of Chicago.

An important feature in the high classification of Central high school is that every graduate who wished to enter college this year could be certified to the institution of his choice if that institution accepted anybody on certificate.

Vernon Widder, Valedictorian 1916 class, entered Harvard by examination, without condition. Seventy members of the class of 1916 at the Central high school have entered higher institutions of learning as follows:

Harvard, 1; Princeton, 1; Pennsylvania State University, 1; Syracuse, 1; Lafayette, 1; Lehigh, 3; Penn State, 6; Franklin and Marshall, 1; Gettysburg, 2; Dickinson, 11; Lehigh, 2; Ohio Wesleyan, 2; Swarthmore, 2; Howard, 2; Teachers' College (Columbia), 1; Bryn Mawr, 1; National School of Domestic Arts, 1; Philadelphia College of Pharmacy, 1; Drexel, 1; Millersville Normal, 2; West Chester Normal, 4; Shippensburg Normal, 5; Harrisburg Teachers' Training, 15.

Agricultural Lectures Will Be Given Here

So that they may be of greater service to the farmers of America with whom they come in daily contact, the salesmen blockmen and agents of the International Harvester Company in the United States will study improved farming methods at movable agricultural schools, conducted during the Fall and winter months according to the parts of the country. These schools will hold a two days' session in this city at 813 Market street, salesmen from many other places being present. The sessions here will open Monday with the public invited during the day and evening. Tuesday and Wednesday employees only will be admitted.

The enlarged gasoline tank with a capacity of twenty-five gallons, the distinctive improvements which adds materially to the appearance of the new Indian motorcycle.

A great improvement in the gear shifting arrangements in which the shifting lever operates directly, pivoting in black ash wood, which eliminates considerable lost motion, and makes the action easy, quick and positive.

The change in the 1917 Indian which will doubtless attract the most attention is the departure in finish of the two colors will be offered. The conventional Indian of this year with the addition of a wide, gold stripe with gold which adorns all flat surfaces, and a new, more noticeable improvement in the appearance of the Indian, lending a dignity and grace to the lines of the machine which the plain red could not impart.

With its new features, its Powerpilot motor, and new dress-up, the 1917 Indian will undoubtedly prove one of the most popular models of the new season.

Washington, Oct. 7.—The State Department's view of reports that Ambassador Gerard is returning to the United States from Germany prepared to seek mediation in the war on behalf of Emperor William, was expressed to-day in this official announcement: "We have no reason to believe there is anything in it, and every reason to believe there is nothing in it."

Washington Has Every Reason to Believe There Is Nothing in Peace Overtures

Department officials refused to discuss the report further except to recall that when Mr. Gerard went to Copenhagen from Berlin he expected to say good-bye to his wife who was far from certain that he would be able to leave Europe at that time. It was pointed out that if Mr. Gerard had had any peace overtures from the Emperor there would have been no such uncertainty in his mind about coming home.
