Atlantic City, N. J., Oct. 11.—In a report submitted to-day to the convention of the American Electric Railway Association, in session here, a special investigating committee strongly recommended compulsory life, health and accident insurance for all American wage-earners. The committee, which consists of E. W. Rice, Jr., president of the General Electric Company; H. G. Bradlee, a Boston banker, and James D. Mortimer, president of a New York bank, has undertaken to cover the same graund as that studied by the Federal Industrial Relations Commission and to investigate the economic status of the wage-earner and his relations with the employer. The report submitted to-day was confined to insurance for wage-earners. One of the conclusions reached by the committee was that the compulsory social insurance system of Germany is the only one that provides reasonably adequate protection for all workers. "Voluntary insurance systems have failed to carry life insurance protection generally into the lower wage levels, where it is most needed," said the report. "In the absence of compulsory regulations the American workman will go without life insur-	mass of left-over waste, toxins and ptomain-like poisons are formed and sucked into the blood. Men and women who can't get feeling right must begin to take inside baths. Before eating breakfast each morning drink a glass of real hot water with a teaspoonful of limestone phosphate in it to wash out of the thirty feet of bowels the previous day's accumulation of poisons and toxins and to keep the entire alimentary canal clean, pure and fresh. Those who are subject to sick head-ache, colds, billousness, constipation, others who wake up with bad taste, foul breath, backache, rheumatic stiffness, or have a sour gassy stomach after meals, are urged to get a quarter pound of limestone phosphate from the drug store, and begin practicing internal sanitation. This will cost very little, but is sufficient to make anyone an enthusiast on the subject. Remember inside bathing is more mortant than outside bathing, because the skin pores do not absorb impurities into the blood, causing poor health, while the bowel pores do lust as soap and hot water cleanses, sweetens and freshens the skin, so hot water and limestone phosphate act on the stomach, liver, kidneys and bowels.—Advertisement.

want to do."

"Why not?"

Couldn't Sweep "Front Steps"

"Because," suddenly declared the park confinissioner, "the mill rate should never have been made nine and a half mills—it should have been ten."

Lack of mercy, of course, was given by Mr. Gross as the reason for the department's failure to even keep the River Front granolithic walk free of the peebles and fine dust and clay which was washed down the steps from time to time.

Couldn't you have sluiced the steps and walk with water from a fire plug?" he was asked.

"But who is there to do it?" he returned. "We haven't any money to pay the men to do these things."

CHILDREN LOVE SYRUP OF FIGS

Look at tongue! If feverish, bilious, constipated, take no chances.

'California Syrup of Figs" can't harm tender stomach, liver, bowels.

Don't scold your fretful, peevish child. See if tongue is coated; this is a sure sign its little stomach, liver and bowels are clorged with sour waste.

When listless, pale, feverish, full of cold, breath bad, throat sore, doesn't eat, sleep or act naturally, has stomach ache, indigestion, diarrhoea, give a teaspoonful of "California Syrup of Figs," and in a few hours all the foul waste, the sour bile and fermenting food passes out of the bowels and you have a well and playful child again. Children love this harmless "fruit laxative," and mothers can rest easy after giving it, because it never falls to make their little "insides" clean and sweet.

**Keep it handy, Mother! A little given to-day saves a sick child tonorrow, but get the genuine. Ask your druggist for a 50-cent bottle of "California Fig Syrup of Figs," which has directions for bables, children of all ages and for grown-ups plainly on the bottle. Remember there are counterfeits sold here, so surely look and see that —makes Pape's Diapepsin the mentorm on strike as the motormen were under contract to continue at work and were and the world.

**Seven Men Are Taken Off

Waterlogged Steamer at Sea

New York, Oct. 11.—News was responded to be there by wireless to-day of the rescue of seven men believed to be steamed to be the sound that the world. If what you cat ferments into stubborn lumps, you belch gas and eructate sour, undigested food and acid; head is dizzy and aches; breath foul; tongue coated; your insides filled with bile and indigestible waste, responding the world. It would be the world in the world. Threaten to Tie Up Tubes

Threaten to Tie Up Tubes Under Hudson With Strike

New York, Oct. 11. — About 300 conductors, guards and gatemen employed by the Hudson and Manhattan Railroad which operates the tubes under the Hudson river between Manhattan and railroad stations in Jersey City, Newark and Hoboken, N. J. decided early to-day to postpone until 4 p. m. to-day a contemplated strike. The postponement followed a virtually unanimous vote to strike because the company had dismissed 32 men for joining a union. W. C. Fisk, president of the company, said the tube trains would not be tied up even if the men went on strike as the motormen were under contract to continue at work and were satisfied.

IGNORANCE IS **HEALTH DANGER**

Commissioner Dixon Points Out the Way in Which Boasting Causes Harm

State Commissioner of Health Dixon in one of his statements on health and sanitation calls attention to the

and sanitation calls attention to the manner in which the ignorant boaster often causes much harm. The commissioner remarks that there is always grave danger in not taking precautions, but says that the man who says he will not do a thing because his father did not is a danger.

Dr. Dixon says:

"The boastfulness of ignorance is ordinarily not worthy of comment, but when it jeopardizes the health of other people it is perhaps worth while to take up the cudgels.

"There is a class of individuals who poh hoo all warnings regarding matters of hygiene and usually end their assertions by informing you that their grandfathers never paid any attention to 'such nonsense' and, what's more, they never have, and here they are allvo and well to show for it. Statistics, however, show that these people who violate the laws of Nature often meet an untimely death. Unfortunately, some give an ear to such foolish boasting and run headlong into danger.

nately, some give an ear to such foolish boasting and run headlong into danger.

"The transmission of disease by germs is most frequently attacked by the ignorant. Those people who accept without comment the statement that the world revolves upon its axis as a part of the solar system and thousands of other things which they are incompetent to work out for themselves will bluster about the absurdity of germs causing disease. That typhold fever, diphtheria, yellow fever, tuberculosis, anthrax, malaria and pneumonia are caused by germs has been proved just as definitely as the fact that the world is round.

"Fortunately, exposure to disease, even of a communicable type, does not always mean that the individual so exposed will contract it. This is the reason that the boaster

REMEDY FOR NEURASTHENIA

REMEDY FOR NEURASTHENIA

Neurasthenia is a condition of exhaustion of the nervous system. The causes are varied. Continuous work, mental or physical, without proper vacation periods, without proper attention to diet and exercise, also worry over the struggle for success, are the most common causes. Excesses of almost any kind may produce it. Some diseases, like the grip, will cause neurasthenia. So also will a severe shock, intense anxiety or grief.

The symptoms are oversensitiveness, irritability, a disposition to worry over trifles, headache, possibly nausea.

The treatment is one of nutrition of the nerve cells, requiring a non-alceholic tonic. As the nerves get their nourishment from the blood the treatment must be directed towards building up the blood. Dr. Williams' Phik Pills act directly on the blood and have proved of the greatest benefit in many cases of neurasthenia. A tendency to anemia, or bloodlessness, shown by most neurasthenie patients, is also corrected by these tonic pills.

Two useful books "Diseases of the Nervous System" and "What to Eat and How to Eat" will be sent free by the Dr. Williams' Pink Pills.

SAYS BODY IS A

Urges everyone to drink glass of hot water before breakfast

Just as coal, when it burns, leaves behind a certain amount of incombustible material in the form of ashes so the food and drink taken day after day leaves in the alimentary canal a certain amount of indigestible ma terial, which if not completely elimin ated from the system each day, be-comes food for the millions of bacteria which infest the bowels. From this mass of left-over waste, toxins and ptomain-like poisons are formed and sucked into the blood.

International Newspaper Window Display Week

Newspaper Window Display Week

an Appeal to Civic Pride

RETAILERS in some 400 other cities in North America will on Monday next join with our own storekeepers in

celebrating International Newspaper Window Display Week. In asking the merchants of this city to co-operate in a big, generous way, we not only appeal to their self-interest but to their civic pride.

We want displays in our city to be among the best in all North America. We want the photographs which we will take of local show windows to be worthy of national circulation among manufacturers.

We again urge every merchant to co-operate. It means better business for all of us and a strong appeal to public in-The plan is simple. Get out goods in your stock which

have been advertised in the newspapers by the manufacturers and put them in your windows. Have them there on Monday next together with a sign furnished by this newspaper-a sign which reads:

> INTERNATIONAL NEWSPAPER WINDOW DISPLAY WEEK We Sell These Standard Products

All Advertised in the DAILY NEWSPAPERS
