Mother-Made, Quick Acting Cough Syrup. Should be Kept Handy in Every Home—Easily Prepared and Costs Little.

Mother, you'll never know what you are missing until you make up this inexpensive, quick-acting cough syrup and try it.

This splendid cough syrup is made by pouring 2 1/2 ounces of Pinex (60 cents worth) into a pint bottle and filling the bottle with plain granulated sugar syrup.

The moment it touches the inflamed, cold-congested membranes that line the throat and air passages, the healing begins.

A Practically Perfect Preparation.

YEARS of experience have enabled Mr. Fletcher to make Castoria a practically perfect preparation. These years of labor: the amount of money required to introduce its merits to the public: the investment in its manufacture, including the most modern machinery, mean a vast amount of invested capital.

Herein lies the guarantee of the absolute safety in the use of Fletcher's Castoria for the baby, and the warning against irresponsible makers of imitations and counterfeits.

Children Cry For Fletcher's CASTORIA

Extracts from Letters by Grateful Parents to Chas. H. Fletcher.

Mrs. John W. Derrick, of Lexington, S. C., says: "My children cry for Castoria, I could not do without it."

Mr. and Mrs. J. A. Gaines, of Ripley, Tenn., say: "We enclose our baby's picture hoping it will induce some poor tired mothers to give your Castoria a trial. We have used it since baby was two weeks old."

Mrs. J. G. Parman, of Nashville, Tenn., says: "The perfect health of my baby is due to your Castoria—the first and only medicine he has taken. He is never satisfied with one dose, he always cries for more."

Mr. and Mrs. A. L. Johnson, of Stevens Point, Wis., say: "When our baby was two weeks old he cried so much we did everything for him, then got some Castoria and he is now strong and fat. We would not be without it, and are very thankful to you."
