The Telephone Making A "Greater Harrisburg" for The Million Dollar Hotel

By proclamation Mayor Ezra S. Meals has officially designated Friday, October 13, as "Greater Harrisburg Day."

The Cumberland Valley Telephone Company is proud to recall to your mind that it is doing its share to make a "Greater Harrisburg" by replacing its old-fashioned manual system with the up-to-the-minute AUTOMATIC TELEPHONE.

Just a Few Reasons Why

Careful investigation has proved the AUTOMATIC TELEPHONE to be far superior to the old-fashioned type.

- It gives much quicker service.
- It is direct.
- You do not have to depend upon an operator to get your party.
- It abolishes the "wrong number" nuisance.
- It is absolutely secret.
- It gives instant service constantly.
- Rush hours do not slow up your service.
- Increases in the number of telephones on the exchange do not result in quality depreciation.
- The number you call rings, and rings at regular intervals of a few seconds, until you get your party.
- To learn other striking evidences of its superiority drop into the AUTOMATIC exhibit to-day.

GREECE FORCED TO GIVE UP FLEET

[Continued From First Page]

for naval operations and of railroad, mail and telegraph service so as to render impossible its use to the detriment of the entente forces is reported to have been included in the demand. Vice Admiral Dartige du Fournet, Commander-in-Chief of the entente allied fleet in the Mediterranean made the demands as follows:

The Lemnos, Kilkis and Averoff, the three best ships of the Greek navy, must be disarmed and virtually put out of commission.

Every other Greek warship must be surrendered to the entente together with the two forts commanding the regular anchorage of the allies' warships.

The other Greek seacoast fortifications must be dismantled. The Piraeus-Larissa railway must be placed under complete control of the allies.

These features apparently are already in effect, since the dispatches says the Greek Minister of Marine promptly announced that he would comply, and would surrender all ships even before the time allowed him had expired.

The Lemnos and Kilkis were formerly the United States battleships Idaho and Mississippi. They were built in 1909, are of 12,500 tons, and mount four 12-inch and eight 8-inch guns. The Averoff is an armored cruiser of 10,000 tons, built in 1910, carrying four 9.2-inch and eight 7.5-inch guns.

These three ships, comprising nearly the entire effective fighting force of the Greek navy, are to be retained on condition that they be disarmed and their crews reduced to one-third the regular complement. The ships to be turned over comprise three old 5,000-ton battleships, the Spetsia, Hydra and Psara, about a dozen small cruisers and gunboats and a score of torpedo craft.

The Piraeus-Larissa railway is the most important in Greece, running from Greece's principal seaport to the largest town of Thessaly, and connecting with the Saloniki-Monastir line.

General Cadorna's reported success in the Austrian line at several points southeast of Gorizia in the sudden renewal of the Italian drive toward Trieste is declared by entente correspondents at the front to have been effected in the face of strengthened Austrian lines to which fresh troops recently were sent.

Vienna, in its latest statement, claims that the Italians have been driven out of many trenches they had penetrated and that fighting is being continued for possession of others. The Austrians took 1,400 men of the attacking force. Rome has reported the capture of more than 5,000 prisoners in the course of the advance.

A lull again seems to have set in along the Somme front in Northern France following the heavy fighting of the last day or two. London reports that no incidents of moment occurred last night.

German Losses 3,556,018 in War, Official Lists Show

London, Oct. 12.—German casualties from the beginning of the war to the end of September were 3,556,018, according to all official British compilations given out here. The statement says:

"A report compiled from German official casualty lists shows the total German casualties in September as 179,884, bringing up the totals since the war from the same source to 3,556,018."

The full text of the statement issued by the British official press bureau follows:

"German casualties, exclusive of corrections, reported in the month of September in German official casualty lists were:
"Dead, 32,282.
"Prisoners and missing, 32,259.
"Wounded, 115,343."
"These, added to those reported in previous months, including the total since the war, are:
"Dead, 870,182.
"Prisoners and missing, 428,829.
"Wounded, 2,257,007."
"The figures included all the German nationalities—Prussians, Bavarians, Saxons and Wurttembergers. They merely represent the casualties announced in the German official lists. Also that the casualties in September reported during the month of September, and not reported as having been incurred in September."

Bavarian Troops Sweep Into Rumania; See Little Hope of Saving Nation

London, Oct. 12.—General von Falkenhayn has begun the invasion of Rumania, according to an Overseas News Agency dispatch received here. The Bavarian troops, which seized Red Tower Pass, following the battle of Hermannstadt, have swept forward to the south and are at the Rumanian border, the report says.

Color is given to this semi-official announcement by the official statements from Berlin, Vienna and Sofia, which report the advance of Von Falkenhayn's troops at nearly every point on the Transylvania front. The defeated Second Rumanian Army is declared to be in full flight in the mountain region of Southeastern Transylvania. In the Georgeny, Alt, Maros and Buxen river valleys the German and Austrian troops are continuing their forward sweep. Bucharest admits the retirement of Rumanian forces in three of these districts, claiming progress only in the Jul Valley.

Rumania's situation is critical. Observers here are unanimously of this opinion. Some see little hope for her, others believe she will pull out all right with the aid of the Russians. The opinion of the majority of military men is expressed by the observer of the Manchester Guardian, who declares in unequivocal terms that without reinforcements from Russia King Ferdinand's troops have little hope of turning back the Teuton hordes. This critic condemns Rumania for attempting the Transylvania campaign.

"Falkenhayn's campaign," he says, "bears witness to the fact that in arranging her plans Rumania made the mistake of thinking the Russians were on the point of breaking through the Carpathian defenses. On any supposition, her invasion of Transylvania is wholly indefensible."

Six months ago, he agrees, Von Hindenburg planned to launch his mightiest blow east and southward from Kovel and southeast from Lemberg. The Rumanian invasion of Transylvania changed the German plans and brought down upon King Ferdinand's armies the attack which the Russians might far better have met.

While the battles unfolding adversely for the Allies in Transylvania, in Macedonia their successes are daily increasing in importance. General Sarraill's forces have smashed forward on the Struma region to their greatest success, crossing the important Seres-Demire-Nissar railroad and seizing the villages of Prosenik and Papanova. This move threatens to cut off Seres at any moment and may end in the conquering by the British of all Eastern Macedonia.

In the Doiran sector, in the center of the Balkans, the British are pushing forward on the heights along the border near Devedjili and captured the enemy's advanced trenches. On the left wing the Bulgars, heavily reinforced, are stubbornly resisting the Serbs' advance against Monastir.

DOVE HAS U-53 BAND

Edgewater, N. J., Oct. 12.—The police are holding prisoner a white dove with a band of yellow metal on its leg bearing the inscription "U 53," the number of the German submarine which made its memorable raid on Nantucket last Sunday. The dove fluttered into the window of a business office here yesterday. Its captors do not know whence it came.

FATHER JOHN'S MEDICINE KEEPS ALL MY FAMILY WELL AND STRONG

Vigorous Letter Praising Father John's Medicine by New York Mother

"Father John's Medicine is the only medicine I rely on when my boy has a bad cold or is feeling weak and run down," says Mrs. John Kelly, of 5 West 101st street, New York city. "I have known the value of the medicine for five years and hope this word of praise may urge others to try it. I have taken it myself and it has done me a lot of good." (Signed) Mrs. John Kelly, 5 West 101st street, New York city.

Many families keep Father John's Medicine on hand constantly in case of emergency, because they know that as a tonic and body builder it has more than fifty years of success. It is a safe family medicine because it does not contain alcohol or dangerous drugs in any form but is all pure and wholesome nourishment for those who are weak and run down. It gives them strength to ward off disease.
