LITTLE GIRLS SEE MOTHER MURDERED

VICTIM OF SCORNED ADMIRER AND CHILDREN WHO SAW HER MURDERED

The two little daughters of Mrs. Mervin Light, Helen and Josephine, aged 6 and 8, were with their mother when she was shot down in cold blood by the would-be lover whom she spurned. The little girls told the police James Y. Hipple, who shot their mother and then put a bullet into his own brain also threatened to shoot them.

TRIPPLE COLLISION IN FRONT STREET

Car Hits Automobile and Throws It Against Wagon at Heller's Store

A triple collision resulted from an automobile trying to pass a street car near Charles Heller's business establishment in Front street last evening shortly before 6 o'clock.

An automobile owned by D. L. M. Raker, manager of the School of Commerce, Harrisburg, was running towards Harrisburg in front of Steelton car No. 703. The driver of the car made efforts to pass an automobile and team standing in front of the Heller store. The car struck the automobile. The force of the collision threw the car into a wagon owned by Heller. The horse which was hitched to the wagon was thrown on the sidewalk and seriously injured. The wagon and automobile were badly damaged.

Witnesses say that the car did not slow down when the automobile was passing through this narrow space. Contents of the wagon were strewn about the sidewalk. The damage done to the automobile and wagon of Heller amounts to about \$50.

Report Bethlehem Steel Has \$20,000,000 Order

Wilmington, Del., Oct. 13. — The New Castle projectile plant of the Bethlehem Steel Company is taking on many additional workmen, and the unofficial announcement is made that the company has obtained a contract to furnish 4,000,000 small shells for Russia, the contract price said to be \$20,000,000. The company also has a contract to furnish a large number of mammoth shells to the Argentine Republic.

quarrelling. Hipple, it is alleged, made a remark to Mrs. Light, which she did not answer. He then pulled a revolver from his coat pocket and shot Mrs. Light in the breast. When she fell to the ground he sent another bullet through her temple. The shooting attracted scores of people.

Neighbors to-day said that Mrs. Light had been doing Hipple's washing. Every Monday morning he brought his clothes to the Light home and when washed Mrs. Light returned them to the hotel.

She Refuses to See Him. — Monday morning Hipple brought his washing to the Light residence. He was intoxicated, it is said, and Mrs. Hipple refused to see him. He later returned, disguised as an agent, and attired in different clothes. Mrs. Light, it is alleged, put Hipple's clothes through the window and booted the door. When Mrs. Light refused to open the door, after many threats, Hipple threw himself against a pane and broke it open. The Light woman left the house through a window. Hipple left without any further disturbance. Neighbors say that Mrs. Light never told her husband nor borough authorities of Hipple's attentions, fearing there would be gossip. She is credited with being a fine neighbor and was highly respected in the community.

Standing at her mother's bedside this morning, Helen, the little daughter of a former proprietor, threatened to shoot "me and sister." Mrs. Light, late last night was removed to the home of her mother, Mrs. David Brandt, Witherspoon avenue. She is still unconscious. Physicians state she will live but a short time.

The husband of Mrs. Light is well known in Harrisburg. He is a son of a former proprietor, William L. Light, of the Hotel Sayford, 1302 North Third street.

Funeral services for Hipple will be held Monday afternoon. Burial will be made at Middletown.

Deny All Ships Bound For England Will Be Sunk

[Continued From First Page]

The Hague, Oct. 13. — The special correspondent in Berlin of the Neuvre Rotterdamse Curant telegraphs the following: "It has been authorized by competent naval authorities to say that the submarine commander cannot have made a statement to the captain of the Bloembergen that all ships which had to touch at British ports would be sunk." A Rotterdam dispatch on October 10 quoted from a report to the Holand-American line owners of the steamer Bloembergen, which was sunk off the New England coast during the German submarine operations of last Sunday, that the submarine's commander "informed the Bloembergen's captain that the world sink any ship bound by way of an English port."

Sight Submarine of Unidentified Nationality East of New York

[Continued From First Page]

Boston, Mass., Oct. 13. — A submarine of unidentified nationality was reported about 200 miles east of New York by the steamer Bovic in a wireless message to-day. The course of the submarine was not stated. The Bovic, which is due in New York to-day or to-morrow from Manchester, England, reported sighting the submarine in latitude 40.17 north, longitude 68.77 west. It was added that the submarine was "astern," but whether pursuing the Bovic or keeping an opposite course was not stated. The figures of the longitude as received are not correct, the degree given being wrong, but it was stated that the error probably was one of only a few degrees. The Bovic is a British freight steamer owned by the White Star Line and sailed from Manchester September 30. Her commander, who probably made the report that a submarine had been sighted, is Captain Summers. New England coast to investigate reports that belligerent ships had established a base there or that wireless plants were being operated in violation of American neutrality. In announcing Admiral Mayo's action Secretary Daniels said to-day that

Several Destroyers Already Had Been Dispatched From Newport North and That the Work Would Be Done Under the Admiral's Direction and Without Instructions From Washington.

Naval officials here did not place much credence in the reports and characterized them as an outcome of the recent operations of the German submarine U-53 off Nantucket shoals. Numerous reports of the same character have been received by the department since the beginning of the war. Investigation was made in each instance, but was unproductive.

Dozen U. S. Destroyers Are Patrolling Highways Leading Into Sea Ports

[Continued From First Page]

New York, Oct. 13. — A dozen destroyers of the United States Navy are patrolling the ocean highways to and from North Atlantic ports to-day, but for what purposes is known only to naval authorities. It was reported that they went out to maintain the neutrality of American waters, but Rear Admiral Austin M. Knight, commander of the naval station at Narragansett Bay, is authority for the statement that no official action toward establishing such patrol had been taken. He said, however, that this would soon be done. The seaward dash of eleven destroyers from Newport yesterday aroused much speculation. At least one other United States destroyer is known to have been on guard outside New York since the German submarine raid off Nantucket last Sunday.

Attempt Is Made to Wreck Mr. Hughes' Train

BEST CAUSE FOR MARRIAGE LOVE

Dr. Hutchinson Says "Ma and Pa" Should Take Back Seats

Philadelphia, Oct. 13. — Scientists have been unable to discover a better cause for young persons getting married than love and "ma" and "pa" should keep "hands off," said Dr. Woods Hutchinson at the third annual meeting of the Child Federation at the Bellevue-Stratford.

"Eugenics," Dr. Hutchinson declared, "has not been able to usurp love. Despite the talk and the writings of scientists on mating, love still remains the principal reason why two young persons should get married. Love, in fact, will generally promote eugenics and result in proper marriages."

Dr. Hutchinson said that it was perfectly natural for young persons to desire marriage with the best-looking, the most pleasing and most fascinating of the opposite sex, and that it was doubtful if eugenics could set down better rules for mating.

Disease Will Go — "Children must have plenty of food and good food. Cheap food makes cheap men and women," said Dr. Hutchinson. "It is a wrong idea to think that the children of families where poverty exists are naturally born abnormal and that little, therefore, can be expected of them. Give them the chance and they develop the same as any other children. It must be remembered that genius and success have not been confined to the so-called upper class. Quite often the genius has been born in a hovel."
