Pleiges Ban on Lobbies
The promise made to American voters that he would "conduct the Government in the open" if elected President was repeated yesterday by Mr. Hughes in the course of his campaign in Michigan. He served notice that all who may represent sinister efforts to bring about legislation opposed to the best interests of the people would be dealt with without quarter. "I do not propose that any mysterious influence shall brood over the lobbies of the Capitol." he declared. "I propose that we shall have government in the open, in accordance with the principles of our institutions and that we put into effect the policies now needed to upbuild our prosperity and maintain our institutions. Mr. Hughes also took up the charges made by Democratic campaigners that a vote for him meant a vote for war.

"I grant you," he said, "that a vote for me does mean a vote for the maintenance of American rights; but it is a great fallacy to suppose that the maintenance of American rights involves a surrender of the ideals of peace, or a disregard of the vast improvement of peace."

A can made from a walnut rail split by Abraham Lincoln and given by him to D. S. Walbridge in 1856 was presented to Mr. Hughes at Kalamazoo by Dallas Boudoman, who presided. From this presentation Mr. Hughes drew a lesson for the American people, declaring that had Lincoln been guilty of the vacillation which he charges against the present administration there would have been no nation.
