Work at Reading Shops Is Rushed; Lack of Material **Causes Delays**

The Philadelphia and Reading failway Company expects to get the first of the last lot of 30 new freight locomotives to be built at Baldwin's the later part of this month. The de-lay in the delivery is due to the in-ability of the firm to get the mate-rial.

lay in the delivery is due to the in-nability of the firm to get the mate-rial. It is expected that the work of building the 10 new shifters at the Reading shops will be well under way by the end of the month. The machinery is now being assembled and the plates for the bollers will be delivered within the next 10 days. One of the new steel mail cars built at the Reading shop has been completed and will be ready for serv-ice in a short time. Another is nearly finisted. Need More Equipment The Reading is in need of equip-ment, freight business has taken a big jump and there is a scarcity of cars for coal business and general freight traffe. The new engines and cars are being rushed, but on account of shortage of material there has been frequent delays. Cars are being sent daily to the coal and cement districts. There is also more new passenger equip-ment near completion.

TRACK WALKER'S MILEAGE TRACK WALKER'S MILEAGE For 20 years Hicenger F. Shingle, of Parker Ford, a track walker em-ployed by the Schuylkill division of the Pennsylvania Railroad, has walked eight miles every day in the perform-ance of his duties. This is 56 miles a week and 2,920 each year or 58,400 for the 20 years. In his walks he has worn out an average of six pairs of shoes each year.

shoes each year. FRICK OUT OF READING Henry C. Frick has resigned as a director of the Reading Company, C. E. Dilkes, an employe of the com-pany, being elected in his place. Mr. Frick's retirement from the Reading board took financial circles by sur-prise. It was said to be due to the Clayton act as applying to interlock-ing directorates. Banking circles took Mr. Frick's resignation from the im-portant Reading board as indicating that the big financiers are not going to stand on ceremony in quitting posts which conflict with the Government's interpretation of the Clayton law. They now expect further changes in ratiroad boards. Only last week Mr. Frick retired from the directorates of the Philadelphia and Reading Rail-way Company and the Philadelphia and Reading Coal and Iron Company.

P. R. R. Supervisor Takes Foremen on Pleasure Trip

Foremen on Pleasure Trip Newport, Pa., Oct. 20. — William T. Hanly, supervisor of the Pennsyl-vania Railroad who at the recent in-spection of the officials and others, was awarded the \$600 prize, his as-sistant, B. M. Frymire, receiving \$200, left with his foremen as his guests this morning for Philadelphia. They later go to New York and from there to Poughkeepsie by boat, returning on unday. Mr. Hanly's guests are these men: George E. Kring, W. D. Boll-ger, W. M. English, J. I. Kerr, W. H. Zeiders, S. S. Kuhn, William Yohn, William Sitterly, A. L. Wright, E. S. Pee, S. I. Gamber, C. M. Gross, J. S. Keel, M. Klinedinst, A. K. Man-ning, S. K. Dean, C. D. Heisey, G. M. Crane, John Miller and J. F. Oren.
