Pretty Danish Girl Dies at Sea, Enroute to Wed

New York, Oct. 20. — Whoever was to marry Edith Jaikonen, 17 and very pretty, who sailed from her native Copenhagen home thirteen days ago on the Scandinavian-American liner United States, which docked here, will never do so.

She died on shipboard a week ago and was buried in a raging gray sea. It was known when she started that she was coming to America to be married.

DR. REED FOR HUGHES Dr. George Edward Reed, formerly president of Dickinson College, who in recent years has been aligned with the Progressive party, has come out squarely for Hughes and the Republican ticket, convinced that the interests of the country, economic and spiritual, will be best served by the triumph of the polls of the Republican party. Dr. Reed is heartily in favor of preparedness in every way and of the expansion of the American flag, for the adequate protection of American lives and American property in every quarter of the globe, for an adequate regular army, a powerful navy, universal military training of all the young men of the country, and for "the square deal" in the controversies of labor and capital.

Tell your mother Resinol will heal your skin

"If she will wash those sore, itchy places twice a day with Resinol soap and hot water, and then put on a little Resinol Ointment, I am sure the trouble will soon disappear." That is good advice. Patches of eruption may not be anything serious at first, but they cause so much discomfort and so often develop into eczema, or other severe ailment, that it pays to use the Resinol treatment right away. Resinol Ointment and Resinol Soap have been prescribed by physicians for many years, and contain nothing which could possibly injure the tenderest skin. Sold by all druggists. For free sample of each, write to Dept. 4-R, Resinol, Baltimore, Md.

MINE RESCUER IS ASPHYXIATED

Eight Experts Are Overcome Searching For Victims of Explosion

Fairmont, W. Va., Oct. 20.—L. M. Jones, a mining engineer, sent to Barracksville, near here, yesterday, in charge of a trained crew from the Pittsburgh station of the Bureau of Mines to conduct the work of rescue at the Jamison mine where more than a dozen men had been entombed by an explosion was asphyxiated in the workings early to-day. Jones, with seven other men, had reached the bottom of the shaft where canary birds were released to test the air. All the birds were almost immediately killed and Jones who had advanced further into the workings, also fell to the tracks.

Whole Party Overcome His companions advancing to his rescue felt the force of the gas, and one by one were overcome. When they did not return to the surface another party entered the mine and brought them out. All quickly recovered except Jones who had apparently died in the mine. The work of exploring the mine continued during the early hours of the day, and soon after six o'clock the body of Matthew Allison, the chief electrician who was at work in the mine when the explosion occurred, was brought out. Three other bodies were recovered, among them Allison's assistant, A. W. Vance. These men, the rescue party said, had evidently been killed by gas as their bodies bore no mark of the explosion.

Jones Is Fourth Expert to Die a Martyr to Cause

Washington, Oct. 20. — Lewis M. Jones while engaged in rescue work at the Barracksville mine, is the fourth government expert to lose his life in an attempt to save entombed miners. Jones lived in Pittsburgh and was born in Cleveland. Director Manning of the bureau said to-day that Jones' death was a great loss as he regarded him as one of the most able men in directing rescue work. "Jones had been an important factor in the development of rescue work," said Director Manning. "He died a martyr to the cause, like three other rescuers of the bureau have died. Under the chief mining engineer of the bureau, Mr. Jones had charge of the experimental mine of the bureau at Bruceton, Pa., and in this capacity developed many safeguards that are not only saving lives in the coal mines to-day, but will be instrumental in saving thousands of lives in the future. The fact that the death rate among the miners last year was the lowest in the last sixteen years emphasizes the worth of Mr. Jones' efforts."

REGAIN TRENCHES WON BY ALLIES RECENTLY

(Continued From First Page) The German war office announces, have repulsed counterattacks near Svinitsky, on the Stockhold in Volhynia, the Rumanian frontier but apparently without notable success as no specific mention of progress in any sector is made by Berlin. The Serbian advance in the bend of the Cerna southeast of Monastir in Macedonia has been checked after a temporary Serbian success, Berlin announced. Serbian troops on the western end of the Macedonian front are reported successfully continuing their vigorous campaign for Monastir. Through Paris today comes official announcement of the capture of the village of Velyeselo, within the bend of the Cerna river southeast of Monastir. The Bulgarians are said to have suffered heavy losses, including 90 men prisoners and three cannons and to have been put to rout. The Serbians pushed two miles northward to Velyeselo after taking Brod, capture of which was reported yesterday, forcing their way over the heights between the two places. They are now facing the third and final line of Bulgarian defenses in this sector, according to unofficial reports, having pierced the second line in taking Brod and the Velyeselo positions. The Greek Situation Confused The situation in Greece remains extremely confused. News dispatches from Athens, long delayed in transmission and recording the development of the situation in only up to Wednesday night, report turbulent conditions in the Greek capital. Greek reservists there are said to have taken the law into their own hands, despite the presence of strong contingents of marine marines, with the Greek authorities doing virtually nothing to control them. King Constantine is reported to have told the British minister at Athens that the allies, having deprived him of all power and recognized the provisional government of Saloniki, had better address future proposals regarding the course of Greece to the Venizelos revolutionary government.

POLISH LEGION A FAILURE London, Oct. 20.—A dispatch from Bern, Switzerland, to the Wireless Press, says: "Germany's Polish Legion has collapsed. After long efforts and coercive pressure Austria-Hungary succeeded in enrolling 15,000 Poles. They were divided into six brigades. "Four brigades mutinied at the beginning of October and they were disarmed and imprisoned in the Breiten-Litovsk barracks. The remnants of the legion were sent to the interior of Austria, the troops being considered unreliable."

TO REMOVE DANDRUFF Get a 25-cent bottle of Danderine at any drug store, pour a little into your hand and rub well into the scalp with the finger tips. By morning most, if not all, of this awful scurf will have disappeared. Two or three applications will destroy every bit of dandruff; stop scalp itching and falling hair.

Five gunners from Johnstown, Charles Walker, Glen Booster, John Meslier, Glen Wolfe and Charles Day bagged 34 squirrels, 1 raccoon and 2 opossums. George and Raymond Shreffler, A. C. Henry, shot the limit of squirrels yesterday and Edmund Book, Stanley Collins and Luther Rhea each killed five.

Economic Effects of War Are Discussed by Railroad President New York, Oct. 20. — Discussing the economic effects of the war at a luncheon of the Merchants' Association to-day, L. F. Lores, president of the Delaware and Hudson Railroad, directed attention to the probability of the lowering of wages in Europe with the return of soldiers to industrial pursuits and raised the question as to whether America, for that reason, could compete successfully in international markets.
