REASON FOR CAR FAMINE

New York, Oct. 24. — E. C. Woodworth, vice-president in charge of traffic of the Northern Pacific Railway, says that the freight car shortage, which he regards as the most serious in the country's history, is not due to the increase in industrial activity.

There would be no car shortage," Mr. Woodworth said, "were the railroads not obliged to carry, in addition to their own traffic, the enormous coast-to-coast tonnage which was carried through the Panama Canal by steamships which have wholly deserted this trade to seek greater profits elsewhere. Shipowners, of course, cannot be blamed for doing this and they might have made some increases in rates and kept their vessels in this trade had it not been for transcontinental railroad rates, which cannot be raised without approval of the Federal authorities.

FIRST VALUATION REPORT

Washington, Oct. 24. — The first official reports of the physical valuation of interstate railroads were made public to-day, when figures were announced for the Texas-Midland and Atlanta, Birmingham and Atlantic railroads.

The report on the Midland says the capitalization is \$2,112,000, the total book investment in road equipments, \$3,474,491, and the cost of reproduction \$3,332,004. Depreciation is fixed at \$854,587.

The Atlanta road's capitalization is \$35,000,000, but the report says that the cost of reproduction would be \$2,118,888, and that with losses to and from other lines, the present value of the total common carrier property is \$24,154,998.

The road's property is mainly in Georgia, more than \$12,000,000 of it, but almost \$7,000,000 of it is in Alabama, and the remainder is not geographically located in the report.

BABY'S EYES WORTH \$25,000

California Judge Allows Large Judgment in Case of Lost Sight

San Francisco, Oct. 24.—The value of a baby's eyes was fixed at \$25,000 here by Judge Murasky, in the Superior Court, who gave judgment for that amount to the parents of Mary Rubio, one-year-old, against Mrs. Amalia Razuoli, a graduate midwife. It was alleged that the midwife failed to care for the baby's eyes properly at birth and now the eyes are sightless.

"A pair of baby's eyes are priceless," said Judge Murasky. "No amount of money that this or any court could give, no matter how large the amount, would compensate for the loss of this baby's sight."
