MILK PRICES HIGHER OVER ENTIRE STATE

[Continued From First Page]

Here Are Milk Prices in 19 Penna. Cities

Table with 2 columns: City, Price, Inc/Sec. Lists prices for Allentown, Altoona, Chester, etc.

charge eight cents after November 1. Producers decided to increase from four to five cents a quart in the price to the retailer, claiming increased cost of labor and feed necessitate the raise.

One noticeable feature in the figures obtained by the Harrisburg Telegraph is the fact that where the producers are close to the city, and in many instances can retail their own product, the price remains lower.

charge eight cents in the winter and seven cents in the summer.

Philadelphia Paying 10 Cents In Oil City, Monongahela, Altoona, Wilkes-Barre, Chester and Scranton, ten cents is charged, and in Connellsville the price is nine and ten cents a quart.

KNOX GREETED BY LARGE CROWD

[Continued From First Page]

years. More than 2,000 men were in line and the music and red lights reminded one of the days of the old-time torchlight procession.

to be economical and instead had multiplied offices and appropriated tremendous sums to make places for deserving Democrats; it had violated its promise to make the Panama canal toll free to American ships; it had failed to lower the cost of living, which has ascended since March 4, 1913; it denied a square deal to its distressed sister republic of Mexico when the Taft administration had in its last twelve days paved the way for reparations for American losses and for amelioration of abuses, and it put out twin shams, the eight-hour and child labor laws.

Mr. Knox tried to stop several times but the audience called to him to go on. He closed with an admonition to the voters to weigh Democratic claims and to vote as they believed the best interests of their land demanded. He said that he had no fear of the result.

holding of the safety appliance act when Attorney general and of his work in the Senate in 1907.

The Adams law was denounced along the same lines as those in which Mr. Knox spoke earlier in the month and the federal child labor law stripped of verbiage and shown to be another bit of legislative chicanery.

no friend of labor," he said, "and reply that I have voted for more labor legislation than all the Democrats in the Legislature combined, and among the bills that have had my support was the Full Crew bill."

The meeting was brought to a close with brief remarks by Congressman Kreider and Senator Beidleman, who got a big reception at the hands of the audience. It was nearly 11 o'clock when the meeting broke up and many remained after that to shake hands with Mr. Knox and the other speakers.

GROVER TELLS FACTS TO HARRISBURG PEOPLE

"I had been overworking for years and my stomach gave out. I had no appetite and what I ate formed gas and soured. Was always constipated. Nothing helped until I tried buckthorn bark, glycerine, etc., as mixed in Adler-I-ka. ONE SPOONFUL acted me with its INSTANT action."

For several years milk has been sold in the city, delivered in sterilized bottles, at seven cents a quart. The same price is charged at Lancaster and Lebanon. At Lock Haven, dealers are getting six cents, but there is talk of an increase.

retail dealers, upon learning that the producers in Dauphin and Cumberland counties were planning an advance, met and organized to prevent an increase that they claim is exorbitant. The producers, however, stand firm on their demand for 20 cents a gallon for milk after November 1, and the dealers will meet tomorrow night to take action on whether the demand will be met.

For an Executive Executive The people must vote in a few days for an executive who will represent this nation in the most crucial period of the world's history he pointed out in opening. To judge those who seek a vote of confidence it is necessary to the record. Mr. Knox dissected the Wilson administration's mismanagement of grave situations and its failure to do what is so important to a nation—the keeping of pledges.

These Lecturing Days Mr. Knox lecturing that Woodrow Wilson when professor of political science implanted the seeds of antagonism to organized labor in the minds of students and that he now made a pretense of being favorable to labor. As for himself Mr. Knox told how he had brought about the up-

Cured His RUPTURE

I was badly ruptured while lifting a trunk several years ago. Doctors said my only hope of cure was an operation. I tried all kinds of medicine, but I got nothing out of it. I was in a desperate condition when I got a letter from you. I bought your medicine and I am cured. I am doing hard work as a carpenter. There was no operation, no loss of time, no trouble. I have nothing to sell, but will give full information about how you may find a complete cure without operation. If you write to me, Eugene M. Pullen, Carpenter, 206C Marcellus avenue, Manassas, Va. I will send you a notice and show it to any others who are ruptured—you may save a life or at least stop the misery of rupture and the worry and danger of an operation.
