

TAKE A "CASCARET" TONIGHT AND SEE!

Spend a Dime! Live! Your Liver and Bowels and Feel Fine.

Enjoy life! Your system is filled with an accumulation of bile and bowel poison which keeps you bilious,

headachy, dizzy, tongue coated, breath bad and stomach sour—Why don't you get a 10-cent box of Cascarets at the drug store and feel better. Take Cascarets to-night and enjoy the finest, gentlest liver and bowel cleansing you ever experienced. You'll wake up with a clear head, clean tongue, lively step, rosy skin and looking and feeling fit. Mothers can give a whole Cascaret to a sick, cross, bilious, feverish child any time—they are harmless—never gripe or sicken.

ONLY ONE SHIP IN COMMISSION San Diego, Cal., Oct. 26. — For the first time in more than fifteen years, according to naval officials here, the Pacific coast will be left without a single destroyer in active service when the Paul Jones, Preble, Stewart and Whipple are placed in first reserve. It also was said that this will be the first time in many years that there have been so few ships in active service on the western seaboard. Of the squadron of seven cruisers at-

tached to the Pacific fleet, only the San Diego, flagship of Admiral Caperton, is in full commission. The remainder either are undergoing repairs, or are short of their regular complement aboard.

PHYSICAL DEPARTMENT GETTING HOLD ON MEN

Interest in the classes now being conducted by the physical director, Clarence W. Miller, in the gymnasium of the Young Men's Christian Association, is constantly increasing, and the numbers in attendance are growing daily. Businessmen, young men and boys are coming, and the present season will be a most successful one. Mr. Miller has introduced new lines of work. The enthusiasm is running high. The gymnasium itself has been greatly improved, and before the year closes its capacity will be tested, judging from present indications.

BELLANS Absolutely Removes Indigestion. One package proves it. 25c at all druggists.

A Dreadful Coal Shortage

The outstanding fact to-day is that the nation is face to face with the danger of a serious coal shortage.

The alarm hit the country in all parts about four weeks ago. It was then we had the first touch of cold weather.

Householders in many cities went to their retailers to get coal, and much to their surprise were informed that the entire order could not be filled.

Before the newspapers had hardly said a word about it, gossip had carried the news to every part of the country.

This unprecedented situation is due to three causes; scarcity of labor, car shortage, and indifference of consumers in not purchasing coal in summer months.

Bituminous coal prices at the mines have advanced 10 per cent. We predict a rise in Anthracite before winter is on.

Don't delay getting enough coal on hand to last until April, 1917.

CELERY CROP CUT BY THE WEATHER

State Reports Show a Decline in the Size of the Great Autumn Staple

Discouraging reports on the celery crop have been received by the State Department of Agriculture. The plants are small and short on account of the lack of rain during late summer.

The wheat crop for 1916 is estimated at 25,070,500 bushels, says the department bulletin. Early estimates placed the crop a million and a half bushels above the yield, which was very disappointing in the threshing. The average production of rye this year is estimated at 16.9 bushels, against 17.2 bushels last year. The 1915 crop of oats was almost a record one and showed an average of 39 bushels to an acre, but this year unfavorable weather conditions have reduced the average yield per acre to 31 bushels. The crop is estimated at 32,571,000 bushels as against 43,095,000 bushels last year.

The past season has been one of the most unfavorable in years for potatoes. With incomplete figures the department estimates the average yield per acre at 54 bushels as compared with 75 bushels last year and 106 bushels the year previous. Although the peach crop was just slightly over half of that of 1915, the average price per basket obtained for the Pennsylvania fruit was 89 cents as compared with 45 cents last year.

Plans For State Session of American Zionists

SOLOMON FRANKEL

Solomon Frankel, representing the Federation of American Zionists, whose headquarters are in New York City, has been here arranging for a Federation convention in the Technical High School Auditorium, November 12-13. Plans will be discussed at a meeting of the Young Men's Hebrew Association, Sixth and Sayford streets, to-night. It is expected that Governor Martin G. Brumbaugh will be one of the speakers.

Stucker Bros. Hope to Complete Paxton Creek Invert by End of Week

Finishing touches are being added to the Paxton creek invert operations north of State street by the Stucker Brothers Construction Company and by Saturday evening, barring unfavorable weather or other unexpected delays, the gap in the great concrete gutter will be closed. And with the completion of this job, Harrisburg's big improvement program that included the construction of the river dam, the river front wall and the creek invert will be accomplished. Rains and the difficulties that were experienced by the contractors in controlling the water that frequently flooded the operations, delayed Stucker Brothers' Company to some extent although generally speaking, pretty good time was made on the job. The gap of nearly 100 feet in the big gutter-drain was left there last year in order that the great water mains to and from the reservoir might be lowered.

GOLD FLOWING IN STEADY STREAM

New York, Oct. 26. — Bankers here expect that the British treasury will continue to export gold to this country as fast as the government mint can handle it. Since Monday of last week gold valued at \$25,000,000 has entered the local assay office. Since May 10 the total value of British gold sent to the United States has reached \$250,000,000. The assay office, it is understood, stands ready to receive \$15,000,000 a week for an indefinite period. The British government, according to bankers, wishes to pay cash for goods bought here, and while the proceeds of the various loans have gone further to meet this requirement than the actual gold, still the British officials want to supplement the loans constantly with more and more gold.

THIS STOPS HAIR FROM FALLING OUT

Ever try to count the dead fallen hairs in your comb and brush? They are nature's advance warning of future baldness and proof that the dangerous little dandruff germ is busy on your scalp. Dr. Sangerbund, the famous Paris specialist, first discovered that dandruff and falling hair are caused by a microbe. Then came the discovery of the value of the real Parisian Sage (liquid form) in destroying the dandruff germ and promptly preventing the further loss of hair. The effect of only three days' use of Parisian Sage is simply marvelous, and the American people have now awakened to the fact that dandruff is just as unnecessary as it is unhealthy, and that they can be quickly rid of it and save their hair by using a few ounces of Parisian Sage. Parisian Sage is sold for not more than 50 cents a large bottle at drug and toilet counters everywhere. It is an ideal, daintily perfumed liquid, free from grease and stickiness, and will surely cause hair to grow soft, lustrous and really seem twice as abundant. H. C. Kennedy always has a large supply, and guarantees it to you.

Bath Robes — assorted patterns and colors. Friday price, \$1.75.

Kimonos — small sizes only. Friday price, 59¢.

BOWMAN'S—Third Floor

FOODS INCREASE UNDER WILSON

Families That Paid \$300 Yearly When Taft Was President Now Pay \$342

Washington, D. C., Oct. 26. — A statement issued from National Republican Congressional Committee headquarters says: Under the Wilson administration and the Democratic tariff law the cost to the people of the United States, for fifteen articles of food alone has increased in the last four years approximately one-seventh. An American family, under the Taft administration, that spent \$300 per year for these foods, is now paying for the same articles, under the Wilson administration, \$342 annually. Figuring five persons to a family, this is an increase of \$8.40 for every man, woman and child in the United States, or the stupendous total of more than \$800,000,000. Under the Underwood tariff law and the Wilson administration the high cost of living has increased by leaps and bounds. Since June, 1912, up to June, 1916, according to the latest available government statistics, there has been an

increase of fourteen per cent. in most of the staple foods. Promises Not Kept The Democrats have not kept their promise, made in the Baltimore platform, to reduce the high cost of living. On the contrary every family in the United States is paying higher prices for the principal articles of food, fourteen per cent. higher than it cost them under the Taft administration and a Republican tariff law. In the Baltimore platform, on which Wilson was elected President, is the following plank: The high cost of living is a serious problem in every American home. The Republican party, in its platform, attempts to escape from responsibility for present conditions by denying that they are due to a protective tariff. We take issue with them on this subject, and charge that excessive prices result in a large measure from the high tariff laws enacted and maintained by the Republican party and from such trusts and commercial conspiracies fostered and encouraged by such laws and we assert that no substantial relief can be secured for the people without import duties on the necessities of life are materially reduced and these criminal conspiracies broken up. A fourteen per cent. increase in the cost of the principal foodstuffs in the way the Democrats and the Wilson administration have kept this pledge to the people. The following table, prepared by

The Bureau of Labor Statistics of the Department of Labor, shows relative prices of fifteen of the principal articles of food in June of each year, 1912 to 1916, inclusive. To form a basis for the table the price for June, 1912, is placed at 100, and the price for each succeeding year is figured accordingly by the bureau statisticians. A careful calculation of this table shows that with 100 as a basis for 1912 the 1916 percentage is 114, or an increase of fourteen per cent. in the cost of the combined foodstuffs since the declaration of the Democratic platform. Following is the government table showing the increased cost of living under Democratic rule:

Month and year.	Sirloin	Round	Pork	Steak	Chops
June, 1912	100	100	100	100	100
June, 1913	109	109	110	110	110
June, 1914	110	114	114	114	114
June, 1915	110	113	109	113	109
June, 1916	120	126	121	121	121

Smoked ham, Eggs, Butter.

Month and year.	Smoked ham.	Eggs.	Butter.
June, 1912	100	100	100
June, 1913	112	105	104
June, 1914	110	106	100
June, 1915	106	101	103
June, 1916	120	113	109

Wheat, Flour, Potatoes, Sugar.

Month and year.	Wheat.	Flour.	Potatoes.	Sugar.
June, 1912	100	100	100	100
June, 1913	92	61	84	81
June, 1914	91	77	81	81
June, 1915	118	58	109	109
June, 1916	107	98	138	138

Increases in the cost of these principal articles of food could not have been affected by the European war

A Simple Way to Remove Dandruff

There is one sure way that has never failed to remove dandruff at once, and that is to dissolve it, then you destroy it entirely. To do this, just get about four ounces of plain, common liquid arvon from any drug store (this is all you will need), apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips. By morning, most if not all of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have. You will find all itching and digging of the scalp will stop instantly, and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better.—Advertisement.

ACHIEVER 10c Cigars

There's a claim for every 10c cigar on the market—some have this and some have that—all claim quality. Achiever 10c Cigars are made of all imported tobacco with a shade-grown Connecticut wrapper. While you are spending 10c for a smoke, spend it right and know the pleasingly mild and fully satisfying aroma of Achiever quality. Made in 5 sizes by C. E. Bair & Sons, Hbg., Pa.
