UNCLE SAM'S HUMILIATION

PHILANDER C. KNOX has done more in a few speeches to illuminate the Mexican situation than all that is contained in the statements and talks of the last two years.

Not in years have the colored men of this city as have rallied to a cause in support of Charles Evans Hughes.

From direct and personal knowledge, he made clear that notwithstanding the de facto government of Mexico had signified its desire to make reparation for American lives and restitution for American property lost.

Not in years have the colored men of this city as have rallied to a cause in support of Charles Evans Hughes.

It is inconceivable that any considerable number of intelligent people will continue to listen with patience to the clamorous appeals of the Wilson supporters.

A humiliated and disgraced people are only waiting the day when they can express at the polls their opinion of Wilson and his administration.

One jury has rendered a verdict against the Wilson administration. Some time ago Wilson appointed a certain "deserving Democrat" to an important postmastership out West.

BROKEN PROMISES Broken promises mark the Wilson administration at every turn. Even its apologists are finding difficulty in squaring the Wilson pledges with the Wilson performance.

War taxes were imposed to the extent of millions upon our people, in face of the contention of the Wilson defenders that "he has kept us out of war."

The First Illinois Regiment was one of the earliest to return from the Border. Its men had more than three months of "watchful waiting."

Mr. Baker has conveniently forgotten just what he said about the Revolutionary heroes—but the voters have not.

BLOCKING TRAFFIC Attention has repeatedly been called to the intolerable conditions at the Federal building.

ment and found that at least 163 of the men admit that their jobs at home had been taken by others while they were down in Texas.

WILSON and EIGHT-HOUR DAY Wilson is now talking a great deal about the eight-hour day.

At that time Mr. Wilson was at Princeton and little concerned with the "rights of humanity" and still less with the outcome of elections.

Professor Wilson refused to sign this, saying: It seems to me that nothing of this sort can be decided thus in an abstract and that no valuable conclusion can be arrived at except by a real discussion of specific cases.

That study of that specific case he did not give; would not give, it is probable. Yet he rendered an eager assent to the demands of the railroad brotherhoods.

EDITORIAL COMMENT Thirty-one American authors have come out for Hughes, after denouncing Vance C. McCormick's hyphenate plot as unfit for the purposes of high grade fiction.

Why doesn't Vance McCormick claim Wilson will carry the "State of War" between the U. S. and Mexico?—Sharon Herald.

LETTERS TO THE EDITOR The Hughes College League To the Editor of the Telegraph: The Hughes National College League, which was organized in New York City, has been formed for the purpose of securing concerted action on the part of a class of voters in behalf of the progressive candidate, Charles Evans Hughes.

Therefore, any effort to arouse the voting public to its duty should be met with the heartiest approbation.

Politics in Pennsylvania By the Ex-Committeeman Southern Congressmen, assistant secretaries from the departments at Washington, Federal jobholders from south of the Mason and Dixon line and men aligned with the old Southern Democracy which is running things at Washington are invading Pennsylvania and making a desperate effort to roll up the votes for Wilson so that it can be used to bolster up ambitions of certain Democratic bosses for 1918 and 1920.

These are the reasons for the drive now being made. In addition the Democrats are making plans for election of Congressmen in the southern tier counties where southern Congressmen and assistant secretaries are making nightly speeches.

WELL KNOWN LABOR UNION MAN TAKES GOMPERS TO TASK FOR TRYING TO DELIVER VOTE

To the Members of Organized Labor: THERE appeared in the public press of last week an article proposing to come from the pen of Samuel Gompers, president of the American Federation of Labor, and concurred in by James O'Connell, vice-president, and Frank Morrison, secretary-treasurer of the same organization.

The labor of America is rapidly becoming unprofitable under its present regulation by those who have determined to reduce it to a minimum.

Evening Chat

Thousands of bulbs, including many new varieties of tulips and hyacinths are being planted in Capitol park for the Spring flower display which will be on when the legislators are sitting in Harrisburg for the 1917 session.

The Public Service Commission has been solemnly asked by a complainant in Lackawanna county to require a Telephone company to take its wires off trees.

It is expected about the Capitol that State printing next year will be cut down a third owing to the heavy expense at which it has been running lately and because of the high cost of paper.

An interesting light is shown upon the high cost of living which has been in Pennsylvania back in the eighteenth century by a historical address upon the courts and bar of Cumberland county by Judge E. W. Biddle.

One of the sights about Harrisburg these days is Steinton. It is always crowded with people who are interested in industrial activity makes it something more than attractive just now.
