ORRINE FOR DRINKING MEN

We are in earnest when we ask you to give Orrine a trial. You have nothing to risk and everything to gain, for your money will be returned if after a trial you fail to get results from Orrine. This offer gives the wives and mothers of those who drink to excess an opportunity to try the Orrine treatment. It is a very simple treatment, can be given in the home secretly, without publicity, or loss of time from business.

Orrine is prepared in two forms: No. 1, secret treatment; Orrine No. 2, the voluntary treatment. Costs only \$1.00 a box. Ask us for booklet. Geo. A. Gargas, 16 North Third street, Harrisburg; John A. McCurdy, Steelton; H. F. Brunhouse, Mechanicsburg, Pa.

DIGESTION WORTH HAVING Good digestion is not appreciated until you lose it. Then you cannot afford to experiment on remedies. Strong medicines are hard on weak stomachs. To be able to eat what you want and to digest it is a priceless blessing. If you have lost it do not be deceived by the claims of predigested foods and stomach tonics, so-called. There is no tonic for the stomach that is not a tonic for every other part of the body. As the blood goes everywhere, an improvement in its condition quickly results in strengthening weak organs. Rich, red blood is absolutely necessary to digestion. If your stomach is weak and you are troubled with gas, sour risings in the throat, a feeling of pressure about the heart and palpitation, try the tonic treatment with Dr. Williams' Pink Pills. So many dyspeptics have been helped by this simple treatment that every sufferer from stomach trouble should try it. The Dr. Williams' Pink Pills, Schenectady, N. Y., has issued a booklet "What to Eat and How to Eat" that should be in every home. It gives just the information that you want regarding your diet. The company will mail Dr. Williams' Pink Pills, postpaid, at fifty cents per box or your own druggist can supply you.

KUNKEL DECIDES MILK IS A FOOD

Under Provisions of Quarantine Act; Fixes Verdicts For Violations

Milk is as much a food as hay, straw, grain, fodder or other food" in the meaning of the act of July 22, 1913, which makes it unlawful for the removal of milk from quarantined premises of such products without a special written permit from the State Livestock Sanitary Board, according to a comprehensive decision on the subject handed down to-day by President Judge George Kunkel of the Dauphin county courts.

The question was raised in an amicable action following an appeal from a quarter sessions jury verdict which found that Dr. J. N. Becker and Harvey S. Romberger had removed from the farm of John Funck some milk samples for the purpose of making tests for evidence of the existence of the foot and mouth disease among the cattle. Dr. Becker, however, was not indicted. Funck was present at the time, but refused his consent to the removal of the milk. Romberger was employed by Funck. A verdict of guilty was directed by the court to be entered against Romberger and a verdict of "not guilty" was ordered to be entertained against Funck.

Long before SENRECO was offered to you we submitted it to hundreds of dentists, requesting that they put it to every test. Told them that we believed Senreco to be an unusually good dentifrice, especially as to its cleansing qualities and its remedial action on sore, soft, bleeding gums; in the treatment of Fyorrhea, etc. Submitted the formula and asked them their opinion. They tested Senreco from every angle; some going even so far as to make a chemical analysis.

Coal Prices May Again Advance The Anthracite Coal situation is growing very tense. Coal operators report that they are filling orders as rapidly as possible. On account of the wonderful scarcity of men and poor car supply the mine owners despair of keeping the public supplied when cold weather comes. Some mine operators are already charging premium prices of from 20c to 50c per ton for coal. Many persons familiar with the coal-producing capacity of the mines predict a raise in price of \$1.00 per ton on some sizes before many months. Bituminous coal at the mines has already advanced more than 100 per cent. in price. The coal problem is a serious one. We advise you to put in enough to last all winter without unnecessary delay.
