500,000 BATHE INTERNALLY

The marvelous growth of Internal Bathing since the advent of J. E. L. Cascade is accounted for not only by the enthusiastic praise of its users to others, but also by the physicians insisting more and more that the Lower Intestine must be kept free from waste to insure perfect health and efficiency.

Mary L. J. Walker, M. L. D., Olean, N. Y. writes: "I must tell you of a case of Constipation lasting for twenty years that was cured by your Cascade treatment."

The physician in charge said the patient had a tumor between the stomach and intestines. The patient being 62 years old, he claimed no help could be given except the knife, but finding the intestines in a very bad state I advised the J. E. L. Cascade, which resulted in a complete recovery. When I took the case she was taking a laxative three times a day and had been for three weeks; couldn't get along without it. Now she never takes any laxative."
