### Catarrh Sufferer Finds Relief So Long Sought

Had No Appetite and Stomach Re-belled When He Ate, But Tanlac Fixed Him Up Fine, He Says

Jim Speedy is living up to his name these days, for he is hustling around chuck full of pep and energy. All thanks to Tanlac, for, as he says, "I suffered for a long time with a severe case of catarrh of the stomach, which caused me to be in constant misery. "I was constipated, had no appetite, and when I did manage to choke down a few mouthfuls just to keep body and soul together, up it would come, and I would be wretched with a vomiting fit that would leave me sickened and weak.

each morning and flushing out the whole of the internal poisonous stagnant matter.

Everyone, whether alling, sick or well, should, each morning before breakfast, drink a glass of real hot water with a teaspoonful of limestone phosphate in it to wash from the stomach, liver, kidneys and bowels the previous day's indigestible waste, sour bile and poisonous toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach. The action of hot water and limestone phosphate on an empty stomach is wonderfully invigorating. It cleans out all the sour fermentations, gases, waste and acidity and gives one a splendid appetite for breakfast. While you are enjoying your breakfast the water and phosphate is quietly extracting a large volume of water from the blood and getting ready for a thorough flushing of all the inside organs.

The millions of people who are bothered with constipation, bilious spells, stomach trouble, rheumatism; others who have sallow skins, blood disorders and sickly complexions are urged to get a quarter pound of limestone phosphate from the drug store which will cost very little, but is sufficient to make any one a pronounced crank on the subject of internal sanitation.—Advertisement.
