Winter millinery pays its homage to fur. So great is the vogue of fur trimming that the hat that hasn't its fur band, fur motif or fur edging is really the exception. And in combination with fur, in many instances, is beautiful metallic lace in gold or silver.

It certainly is a season of picturesque millinery fashions.

MASKED REVELERS TO HOLD SWAY

[Continued From First Page]

ade. All of the masqueraders are invited to be at Front and Market streets to fall in line back of the Municipal band, with 35 pieces.
"Everybody is to turn out for a good time. We'll do all we can to help. So long as thousands of people indulge in plenty of fun without annoying anyone, we are willing to do our part, handle the crowds, keep the autos and cars out of the way, and turn the downtown streets over to the merry-makers," Chief of Police Wetzel repeated to-day.

"He issued special traffic orders effective at 6 o'clock. No autos are to be parked in Market Square after that time, or in Market street from Fourth to Front street; or in Second, Third or Fourth streets from Walnut to Chestnut. Special officers will make rounds from 6 to 7 o'clock and order owners to move their machines out of the way."

"Judging from the behavior of the hundreds who were out last night I am sure we will have no trouble to-night. Only a few complaints were received and the officers had little trouble in breaking up any attempt of unnecessary disorder. Several windows were broken and this must not happen to-night. Otherwise the fun-makers kept within the requirements and with the same co-operation to-night there is no reason why everyone should not have a good time."
Fifteen officers under Sergeant Drabenstadt will have charge of the crowds in the Square. Other officers will direct the traffic and keep automobiles from leaving cars parked in the streets which Chief Wetzel ordered to be kept open.

To Award Silver Cups
V. Grant Forrer has been appointed to act as chairman of the committee of judges to award the four silver cups awarded by the Chamber of Commerce as follows: One each to the most fantastically garbed man and woman; and one each to the most comic man and woman. Couples are requested to dance but three numbers and then make room for others. A big section of the Square will be used.

Weird Electrical Lighting
A special committee of the Jovian league, understanding the superstitious dread that many people have on Halloween for spooks, ghosts, witches and the like, have arranged a special lighting set for the big dancing area and will also have charge of a number of electrical displays.

Hundreds of people are expected from nearby places and with fair weather promised by the weatherman a record turn out is anticipated. Last night "lek-tack" was celebrated and hundreds of masqueraders marched up and down the streets, yelled, tooted horns, threw confetti, and many unsuspecting bystander, got in trim for to-night's big celebration.

British Casualties This Month Total 107,033; Loss Along Somme 414,202

London, Oct. 31. — British casualties reported in October in all war areas are:
Officers, 4,331; men, 102,702.

October losses of 107,033 bring up the total British casualties for the four months of the Somme offensive to 414,202. The daily average loss for October is 3,452. The British figures are of especial interest on account of their bearing on the controversy between London and Berlin regarding the losses of the allies on the Somme.

Measures of Reprisal on Russian Prisoners Ordered

Berlin, Oct. 31. — By Wireless. — Measures of reprisal upon Russian prisoners have been ordered by the German government pending the Russian government's acceptance of German demands for improved treatment of German prisoners of war in Russia, according to the semi-official North German Gazette.

This newspaper states that the Russian government asked of the German government that it put an end to conditions which were causing suffering to German prisoners of war and that the period given by the German government for compliance, having elapsed without a satisfactory answer for Russian the German government has ordered reprisals. To this end it is stated a number of commissioned officers belonging to crack Russian regiments have been transferred to a special camp where the discipline is especially severe and where they will remain until the Russian government complies with the German request.

COMPENSATION RULINGS MADE

Important Precedents Set in Opinions Given Out by the Board Today

The State Workmen's Compensation Board in a decision by Commissioner John A. Scott, has upheld the award of Referee T. J. Dunn, of Pittsburgh, to the family of Robert Duffett, an employe of E.H. Abbott, Pittsburgh. Duffett was injured January 25 and died on February 22 of pneumonia, the symptoms of which were first apparent to his physician twenty days after he received the injury. The case attracted considerable attention at Pittsburgh.
Rulings in regard to admissibility of hearsay evidence and charges of contributory negligence are made by the State Workmen's Compensation Board in an opinion filed by Commissioner J.W. Leech in dismissing the appeal of W. C. Hamilton & Sons, Lafayette, from an award by Referee W. B. Scott, of Philadelphia, to parents of Francis Botto, of Spring Mill. The decedent died from bloodpoisoning following an injury to his left arm. The appellant objected to testimony of the man's mother, charging that she gave hearsay testimony, but the opinion says what she said was supported by direct and positive testimony of two witnesses of the accident, which was a cut of the arm

caused by falling when he attempted to sit down on a chair without looking.

The fact that the deceased disobeyed the orders of his employers in attempting to sit down on a chair in an idle moment during working hours and may have been guilty of contributory negligence in doing so without first looking," says the decision, "cannot be considered under the terms of the act."

WEATHER HOLDS UP FIGHTING

[Continued From First Page]

camp where the discipline is especially severe.
Berlin Claims Repulses
Berlin's report latest operations on the Somme front announces repulses for the British near Lesbois, north of the river and of the French who attacked Maisonneuve farms and the new German positions south of Baches. The German artillery broke up attempts by strong French forces to advance in the region of Chaulines, it is declared.
The eastern front again is stirring with activity. From the north of the Polish frontier to the South of Hailu, on the Lemberg front, the Russians are attacking and in the sector west of Lutsk reports the capture of Austro-German first line trenches.
Hard Fighting in Transylvania
Berlin announces not only the repulse of Russian attacks on the Shara and below Stanila, southeast of Lutsk, but claims the capture of important Russian positions in the Narajuvka region in the vicinity of Haid.
Fighting on the Transylvania front continues violently in the mountain passes and near the frontier. No further advances by the Austro-German forces are claimed, however, while Petrograd reports the Rumanians continuing their successes in the Jul valley, pressing Field Marshal Von Falkenhayn's forces further north.
Berlin claims the failure of Rumanian efforts to recapture heights north of Campulung, where the Austro-German advance has pressed a considerable distance into Rumanian territory southwest of Kronstadt.

London, Oct. 31. — The Rumanians are continuing their advance at several points along the Transylvania frontier and have been checked and thrown back only in one sector. In the Jul valley King Ferdinand's troops are still sweeping forward. The troops of Falkenhayn have been forced to retreat as far as the Vulcan Pass, where they are putting up a stiff resistance.
The success of the Rumanians' counter blows in this region have accomplished their main object, however, the removal of the enemy threat for the British near Les Boeufs, north of the country.
At two other points the Rumanians have pushed their advantage.
