

Ladies Rub Wrinkles With Amonized Cocoa And Watch Them Go

Beauty Doctor Says Any Woman May Look From 10 to 20 Years Younger If your skin shows signs of becoming wrinkled or flabby, go to any good druggist and get a little amonized cocoa and apply this at night over your entire face and neck; massage it into the skin with the finger tips for about two minutes and then wipe off the surplus with a soft dry cloth. Nothing else is required and you will be surprised to see how quickly it brightens up your complexion and how nicely it takes out the wrinkles and contracts the loose skin and enlarged pores.

Furthermore, food placed out of doors will attract germs, dust and dirt, etc.

KNOX SEES SURE HUGHES VICTORY

Predicts Republican Landslide at Rousing Meeting in Schuylkill

Pottsville, Pa., Oct. 31.—It has been a long time since any public man has been given an enthusiastic reception such as was extended to Philander C. Knox in this city this evening. The Hippodrome was filled with men and women long before the distinguished visitor arrived. He was given a rousing ovation when he followed Chairman R. H. Koch, one of the judges of the Court of Common Pleas, and Senator C. A. Snyder, the candidate for Auditor General, on the stage.

Before introducing Mr. Knox, Judge Koch briefly reviewed the broken pledges of the Democratic party which they had made in the platform of the St. Louis convention. Mr. Knox thanked the chairman for his eloquence in showing up the inconsistencies of the Democrats in the administration of the affairs of State while President Wilson and his Democratic Congress had been in power.

Former Senator Knox related the history of the Panama Canal, in which he figured prominently. He announced the Wilson administration for imposing tolls upon the coastwise vessels of the United States for the use of that canal. Mr. Knox related his part in behalf of the Brotherhood of Railwaymen, in having the Safety Appliance law declared constitutional in a suit in California, and he denounced the Adamson eight-hour law, and the Child Labor Law enacted by the Democratic Congress as being political "gold bricks."

Congressman John R. K. Scott flayed the Democratic Party and said "the policy of the administration has been flimsy, floundering and flopping." Mr. Scott, among other things, said: "The last four years of the political history of the United States has consisted of a series of successive one-ripping political acrobatic performances, with the President of the United States getting each performance as the mountebank."

FOR MAINTENANCE OF ALL AMERICAN RIGHTS

[Continued From First Page]

quiet so that the questioner might proceed. "In the event of your election," the man asked, "will you or will you not favor or oppose an embargo against the shipment of munitions from this country to Europe or the passage of a war resolution warning Americans not to travel on ships owned by a nation at war?"

"I, sir," the nominee replied, "am in favor of the maintenance of every right incident to the right of trade and the right of shipments. It is a very important right that we have as a neutral nation and it is very important that at this time when the great war is raging we should maintain the neutrality rights and maintain the integrity of international law. To my mind it is a very thoughtful policy that would surmount any of these important rights because of any sentimental consideration when we have the vast necessities of neutral commerce and the importance of the rights of neutrals to consider with respect to the future of the United States."

The crowd cheered Mr. Hughes and the speaker thanked "thank you."

"THE NEXT TIME YOU SEE US WE WILL ALL BE BEAUTIFUL"

That is what one woman writes after she and some of her women friends had proven the merit of Usit, the wonderful pure nut-oil Egyptian skin food. Usit does all that this grateful woman could claim for it. No wrinkles can stay where it is applied at night before retiring. Usit means smooth, clear, youthful complexions, in place of wrinkles and a faded, old-looking face. It is food for the neglected, hungry, poorly nourished skin. It means lines are banished and plumpness restored. No other treatment is necessary.

Really guardians of our future. We may ourselves—though heaven forbid—be involved in difficulties when these rights are of the utmost importance. We must maintain the rights to buy. We have the need, in the absence of a merchantmarine such as we should have, we have the need of utilizing the facilities of travel and we must protect American citizens in every right with respect to life, property and commerce as to all nations.

What we want is an America standing for its own rights facing the world with a sense of justice asking naught but that to which she is entitled, but fearless and courageous. We need an America four square to the world, commending itself by the firmness and consistency of its policies, vindicating as I have said, the principles of international law and showing itself as to all, the champion of the rights of neutrality.
