

OF INTEREST TO THE WOMEN

"THEIR MARRIED LIFE"

Helen was a little uncomfortable all during dinner in the diner. She ate little, as the little incident had given her a headache and robbed her of her enthusiasm. And she had been so happy. Warren was silent, and finally Helen ventured: "What is it dear? What has happened to change you this way?"

And Warren rose and left her. Helen picked up one of the magazines and forced herself to begin a story. The girl of her afternoon experience came in from the dining car followed by the young man with her. Helen scrutinized them carefully, and thought she detected a slight coldness between them.

SO COMFORTABLE OF SMART SERGE

Design May Be Used For Nurse's Costume With Line Accessories

By MAY MANTON

8841 (With Basting Line and Added Seam Allowance) Coat and Dress Collars with Cuffs. 8958 (With Basting Line and Added Seam Allowance) Nurse's Costume or House Gown, 34 to 44 bust.

This is a simple gown of serge but the exceedingly smart collar and cuffs that are made of washable satin give it an up-to-date and attractive touch that completely transforms it. Accessories always are important but perhaps they never were quite so important as they are at the moment and every kind of fancy collar and cuffs is in vogue. The models shown in this pattern are excellent. The gown is a perfectly simple one that can be used for the home woman or for the nurse, as it is treated in one way or in another, made severely as shown in the small view, or finished with dainty touches as it is on the figure.

Warren, I would far rather never have you do anything for me than to have you treat me like this for no reason at all. I am disappointed in you; that's all I have to say. You are selfish, inconsiderate, and ungentlemanly.

Helen abruptly goes. And with that, Helen rose hastily, dropping her napkin to the floor, and walked out of the car, her head in the air and her cheeks burning. Warren followed her back to the car, and they sat down. Warren glanced at Helen from time to time, but she gave no sign of having noticed anything out of the ordinary, and finally he leaned forward and said in a conciliating tone of voice: "I am going out to the smoking car for a few minutes. Do you mind?"

DAUPHIN COUNTY SURE FOR HUGHES. [Continued From First Page] You will remember that in the McCormick campaign, we predicted that the county would go for Brumbaugh by at least 2,500. The result was 4,000 to the good for Brumbaugh. It is much better to underestimate than to overestimate. That is shown by the foolish assertions of the Democratic forecasters. In 1912 they declared a few days before election that Wilson would carry the county. It went for Roosevelt and a majority of the Republican candidates.

Thin Folks Who Would Be Fat. Increase in Weight Ten Pounds or More. I'd certainly give most anything to be able to eat a few pounds and stay that way, declares a very excited thin man or woman. Such a result is not impossible despite past failures. Most thin people are victims of malnutrition, a condition which prevents the fatty elements of the blood, which are taken up by the blood as they are, from the powers of nutrition are normal. Instead of getting into the circulation of the fat and flesh producing elements stay in the intestines until they pass from the body as waste.

English, Doncha Know. The "newsies" do things differently, somehow, at their dinners. For instance, a "newsboy" as it is spelled means a lot in their business; each letter had its own meaning, and the boys have learned to explain its application to business methods.
