Eczema Wash Used in Hospitals

How many hospital patients have been freed of their frightful itch, of the scorching pain of skin disease, of the famous D. D. Prescription for eczema, a soothing fluid, washed in by a nurse's hand?

A Supervising Nurse (name of nurse and institute on application), writes regarding a patient: "The disease had eaten her eyebrows away. Her nose and lips had become disfigured. Since the use of D. D. her eyebrows are growing, her nose and face have assumed their natural expression."

Some of our best doctors are using D. D. right along in their regular practice. Come to us and we will tell you more about this remarkable remedy, 25c, 50c and \$1.00. Your money back if first bottle relieves you. D. D. Soap keeps your skin healthy. Ask about it.

COST OF MAKING PAPER IS LESS

[Continued From First Page]

and even higher in exceptional instances. "Averaging actual net receipts of domestic manufacturers for news-print paper were less than \$2 per 100 pounds during the first half of 1916. The average cost of manufacture of news-print paper in domestic mills was less than \$33 per ton during the first half of 1916, as shown both by the manufacturers' own cost sheets and by the costs as revised by the accountants of the commission. Furthermore, these average costs were slightly lower than the average costs in any year from 1913 to 1915."

Hazleton's Dailies and Weekly Raise Prices

Hazleton, Pa., Nov. 4.—Hazleton's three daily newspapers, the Sentinel and Plain Speaker, evening, and Standard, morning, to-day announced an increase in the price of subscription from a penny basis to 10 cents a week and 2 cents a copy on the streets, beginning with Monday. The advance is due to the rising cost of white paper, printing material and labor. The Weatherly Herald, a weekly, will raise its subscription from \$1 to \$1.50 a year after December 1.

WEST SHORE LOAN WILL BE PASSED. [Continued From First Page] they can use their present high school buildings for grade school purposes and thus avoid erecting a half dozen new buildings in the various towns instead of the one central building that is proposed. In addition, there is no question that a central high school will do more to improve and develop the West Shore than any one other thing. Hundreds of people will not go to the West Shore because of the lack of high school facilities and those who do go insist that their children be sent to the Harrisburg high schools at the expense of the local school.

boards, in order that they may have the four years' course to which the law entitles them. The situation in a nutshell The Lemoyne school board has issued a statement on the loan subject to their people which sums up the situation in general for all the boroughs and communities affected, showing that the new school will be a big improvement and not any more expensive than the present unsatisfactory system. It is as follows: "The undersigned directors of the Lemoyne School District hereby submit the following statement for the information of the voters of the Borough of Lemoyne, who desire to vote at the coming election upon the proposed loan for the establishment of a new joint high school in the school district of Camp Hill, Lemoyne, West Lewisburg, East Pennsboro and West Fairview. Our present High school is a high school of the third class, with a 3-year course, and a nine-month term. This year it will cost our district about \$1,200 to maintain it, this sum includes the tuition of four pupils from our last year's graduating class who are attending the Harrisburg high school. (Pupils who graduate from a school of the second or third class, have the privilege, under existing laws, to complete their education at a first-class high school, at the expense of their school district. This right, and this expense cannot be evaded by the directors of the district.) The tuition in Harrisburg per term for each scholar from an outside district is \$71.25. "Our next graduating class includes 10 scholars. If these take advantage allowed them by the law, in the same proportion as the last year's class, and complete their education in the Harrisburg High school it will increase the expense \$98.75, which will bring the cost of maintaining our high school up to about \$2,600. The school directors are powerless to prevent this increase. The law prescribes their duties and they are lawfully bound to perform them. This expense will increase as our graduating classes increase in number. "Every room in our school building is now occupied, it will be only a very short time until we will have to make provisions for a larger school building unless we go in with a joint high school. By taking our high school out of our present building, it will accommodate our grades for a number of years to come. "Proposed New Joint High School "To participate in the new joint high school of the first-class it is proposed to issue bonds to the amount of \$10,000, bearing 5 per cent. interest redeemable in 20 years. "The expense each year would be: Interest on bonds, \$516; sinking fund to redeem bonds, \$344; estimated cost to maintain 40 pupils in joint high school, \$1,800; total, \$2,660. "According to the above estimate, which we consider conservative, it would cost our school district about the same as it would to continue under our present system. "The new school would enable the pupils to complete their high school course within a year in our own schools. As it is they must attend the Lemoyne high school three years and the Harrisburg high school two years to get a first-class high school education under present condition, and it costs the district to keep the pupils in school five years where it would only cost for four years if we had a joint high school. "The board of directors will cheerfully furnish any further information that may be desired by the voters. "W. M. PETROW, "CHRIST L. EBY, "I. L. UNGER, "W. D. MUMMA, "L. F. BAKER."
