Will pay for the chance to heal Catarrh

After an experience of 25 years, during which time 50 million Americans have used Kondon's Catarrhal Jelly, the manufacturers of this remedy feel so sure that it will relieve catarrh—that they offer to pay for a chance to prove its benefit to any catarrhal sufferer. They announce that any resident of this community can go to almost any drug store and get a complimentary trial can at the expense of the manufacturers. If the druggist has no gratuitious packages, the person may buy a 25 cent tute with the unqualified understanding that if that first tube does and do that person more than a dollar's worth of good, he or she can get their quarter back from either the druggist, or the Kondon Company at Minneapolis. Over 35,000 druggists know Kondon's Catarrhal Jelly is effective, harmless, clean and pleasant to apply—and they know the Kondon people will gladly live up to this offer—"quarter back if not worth a dollar." "The result of to-morrow's election is not in doubt, nor is it a matter of uncertainty. It is not a question of rival claims. This fight has been won for the ticket of the reunited Republican party.

"After receiving reports from most of the States throughout the country, it is the unanimous belief of the members of the national campaign committee that Mr. Hughes will have at least 100 majority in the electoral college, and doubtless that majority will be very much larger.

"So far as the claims of our opponents are concerned, these extravagant claims are the invariable accompaniment of the Democrats in presidential campaigns."
