A medicinal preparation like Dr. Kilmer's Swamp-Root, that has curative value almost sells itself. Like an endless chain system the remedy is recommended by those who have been benefited by those who are in need of it.

BOTH SIDES TO DEMAND RECOUNT

(Continued From First Page)

President Wilson would be re-elected with 288 electoral votes, 22 more than enough to bring him the victory. Mr. McCormick claimed North Dakota, California, New Mexico and New Hampshire and insisted the Democrats had a good chance to win Minnesota. Republican Chairman Willcox said he stood by his statement of last night that Hughes would get at least 280 electoral votes.

Charles H. Warren, Republican national committeeman from Michigan, after a conference with other Republican leaders at headquarters, declared that Oregon and West Virginia were safely for Hughes and that the outcome depended on Minnesota, California, North Dakota, New Mexico and New Hampshire. Minnesota would probably go for Hughes, he said, but in the last four of these states the official count would be necessary definitely to determine the result.

Mr. Morganthau, in charge of Democratic headquarters this morning in the absence of Chairman McCormick, said that a recount would be demanded for the vote in New Hampshire. This, he said, would be done in spite of the figures received this morning showing that Wilson had a lead of 93 votes. He added that the Democratic figures show by the statement of last night that Hughes would get at least 280 electoral votes and that in view of the complex situation in that State a recount in any event would be necessary.

Republican Chairman Willcox, at noon, made this statement in regard to the matter of supervising the counting of votes in close states: "So far as the claims of the Wilson followers go," Mr. Willcox said, "they began to talk before the election. The history of that party is such that it will become time to raise the cry of fraud at this time. All right thinking people concerned in the election want an honest count. The Republican National committee will insist that the votes for its candidate be counted for him but we want no votes not properly official."

Discovery of Errors in North Dakota Count Cuts Down Wilson's Lead

Fargo, N. D., Nov. 9.—Errors in the tabulation of returns from a number of western precincts in North Dakota disclosed in a recapitulation shortly before noon to-day cut down President Wilson's lead by more than 200 votes. With 1,687 of the state's 1,859 precincts reported the count was: Wilson 51,474, Hughes 50,772. Among the missing are Eddy and Roosevelt counties, normally heavily Democratic. Great difficulty was experienced in securing returns. In the remote sections of the state ballot boxes were closed at midnight and no additional returns were available early to-day.

Only One Bid For Ripping Slope; Proposal Unopened

Only one bidder, Stucker Brothers Construction Company, has offered to riprap the river front slopes north of Hardacre, but Park Commissioner E. Z. Gross has decided not to open the bid until after Tuesday's Council meeting, when the question of the feasibility of concreting the embankment is considered. If Council decides that concreting will be more advisable, then the Park Commissioner will readvertise for proposals.

HOUSE AS WELL AS SENATE MAY BE DEMOCRATIC

New York, Nov. 9.—Returns on the election for members of Congress received up to 1 o'clock to-day showed 212 Democrats and 203 Republicans elected, with sixteen districts not accounted for. Control of the Senate is already assured. Seven of these sixteen districts are Democratic in the present Congress and nine are Republican. Should each keep to its present political affiliation, the count would stand 219 Democrats and 212 Republicans, which would give the Democrats a majority of 8 over the 212 Republicans and 4 representatives of other parties in the House.
