

**I can enjoy myself again since Resinol Soap cleared my skin**

When my complexion was red, rough and pimply, I was so ashamed that I never had any fun. I imagined that people avoided me—perhaps they did! But the regular use of Resinol Soap—with a little Resinol Ointment just at first—has given me back my clear, healthy skin. I wish you'd try it!

Resinol Soap and Resinol Ointment are sold by all druggists. For samples of each, free, write to Dept. 52, Resinol, Baltimore, Md.

**PRISONERS GET "DOPE" FROM COUGH REMEDY**

Sheriff Finds Drug Victims Novel Source of Supply

Many so-called cough cures offered to the public are heavily loaded with chloroform, opium, morphine, codeine and other narcotic drugs to such an extent that several prisoners of the Suffolk County jail at Boston got the drugs their appetite craved by pretending to the sheriff that they had severe coughs, according to the Boston Post of June 7, 1916.

These dangerous habit-forming drugs do have a temporary effect on the cough but they do not have a lasting effect and soon the cough comes back worse than ever. Doctors sound a warning against these preparations. A safe sane treatment for a cough or cold is Father John's Medicine because it is guaranteed free from any of these dangerous drugs or alcohol and has a record of more than sixty years' success as a family remedy in thousands of homes. Because of its wholesome purity it is safe for all the family. It soothes the throat and breathing passages, relieves the cough by getting at the cause, drives out the impurities by means of its gentle laxative effect and builds up renewed strength because of its wholesome food elements.

**SAYS HOT WATER WASHES POISONS FROM THE LIVER**

Everyone should drink hot water with phosphate in it before breakfast.

To feel as fine as the proverbial fiddle, we must keep the liver washed clean, almost every morning, to prevent its sponge-like pores from clogging with indigestible material, sour bile and poisonous toxins, says a noted physician.

If you get headaches, it's your liver. If you catch cold easily, it's your liver. If you wake up with a bad taste, furred tongue, nasty breath or stomach become rancid, it's your liver. Sallow skin, muddy complexion, watery eyes all denote liver uncleanness. Your liver is the most important, also the much abused and neglected organ of the body. Few know its function or how to release he dammed-up body waste, bile and toxins. Most folks resort to violent calomel, which is a dangerous, salivating chemical which can only be used occasionally because it accumulates in the tissues, also attacks the bones.

Every man and woman, sick or well, should drink each morning before breakfast, a glass of hot water with a teaspoonful of limestone phosphate in it, to wash from the liver and bowels the previous day's indigestible material, the poisons, sour bile and toxins; thus cleansing, sweetening and freshening the entire alimentary canal before putting more food into the stomach.

Limestone phosphate does not restrict the diet like calomel, because it can not salivate, for it is harmless and you can eat anything afterwards. It is inexpensive and almost tasteless, and any pharmacist will sell you a quarter pound, which is sufficient for a demonstration of how hot water and limestone phosphate cleans, stimulates and freshens the liver, keeping you feeling fit day in and day out.

**EGGS MUST COME FROM STOREHOUSE**

Dairy and Food Commissioner Foust Lays Down the Law in Regard to Storage

Orders have been issued by Dairy and Food Commissioner James Foust to all agents of his division to see that eggs, which are mounting in price, are not allowed to stay in cold storage a day longer than the law allows. Eggs stored in April, the great month for placing eggs away, must come out of storage, on the corresponding day in December in which they were put in storage.

"There are millions of eggs in cold storage which must come out in December," said Mr. Foust today. "I expect there will be a great outpouring in the next eight weeks and have told agents to watch all sales, shipments and receipts at warehouses. Under our law all eggs put in storage in April must come out in December. No eggs can be sold after the cold storage time limit of eight months has expired and any one who tries to sell will be arrested. We will also arrest any person trying to sell cold storage eggs as fresh."

"How many eggs are there in cold storage?" was asked of the commissioner.

"Well, April is the big cold storage month for eggs and I think that most of the 15,000,000 boxes reported in storage at the end of September are due to come out in December," said the commissioner.

Commissioner Foust also said that eleven agents had been ordered in Philadelphia, three in Allegheny and three in Washington for sale of unlabeled cold storage eggs or for sale of such eggs as fresh. The act forbidding sale of spoiled food has been enforced against fruit dealers and butchers in Philadelphia.

**What Is Auto-Intoxication?**

The best and clearest definition is "self-intoxication or poisoning by compounds produced internally by oneself."

Physicians agree that the vast majority of all illness is due to this cause brought on by accumulated waste in the one's system.

The one sure, natural and safe way to keep the intestine clean and free from this waste is by an occasional Internal Bath with simple warm water given by the "J. B. L. Cascade."

You will be astonished at your feeling the morning after taking an Internal Bath by means of the "J. B. L. Cascade." You will feel bright, brisk, confident and as though everything is "working right"—and it is.

Half a million Americans are now using this method with resulting better health and greater vigor. This is the diet like calomel, to you by Kroll Keller, 405 Market Street, and Geo. C. Pott's Drug Store, in Harrisburg, who also give you a most interesting book free on the subject of an eminent specialist. Ask or send for the booklet, called "Why Man of Today Is Only 50 Per Cent Efficient," while it is on your mind.—Advertisement.

**100 Are Massacred by Zapata Bandits**

Laredo, Texas, Nov. 13.—An indiscriminate massacre of nearly 100 women, children and Carranza soldiers, who were traveling on a train near Contreras, State of Morelos which was attacked by Zapata followers, is reported in Mexico City newspapers received here.

After the attack on the train the dead lay in piles beside the cars, the papers state. Only one person, so far as known, escaped death at the hands of the bandits. He was Captain Antonio Priego.

The attack occurred November 7.

The passenger train, conveyed by a military train six miles in advance, was halted in a mountain wilderness after the military train had been allowed to pass unobscured. For fifteen minutes the Zapatistas kept up the slaughter, slaying men and women who prayed for mercy and killing the babies who accompanied their mothers, the papers declare.
