and turn a loss into a splendid saving Many a charming evening gown will do just as well this season as last.

All it probably needs is dry cleaning—surely a wiser course to follow than making a large expenditure for a new one.

TWO TO RETIRE FROM CABINET

[Continued From First Page]

sons. One is that Mr. Daniels' administration, while not approved by many officials and the public generally, is highly satisfactory to President Wilson because of the "anti-boose" order.

Mr. Daniels knocked John Barleycorn out of the navy before the European powers took similar action in respect to intoxicants in their armies and navies.

A political reason for the retention of Mr. Daniels is that he would be the only out-and-out Bryan man in the Cabinet if Mr. Burleson should leave.

It will be necessary, with the House admittedly close and perhaps Republican, that the Bryan Democrats shall have recognition in the Cabinet.

With the commercial "war after the war" as the biggest problem facing the next administration, indications are that President Wilson will ask for the resignation of Secretary Redfield, of the Department of Commerce.

Secretary Lansing will remain in the next Cabinet, as will Secretary Lane, Secretary Wilson and perhaps Secretary Houston. There is much dissatisfaction with the administration of the Agricultural Department and this may influence President Wilson to make a change in his next Cabinet in that particular.

Secretary of War Baker can remain in the Cabinet if he desires. He objected to heading the Department of War when the portfolio was offered to him. President Wilson insisted that he associate himself with the administration.

Because of Mr. Baker's early attitude the President, it is announced, will request him to continue in the Cabinet.

It is the expectation here that Joseph P. Tumulty, the President's private secretary, will be rewarded with membership on the Board of Appraisers in New York.

This is a semi-judicial position, the duties of the board being to review the custom decisions and appraisement. It pays \$9,000 a year and is for life.

Mr. Tumulty has been a most loyal Wilson man and one of the leading politicians in the administration. Objections to him have arisen from Secretary McAdoo, Vance C. McCormick, Democratic national chairman, and

Henry Morgenthau, who are regarded as very close to the President. Those men wish to see Mr. Tumulty supplanted as the President's private secretary. The President, however, would not listen to their objections, and if Mr. Tumulty desires to continue as private secretary rather than accept a life position near his own home he can do so.

pected the Americans to be freed to-day. Brahan was a scout for General Pershing in Mexico. He is charged with having been in the employ of Villa, and Williams with having stolen cattle in his possession.

Albert Herold, another American who was arrested on a charge of stealing cattle, is again being held in the Chihuahua City penitentiary, according to George Herold, his father. He was released by the Carranza officers there and later rearrested. He is said to have held a commission in the Villa army at one time.

Remaining British in Chihuahua Reported to Be Warned to Depart

El Paso, Tex., Nov. 13. — A Mexican courier carrying instructions to Captain Scobell, British consul in Chihuahua City to come to the border with the remaining British subjects at once is reported to have left here to-day for the Chihuahua capital. The instructions are said to have been received by a prominent British refugee who arrived recently from Chihuahua City and to have been forwarded to the British consul by the courier.

The British refugees here refused to discuss the report to-night, saying they were not in a position either to confirm or deny it. If the British subjects come to the border, the remaining Americans, French and German residents of Chihuahua City are expected to come out on the next train. A troop train arrived in Juarez to-night from the south with approximately 300 troops on board.

The commission to-day received E. B. Martin's statement and affidavit to the effect that he was chairman of the transportation committee and that E. M. Abbott was not counsel and also Mr. Abbott's letter that he and Mr. Martin were the counsel for the United. Meanwhile things are to be allowed to remain quiet as far as the commission is concerned.

BRITISH TAKE TOWNS IN NEW THRUST

[Continued From First Page]

Somme was fought during the summer. The Ancre river, or brook, approximately 10 miles from the salient made in the German lines by the prolonged Franco-British offensive in the Somme region. Apparently General Haig's troops are now attacking the salient from both sides.

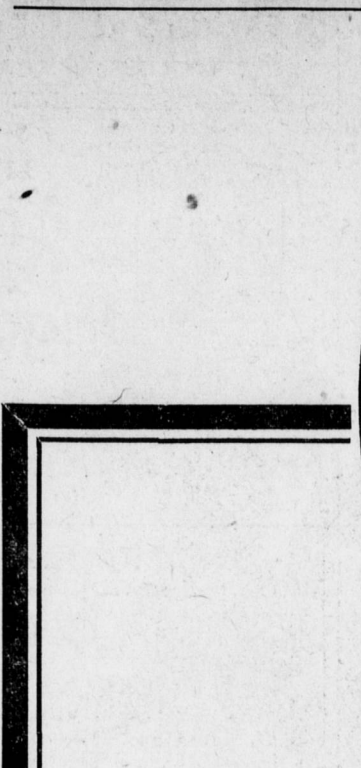

In a broad sense this salient extends some eighteen miles northward to Arras, but where the new British operation covers its entire breadth, an attempt is under way merely to crush in the southern section is not made plain by the official statement.

Reports from Petrograd, so far unconfirmed by official advices, declare that Field Marshal von Mackensen is continuing his retreat in Dobruja under duress. Von Mackensen said that the Russians have succeeded in crossing the Danube at two points south of Tchernavoda, which, if correct, would mean that von Mackensen's army was being taken in the rear or that he had been forced back from the Constanza-Tchernavoda railway line. His force is said to be demoralized from reverses, heavy losses, disease and lack of reinforcements.

Constanza Under Fire. — The Black Sea port of Constanza is reported again under fire of the Russian fleet. The recent Serbian victory in Macedonia appears from the entente accounts to have been a brilliant one. Paris reports that the Germans and Bulgarians were pushed back nearly 200 miles in the Cerna river region southeast of Monastir in a two-day battle and that they lost 1,000 men in prisoners. Unofficial accounts speak of an additional Serbian success to the north along the bend of the river, carrying the closing-in movement on Monastir still farther.

Official Berlin to-day reports that entente artillery was yesterday shelling Tchernavoda, in Dobruja, from across the Danube. Rumanian Town Taken. — Teutonic progress continues on the Transylvania border of Rumania, the German statement declares. Three towns were captured, numerous attacks by the Rumanians were repulsed and more than 1,000 prisoners were taken.
