RHEUMATISM

Physician Believes a Genuine Remedy For the Disease Has Been Found
Rheuma, the wonderful rheumatism remedy sold by H. C. Kennedy and all druggists, gives quicker and more lasting relief than other remedies costing many times as much.

Rheuma passes the deadly poisonous secretions into the bowels and kidneys, from which they are quickly thrown off in a natural, healthy way.

Read what a reputable physician says about Rheuma: "I have made a most careful investigation of the formula employed in the manufacture of Rheuma, and I heartily recommend it as a remedy for all forms of rheumatism. I find Rheuma far in advance of the methods generally employed in the treatment of rheumatism, and altogether different in composition from the remedies usually prescribed."—Dr. Lyons.

Initiative in Putting Light Saving Plant Into Effect

New York. Nov. 14.—American railroads will be asked by the Daylight Saving Committee to take the initiative in putting into effect next summer the proposed plan to turn the clock forward one hour in this country, it was announced here to-day. A national daylight saving convention will be held here January 30 and 31 next and the committee meanwhile will confer with railway presidents.

The subject will be considered by the American Railway Association at its semiannual meeting here to-morrow. A committee which has made an inquiry will recommend that while the railroads should not antagonize the movement, they should not agree to the plan "until it has been previously adopted by the principal business and municipal centers, together with the state and local authorities.

The United States Senate will, after March 4, look like a new body, so many new faces will appear. Here are just a few of them. One of the most interesting changes was that in the senatorship of Rhode Island, where Senator Lippitt was defeated by Peter Goelet Gerry, the wealthy young society man, who broke into the House of Representatives four years ago.

reiminal than toward a sinner of his own sex.

It is quite true that were the life of many an immoral woman investigated it would be found that she made the first advances to her victim. There are woman libertines and moral outlaws in the world.

Yet even then a just judge or jury realizes that the man knew what he was about when he responded to her advances, and that he had less to sacrifice in the eyes of the world than the woman. Being the ctronger, fortified by nature and the laws of society, it behoved him to try to put her in the path of rectitude.

If men would show the same spirit toward woman at all times which they exhibit on the judge's bench and in the juror's box few women criminals would be brought before them.

Hundreds of men forget that they have mothers and sisters when they tempt innocent women acquaintrances and employes in folly, but they remember the relationship of the hardened criminal to their dear ones.

It is a peculiar fact that while man woman of blemished reputation when her life is in danger, he will object to having the good women of his family of consolation.

RESUME ACTIVITY ON STRIKE PLANS

Trainmen and Managers Fail to Reach Agreement on Adamson Law

Failure on the part of railroad and brotherhood officials to get together yesterday on the Adamson law will oring renewed activity in Harrisburg members of local brotherhood lodges would open headquarters in various parts of the city in order to be ready for prompt action in the event of a

strike.

Preparations which were stopped by the railroad companies when the strike was called off some time ago, it is said, will be resumed. This is not taken as an indication that the Pennsylvania Railroad Company expects a strike, but, as put by one local official, "We want to be ready if a strike comes."

Cots, bedding, washstands, etc., will be brought out of storehouses and placed in shape for service if needed.

CONFERENCE IS FAILURE

CONFERENCE IS FAILURE

New York, Nov. 14.—Danger of a hation-wide railroad strike, which was believed to have been averted by the passage of the Adamson eight-hour law, has not disappeared, it developed here yesterday, when representatives of the railroads and the four brother-hoods, comprising 400,000 employes, failed to reach an agreement as to the proper application of the new law. The stumbling block, both sides admitted, was the existing mileage system of compensation.

"We met,' said Elisha Lee, chairman of the railroad managers and the conference, "but failed to reach an agreement, and we are not certain that another meeting will take place.

"Frankly, the trouble lies in the fact that neither the railroads nor the men know definitely how the law should be applied. We have our own ideas as to how the law shall be applied, if at all, as suits to test its validity are now pending, while the brotherhoods have their own ideas."

Building Another Great Submarine to Take Place of the Lost Bremen

Washington, Nov. 14. — Another great trans-Atlantic merchant submarine, to take the place of the Bremen, sister ship of the Deutschland, which was lost with all hands on her maiden voyage to the United States, now is being built in Germany.

Definite information regarding the new vessel is lacking. The submarine, it is said here, will be purely mercantile in character, her arrangement being similar to that of the Deutschland. It is not known when the vessel will be ready for her first trip to the United States.

The Deutschland, it was learned to-day, will not carry any regular mails from the United States to Germany on the coming trip. Negotiations for a trans-Atlantic submarine mail service have been carried on between the German embassy and the Post Office Department. The operating company has not yet fully agreed to the service because it is felt that the submarine service being in the nature of an extraordinary one should command a higher rate just as the United States post office charges a higher rate for special delivery.
