UPPER END TOWN GROWS RAPIDLY

Millersburg's Many Industries Busy; Paving Main Street

Millersburg, Pa., Nov. 14.—Expansion and growth that will more than double its present population of 3,000 within the next decade is the evident future of the bustling town of Millersburg. There is no cleaner nor more progressive little community in the State and the present prosperous condition of its industries augurs well for the coming years under the same regime.

Constant improvements are under way. The much traveled highway leading through the center of the town and around the inviting green suggestions of Revolutionary days is receiving a brick finish for several squares, building operations are many, and hundreds of lots are being platted.

Practically all the factories in town are working overtime, including the Johnston-Ballie Shoe Company, which employs 600 men and girls; the Alvord Reamer Works, makers of taps, dies and iron cutting tools; H. A. Folk & Sons and Brubaker Brothers, who manufacture the same, and who have been pressed with work for the last six months; the Millersburg Shoe Company; C. Day & Bros. and the F. H. Wingard Company, both broom factories, which have been working at all capacity for some months; the Halifax Chair Seat Company, J. H. Klingman, proprietor, which makes a substitute for the wood perforated seat and has more orders than it can fill, and the other concerns in town are likewise flooded with work.

Use Ice In Winter

Keeping ice in your refrigerator during the winter is not a luxury—but an economy.

During cold spells, when you don't need it, it doesn't melt much and costs you little; but it is all ready to keep your food from spoiling when a warmer day comes.

It is dangerous to place food out of doors where dust and dirt will settle upon it.

Food put on the back porch will attract germs.

It is HEALTH INSURANCE to use ice "all the year round." More people do every year.
