Orvis, of Bellefonte, Democratic candidate for United States senator, certified to expenditures of \$130.66, mostly for traveling expenses and that he still owed \$100, promised to the Democratic county committee.

David E. Oliver, of Pittsburgh, Republican candidate for president-elect, certified to \$1,000 contributed to the Republican national committee, a like sum to the Republican state committee and \$500 to the Allegheny county Republican committee. While Nial C. Brodhead, of Philadelphia, also Republican presidential elector, certified to expenditure of \$110.

Notable public were to-day appointed for Somerset county as follows: E. G. Whipke, Middle Creek township; John C. Cunningham, Ursinus and William K. Taylor, Rockwood.

Claim that the Adams Express Company had failed to deliver 7,000 sweet peas insured for \$100,000, shipped from Brandywine Summit to Pittsburgh, was made to the Public Service Commission to-day by Alban Harvey, of Brandywine Summit. He contended that although the peas were lost on April 22, he had been unable to get a settlement. The amount of flowers is the largest ever represented in a matter brought to the attention of the commission.

Charles Johnson, former Insurance Commissioner, and David B. Johns, Pittsburgh, were "Hill" visitors to-day.

Offers of evidence in the investigation into the affairs of the Pension Mutual Life Insurance Company, of Pittsburgh, when its receivership proceeding is heard in the Dauphin county court, are being made to Insurance Commissioner J. Denny O'Neil in numerous letters which are receiving O'Neil is following up many of them in his effort to reach the insurance "high finance" which he feels satisfied went on in some of the companies.

The Public Service Commission will probably ask the men in the United Business Men's Association and other organizations in Philadelphia to assist in the early commutation cases to meet with it in Philadelphia November 24. The commission to-day considered the correspondence in the case and when receiving any information as to who is legal representative, will endeavor to find out. Among letters received to-day was one from J. H. H. Wills, of Downingtown, representing the Men's Club, Civic Association and Board of Trade, in which it is stated that the new rate may be satisfactory. J. S. Freeman, writing for the same purpose for the Association, said that while his people wanted more concessions, they are satisfied with what they got.

PELL MELL RUSH TO GET STEEL

Car Shortage Believed to Cause Tie-Up in Filling Orders

The higher that prices of pig iron and steel products go, the more easily new advances are made. The ultimate effect of the new high levels on the trade of manufacturing buyers of finished steel counts for little in the pell mell rush to get steel. Car shortage is a serious matter.

In summing up the situation, the Iron Age of to-day says: "An advance of \$5 a ton in rail prices was announced by the Steel Corporation this week, applying to all deliveries. With demand pressing them on every side for steel products carrying 50 to 200 per cent. larger profits than rails, the kind of deliveries mills will make on rails taken for the first half of 1917 at \$10 less than to-day's prices is already in question."

A leading steel interest has sold plates for delivery extending to the middle of 1918. The cost for the plates is insatiate and as high as 4.50c for forward delivery has been done, while for several hundred tons for early delivery 5.50c was paid. A Canadian car works has just placed 15,000 tons of plates and shapes in eastern Pennsylvania.

The disposition of mills to defer consideration of business offered for next year is more marked. Each week large tonnages, both export and domestic, appear to go begging. Chicago reports the whole market for steel products becoming more restricted and abnormal. A feature there is the large demand for tie-plates, two railroads having just placed 17,000 tons.

In the pig-iron market the effect of the large October sales of Southern iron for export is still cumulative and estimates of the extent to which the advance will go take a wide range. On Southern No. 2 iron \$20, Birmingham, was established as the market at the end of last week, though at the same time sales at \$18.50 and \$19 were reported. Early this week \$19 iron was still to be had for delivery in the second half of 1917.

Von Hindenburg Pleads For Greater Production of Fats
Berlin, Nov. 15, via London, Nov. 16. — The afternoon papers to-day print a lengthy appeal by Field Marshal Von Hindenburg to Dr. Marv Bethmann-Hollweg, the imperial chancellor, for active propaganda among agriculturists to induce not only a greater production of fats, but also a greater willingness voluntarily to give up all available food supplies for the benefit of industrial workers, particularly in ammunition making centers.
The appeal declares it does not appear to be sufficiently appreciated in some circles that it is a question of life and death for the German people and empire and that it is impossible to keep workers on an efficient basis unless they have a justly proportioned and sufficient amount of fats. Field Marshal Von Hindenburg says he is informed from the coal mine sections and other industrial quarters that this is not only the case but that the

Commander of U-Boat Which Sunk Rowanmore Says Rules Were Followed
Berlin, Nov. 15. — Wireless to the Associated Press via Sayville, Nov. 16. — Assertions that the German submarine which sunk the British ship Rowanmore, on which there were several Americans, fired upon lifeboats containing members of the crew, are dismissed as utterly false in the report of the commander of the submarine, further details of which became known to-day.
In fact, it is said, the men on the Rowanmore owe their lives to the precautions taken by the Germans and the skill with which their operations were carried out. During the twenty-minute pursuit of the steamship the submarine's shots were aimed accurately eastern to limit the danger to the crew, which was congregated at the bow. The Rowanmore was hit ten times.
