Tried Various Kidney Remedies But Only One Proved Reliable

It is with great pleasure that I write these lines of praise for your wonderful kidney and bladder remedy. I had kidney trouble so bad I became very much alarmed. I had tried various kidney remedies I heard of but without relief. I was about discouraged of ever being helped, when, one day I picked up a book containing testimonials of people who had been helped and cured of their kidney trouble by the use of Dr. Kilmer's Swamp-Root, so I decided to try it and I know I owe my present good health to the wonderful curative power of Swamp-Root. I sincerely hope many other sufferers of kidney and bladder troubles to good health.

Very truly yours,
B. J. FENSTERMAKER,
1491 Roycroft Ave. Lakewood, Ohio.
Personally appeared before me this 18th day of October, 1916, B. J. Fenstermaker, who subscribed the above statement and made oath that the same is true in substance and in fact.

'Only 'Gets-It,' For Me After This!

It "gets" Every Corn Every Time. Painless. Nothing More Simple.
"I'll tell you what, I've quit using toe-eating salves for corns. I've quit making a package of my toes with band-aids and contraptions—quit digging with knives and scissors. Give me 'GETS-IT' every time!" That's what they all say the very first time they use "GETS-IT." It's because "GETS-IT" is so simple and easy to use—put it on in a few seconds—because there is no work or corn-fooling to do, no pain that shoots up to your heart. It gets your corns off your mind. All the time it's working—and then, that little old corn peels right off, leaves the clean, corn-free skin underneath—and your corn is gone! No wonder millions prefer "GETS-IT." Try it tonight.
"GETS-IT" is sold and recommended by druggists everywhere, 25c a bottle, or sent on receipt of price by E. Lawrence & Co., Chicago, Ill.

A Growing Custom!
The custom of placing Grape-Nuts on the table at all meals is growing in American homes.

PREACH SAFETY BY BIG POSTERS

Department of Labor Working to Bring About Better Conditions

An educational campaign to carry a message of safety and accident prevention directly to employes in Pennsylvania's industrial establishments has been instituted by Commissioner John Price Jackson, of the Department of Labor and Industry, by the distribution of "accident prevention posters" to be placed on bulletin boards and in other conspicuous places around industrial plants. The posters are 8 1/2 by 11 inches in dimensions and in attractive typographical display; each poster carries to industrial workers in few words a vital thought for carefulness.

The first poster of the series gives a record of accident reports for the first six months of this year showing that 1,000 persons were killed, 125,000 persons injured and over \$1,000,000 lost in wages by injuries. A display line sets forth that 50 per cent of this enormous loss could have been prevented. In heavy black letters the worker is admonished as a final thought: "Do your work in a safe way. Is it not worth while?"

The second poster gives a photograph of a worker who lost an arm while adjusting moving machinery. Beneath the photograph appears this warning: "Do not oil, repair or adjust moving machinery. Stopper or later you are bound to suffer from such carelessness. Why take chances when injury is sure to result?" At the extreme corner of each poster are replicas of a keystone containing a white cross within a black disc with the words "Safety Always" appearing at the bottom of the black circle.

Commissioner Jackson has arranged for the production of a series of these posters to be issued at intervals of two weeks to a month. They will be sent to all applications from industrial establishments. Application for the original posters will insure that subsequent issues will be mailed without further application.

\$100,000,000 at Stake in Coal Lands Decision

Washington, D. C., Nov. 16.—A decision which may save the United States government several hundred million dollars was given here to-day by the District Appellate Court. It holds that an act of Congress requiring sale of government-owned coal lands in Montana and other states at from \$10 to \$20 an acre fixed a minimum and not a maximum price. The appraised value of the lands is said to be nearly \$100,000,000 above the minimum prices.

The suit came up in mandamus proceedings by Fred W. Handel and Mae Handel, of Montana, to compel the Secretary of the Interior to accept the minimum price, when he had fixed \$70 per acre for these lands and declined to issue a patent until that price was paid. A lower court decision upholding the secretary was affirmed by the appeals court.
