Woman and Boy Walk From N. Y. to Harrisburg

SATURDAY EVENING,

Huge Dealings in Coppers Outstanding Features; U. S. and Bethlehem Steel Advances

New York, Nov. 18. — For a weekend session to-day's operations were the largest and most exciting of almost any day since the re-opening of the exchange in December, 1914. Huge dealings in coppers, based upon trade conditions and circumstantial rumors of mergers and consolidations, was the outstanding feature.

New high records were made by practically all issues of that description as well as by United States Steel and Bethlehem Steel. Other indus-A pathetic story of a woman's single

TELEPHONE SOCIETY TO MEET The Telephone Society of Harrisburg will hold its regular monthly meeting Monday evening, November 20, in the Board of Trade building at 3 o'clock. The speaker of the evenign will be P. C. Staples, publicity manager of the Bell Telephone Company of Philadelphia.

MAYOR TO REQUEST **30 MORE POLICE**

[Continued From First Page]

the various city departments declare they cannot yet figure how the city fathers can avoid adding at least a quarter and perhaps a half mill. That the commissioners will do their level the commissioners will do their level best to keep down the appropriation poes without saying; there'll be a good deal at stake during the coming year, what with the first Tuesday after the first Monday of November, 1917, traught with uppleasant possibilities.

The Thirty Cops

And, in view of the further fact that thirty more policemen will boost the budget at least \$27,000, grave doubt has been expressed as to whether Mayor Meals will get all he asks for. Which, city circles believe, will mean some unpleasant set-tos between the Mayor and his fellow commissioners during budget making time.

The Mayor has declared that the city needs thirty more policemen and that if he, as head of the Police Department, is not supplied with additional aid, opposing councilmen cannot expect his help in advancing any pet moves.

Increased Revenues The Thirty Cops

tional aid, opposing councilmen cannot expect his help in advancing any pet moves.

Increased Revenues

The increased valuation may mean an additional million dollars on the assessment; the Mayor's suggestion for paying the electric light bill from the Water Department funds may get some consideration; but the chances for a very specific boost in revenues are not of the brightest—and the city's outlay during 1917 is bound to be considerably greater.

Furthermore, if the work in the various departments is to be continued until the close of the year, there may be deficits in some of the departments. These will have to be provided for in the new budget. The street repairing fund will be exhausted; Commissioner W. H. Lynch spent more money than ordinarily, it is true, but—he repaired more than 45,000 square yards of asphalt street.

The Typhoid Cost

In the Bureau of Health and Sanitation there will be a considerable deficit, due, in a measure, to the establishment of the emergency convalescent typhoid hospital. Park Commissioner Gross is down to hard pan in his department and in fact the Mayor has had to do a lot of careful scraping to finish up the year with a clean slate.

That more money for street, repair work will be asked for by Mr. Lynch

scraping to finish up the year with a clean slate.

That more money for street, repair work will be asked for by Mr. Lynch is generally expected; Mr. Bowman must provide for a lot of additional ornamental lighting which will be a drain natural on the departmental purse strings. New lighting for Federal Square in particular has been promised for the new year.

In the Park Department Mr. Gross will have to have more money. His new departmental automobile must be paid for; additional funds are required for general maintenance and repairs; money will have to be set aside for the sinking fund, interest and state taxes on the \$60,000 fire loan.

"Maybe," said on dubious councilman to-day, "we might be able to get through the coming year without raising the mill rate, but I've very grave doubts. If we are to provide adequately for the departmental needs, to my mind we ought to increase the revenues by adding at least—half a mill!"

Trust Companies' cash reserve in vault, \$57,590,800.

•-----St. Paul, Minn., Nov. 18. — On official returns from seven counties rests to-day the hope of the Democrats for a turnover that would give Minnesota to President Wilson. With official counties, the totals this morning 413. Unofficial returns from the seven claim a sure victory.

What Others Think of Harrisburg Real Estate

"Men who have been following the movement of real estate in Harrisburg are of the opinion that this year is going to show not only pretty close to a record in the number of transactions, but also that a much larger amount of money than the average man realizes has figured in the changes. Prices for real estate, especially in the central part of Harrisburg, are high, but the value is there and men who have been buyers lately declare that while they have been liberal they feel satisfied with their purchases. One reason for this is that Harrisburg real estate is a very popular form of investment for home people.

This city has not indulged in any real estate sky rocketing and it has gone on making substantial improvements, pushing out its highway and sanitary facilities and steadily enhancing values, a condition which men from other cities, who have noted the trend of things here, say, makes for very attractive home investments. In short, from what the Harrisburg men who have no lots to sell and the men from other places, both of whom have been observing real estate here, say, our property is stable and it has a very high percentage of home ownership." (Harrisburg Telegraph).

ECONOMY SATISFACTION.

Invest in Emerson Motors Co., Inc., NOW.—Secure an interest in the early stages of its development and let your money grow with the progress of the company.

The Company will soon be making deliveries, and within 60 days should have five hundred Emerson "Fours" in the hands of customers.

Applications for agencies and orders in hand would take care of the output of two plants the size of the Emerson Fac-

care of the output of two plants the size of the Emerson Factories.

Read the announcements now appearing in the trade journals regarding specifications of the car and agency particulars — Motor World, Motor
Age, Automobile Topics, Horseless Age, The Automobile, Automobile Trade
Journal, Motor (in Dec.). Read what they say editorially, etc.

The big field for output and large profit-making is in standardized
ars like the Emerson "Four" — the lowest priced 110-inch wheelbase fivepassenger car in the world.

Emerson "Fours" will be on exhibition in the New York and Chicago
Automobile Shows in December and January.

The automobile industry, in spite of its wonderful present prosperity,
is just on the threshold of developments that will, during the next few years,
make the production and profits of the past seem commonplace by comparison. Millions have been made — millions more will be made, and right now
is a good time to make a substantial investment in Emerson shares, while
the company is in the first stages of its upbuilding and progress.

CO-OPERATION is now—and always will be—a big factor in the success of business. Over ten thousand stockholders now—fifteen thousand by Jan. 1st, and fifty thousand within one year—is the aim of this Company. Every stockholder a booster, means low cost of selling expense, therefore GREATER PROFIT.

Read This Carefully

The 7% cumulative preferred stock shares are a guarantee as to first profits. The common stock shares have no limit or fixed amount of earning capacity—therefore a combination holding of both preferred and common should prove to be a fine investment. Figuring on an output of 30,000 cars next year, it is estimated that in addition to 7% on the preferred stock the company could pay 20% on its common stock and leave nearly half a million dollars in the treasury for future operations; while with the greater output expected, the earnings would be tremendously increased.

Buy Shares Now And Obtain the FREE Common Stock BONUS

INCREASE YOUR

Note:—For reasons of vital interest to every stockholder, we are giving a certificate represent-ing the common stock bonus to be known as an "order for future delivery of common stock." This certificate is non-negotiable and non-transferable.

The Company is now offering for sale a limited amount of its 7% cumulative preferred stock, and with each two shares purchased NOW will give one share of common stock free as a bonus—par value of all shares 310 each. All shares are fully paid and non-assessable.

This is done in order to retain the voting power of this honus stock in a single unit until June 1, 1919, at which time "orders for future delivery of common stock" will be called in and exchanged for common stock certificates. Meantime you are not deprived of a single right or prerogative in the war of dividends. You will receive their. al' when paid as paid.

The Lowest Priced 110-inch Wheel-base 5-passenger Car in the world
