CHRISTMAS KEEPS KIDDIES BUSY

One wise mother thought of a way to keep the children quiet and it is told about in the December Woman's Home Companion. The writer says: "One year it chanced that the children were all suffering with severe colds and must be kept indoors for a few days before Christmas. The mother was at her wit's end to keep them entertained and quiet, when little Annie, after a whispered conference with her brothers, came to her mother and asked timidly: 'Couldn't we make something for the Christmas tree?' 'Why not?' thought the harassed mother, ready to grasp any relief. Accordingly she brought out a store of colored paper, supplied paste, scissors and sewing materials, and arranged a table on which the children could work. They made gilt and silver stars, cornucopias and tiny baskets from flowered wall paper, and tarlatan bags to be filled with candies. Popcorn was popped and strung in chains. Cotton was made into snow balls and snowflakes. The children were kept happy and busy, and their physical conditions improved each day."
