MEETING TO FORM WELFARE LEAGUE

Lemoyne People Will Organize Body Tonight to Take Charge of All Public Affairs

Lemoyne, Pa., Nov. 27.—Efforts will be made to organize a Lemoyne Welfare League at a mass meeting to be held in the high school building tonight at 7:30 o'clock. A committee of young men of the town tried to accomplish this object last year, but failed.

Agitators of the move are anxious that the town's children are taken care of when not engaged in school. As it now is, many small tots are running about the town when not in school and are continually getting into mischief. The committee plans to arrange different lines of amusement and work for these children.

Without an organization to take care of municipal affairs in the borough of Lemoyne, the town has taken an advanced step in municipal affairs along the West Shore. The committee in charge of the Christmas tree last year barely succeeded owing to opposition on the part of some residents. The proposed league, which will be a body of business men and active women, will do no doubt have more weight when the time arrives to hold similar celebrations. The Yuletide celebration this year will be a subject for the league if successfully organized tonight.

We put it up to Hundreds of Dentists

Long before SENRECO was offered to you we submitted it to hundreds of dentists, requesting that they put it to every test. Told them that we believed SENRECO to be an unusually good dentifrice, especially as to its cleansing qualities and its remedial action on sore, soft, bleeding gums; in the treatment of Pyorrhoea, etc. Submitted the formula and asked them their opinion. They tested Senreco from every angle; some going even so far as to make a chemical analysis—

**And They Voted Yes**

With practically one accord—said:

"Senreco appeals to me more than any dentifrice I have ever seen." "I cannot say too much for Senreco. It's one of the best I have used." "I can recommend Senreco to the best." "Makes the teeth brilliant and is free from injurious ingredients, including pumice and grit." "I am indeed glad to get a tooth paste that does the work." "Congratulate you on formulating a dentifrice that gives one a new idea of mouth cleanliness, etc." (These quotations are from the dentists' reports. Originals on file at our office.)

With such endorsements from the men who know why not go to your dealer today and get a tube of SENRECO—25c. Keep your teeth REALLY CLEAN, and protect yourself against Pyorrhoea and decay.

A copy of the folder, "The Most General Disease in the World" together with a liberal trial size tube of SENRECO will be mailed you for 4c in stamps. The Santal Remedies Co., Inc., Dept. B, Masonic Temple, Cincinnati, Ohio.

**HAVE COLOR IN YOUR CHEEKS**

Be Better Looking—Take Olive Tablets

If your skin is yellow—complexion pallid—tongue coated—appetite poor—you have a bad taste in your mouth—no good feeling—you should take Olive Tablets.

Dr. Edwards' Olive Tablets—a substitute for calomel—were prepared by Dr. Edwards after 17 years of study with his patients.

Dr. Edwards' Olive Tablets are a purely vegetable compound mixed with olive oil. You will know them by their olive color.

To have a clear, pink skin, bright eyes, no pimples, a feeling of buoyancy like childhood days you must get at the cause.

Dr. Edwards' Olive Tablets act on the liver and bowels like calomel—yet have no dangerous after effects.

They start the bile and overcome constipation. That's why millions of boxes are sold annually at 10c and 25c per box. All druggists. Take one or two nightly and note the pleasing results.

**The Telephone Cord**

Here the green covering of the "cord" that connects your Bell Telephone to the bell-box, has been pulled back.

Three separate "conductors" are disclosed, each with its woven covering of silk and linen and cotton, and inside the tiny wires are plaited together that the whole may be flexible.

The little copper wires are finer—much finer—than hair and there are many of them.

Think what must happen when the cord is kinked and snarled into a mass of twists and knots. The little wires rub against each other and, in the end, the transmission becomes "raspy" and "noisy"—the sound, in telephone parlance, of "fryin' turnips" on the line.

You can help to safeguard the high quality of your Bell Service by keeping the cord "kinkless" always.
